All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

HISTORY OF SOUTHWEST UNIVERSITY AT EL PASO

Southwest Career College, now Southwest University at El Paso, opened its doors to the public in June 1999. The primary goal of the institution was to provide quality education to individuals who lacked a strong grasp of the English language and had not received their high school diploma.

In November 2002, Southwest Career College added vocational career courses that would help the participants achieve their career goals. By working with the business community as partners, Southwest Career College created an extensive and complete curriculum in the fields of Office Technology, Administrative Assistant, and Medical Records and Health Information Specialist. Reacting to the demand from the business partners, Southwest Career College added a Medical Assistant program in May 2004, Diesel Technician in May 2005, and MRI Technologist in May 2008. In April 2009, Southwest Career College received authorization from THECB to grant an Associate in Applied Science Degree in Diagnostic Medical Sonography, and changed its name to Southwest University at El Paso. Southwest University at El Paso added Bachelor's Degree programs in Business Administration and Health Administration and officially became a university in 2012.

SOUTHWEST UNIVERSITY AT EL PASO MISSION STATEMENT

The mission of Southwest University at El Paso is to provide exceptional career and technical training, promote intellectual growth, critical examination and informed understanding through general education and a commitment to educational excellence strengthened by quality instruction, a positive learning environment, and the integration of emerging technologies to enable students to achieve their potential, participate in new employment opportunities, and continue to be lifelong learners.

SCHOOL POLICIES ON ADMISSION AND ENROLLMENT

APPLYING FOR ADMISSION

An admissions representative conducts a personal interview with each applicant before any decision is made regarding enrollment. The representative and student will meet to discuss the school's programs and the student's career goals. The representative assists the student in the completion of the application packet. The school director reviews the application for evidence of a high school diploma, a GED certificate, or a transcript from an accredited post-secondary educational institution for acceptance. If the applicant is not accepted to a desired program, an alternative program may be suggested. Any applicant rejected for admission will be notified within seven working days. Any fees paid by the prospective student will be fully refunded.

Southwest University at El Paso has established the following requirements and procedures for admissions:

- VisitSchool
- Complete interview with admissionsrepresentative
- Complete admissions packet
- Sign the enrollment agreement
- Sign a statement of general health
- Complete necessary school documentation

ADMISSIONS REQUIREMENTS

Medical Assistant, AAS Medical Coding & Billing, AAS Health Administration, AAS Business Management and Accounting Systems, AAS Automotive Technology, AAS Diesel Technology, AAS Medical Assisting, BS Health Administration, BS Business Management

1. A high school diploma or its equivalency
2. For home schooled students: a certificate from the state in which the students resided during their home schooling
3. Successful interview with an admissionsrepresentative; and
4. Minimum age of at least 17 years (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)

**The following programs have the following additional requirements:
AAS Radiological Sciences, AAS MRI Technology, AAS Diagnostic Medical Sonography**

- Prospective students must submit an AAS Imaging Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional entrance exam with a minimum of 70%.

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The Following is required for all students wishing to enroll the program:

- **Graduate of a SU Allied Health Program**
- Minimum SU Cumulative GPA of 3.5, attendance rate of 90% **is required.**

MILITARY STUDENTS

We will help you untangle the college web. Contact an admissions representative to get information about how you, as a military/veteran student or dependent, can get started with your degree. We will provide you with an application for our military scholarship program and will let you know if you qualify for a scholarship.

- **Veterans' Educational Benefits**
If you haven't applied for your Veterans' Educational Benefits, go to www.gibil.va.gov
- **Post-9/11 GI Bill Tuition Benefits**
Under the new Post-9/11 GI bill, effective August 2009, eligible students can get their tuition covered up to the cost of tuition and fees, in addition to receiving housing and book stipends.
- **Reactivating GI Bill**
If you are coming back to SU or have already used your MGIB benefits at another college; you must reactivate your GI Bill by filling out an application for Change of Place of Training or Program (form 22-1995). Take the completed application to Services for Veteran Students.
- **Tuition Assistance Procedures**
Visit your local Education Service on Post for guidance to apply and use TA. GoArmyEd instructions to apply: www.goarmyed.com/loin.aspx
- **Dependents**
Several options are available for military dependents including using benefits transferred to them from service members. Discuss MYCAA and other financial options with your representative during your career counseling session. Apply: <http://www.military.com/education/content/money-for-school/military-spouse-career-advancement-accounts-financial-aid.html>
- **Vocational Rehabilitation**
Visit your local veterans' service office for details.

Your representative will schedule a financial aid appointment with you to determine what you are eligible or qualified for. You will be required to apply for a pin number and file your FAFSA with the financial aid office.

After you have completed your career counseling sessions, the Admissions Office will notify you of available orientation dates. Orientation is mandatory for new students.

After you've applied for your Veterans' Educational Benefits, turn in your application (letter of eligibility), DD214, and your certification form (VA 22-1999) to Veterans' Services or your admissions advisor before class starts so you can start receiving your education benefits.

SERVICEMEMBERS OPPORTUNITY COLLEGES (SOC)

Southwest University at El Paso is a member of the Servicemembers Opportunity Colleges (SOC) Consortium of approximately 1,900 colleges and universities. SOC consortium members subscribe to principles and criteria to ensure that quality academic programs are available to servicemembers, including members of the National Guard and Coast Guard, their family members, reservists, and veterans of all Services. As an SOC Consortium member, this institution ensures military students share in appropriately accredited postsecondary educational opportunities available to our citizens. Flexibility of programs and procedures, particularly in admissions, counseling, credit transfer, course articulations, scheduling, course format, and residency requirements are provided to enhance access of servicemembers and their family members to higher education programs.

CONVICTION FOR POSSESSION OR SALE OF ILLEGAL DRUGS

A federal or state drug conviction can disqualify a student for FSA funds. The student self-certifies in applying for aid that he/she is eligible;

A conviction that was reversed, set aside, or removed from the student's record does not count, nor does one received when the student was a juvenile, unless she/he was tried as an adult.

The Chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs).

	Possession of Illegal Drugs	Sale of Illegal Drugs
1 st offense	1 year from date of conviction	2 years from date of conviction
2 nd offense	2 years from date of conviction	Indefinite period
3+offenses	Indefinite period	

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

A student regains eligibility the day after the period of ineligibility ends or when he/she successfully completes a qualified drug rehabilitation program. Further drug convictions will make him/her ineligible again.

When a student regains eligibility during the award year the University may award Pell and Campus-based aid for the current payment period and Direct loans for the period of enrollment.

STANDARDS FOR A QUALIFIED DRUG REHABILITATION PROGRAM

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company
- Be administered or recognized by federal, state or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.

DESCRIPTION OF FACILITIES

Southwest University at El Paso currently has one main campus and one separate classroom space. Our main campus is located at 1414 Geronimo (extending to 1420 Geronimo) in El Paso, Texas. The Medical Assistant/Laboratory Assistant; Business Management and Accounting Systems; Health Administration; Magnetic Resonance Imaging; Medical Coding and Billing Systems; Radiological Sciences; and Diagnostic Medical Sonography programs are fully taught at this location. Each of the thirty four classrooms can accommodate between 15- 45 students. Adequate space for office and administrative work is provided. Over one hundred computer workstations are available for student use in five separate computer laboratories. These workstations are networked and have access to a high-speed (Fiber Optic) Internet connection. Nine medical laboratories are available for student use, so they can gain experience in such areas as phlebotomy, EKGs, blood analysis, and laboratory procedures. Each classroom is furnished with an erasable ink board and bookshelves with multi-media resources available as needed. The University houses a coffee shop that has been designed to accommodate a lounge area furnished with tables, chairs, study areas, and a full service eatery. The facility is centrally located and convenient to bus routes and support agencies.

The Diesel Technician and Automotive Technology program are offered at 6500 Montana, El Paso, Texas. The separate classroom space consists of five bays that allow the students to work on engines and vehicles. Currently, there are over twenty diesel engines and fifteen vehicles available for the students to work on. The campus has a capacity of one hundred students per shift. The AAS Degree in Diesel and Automotive Technology were approved in June 2012 and will be offered at this campus.

The University library is located in the Main Campus. The library includes areas featuring computer stations and areas for both group and individual study. All students are also encouraged to use the digital library subscriptions made available through SU Learning.

STUDENT DISABILITY SERVICES

Southwest University at El Paso strives to serve all students equally.

All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

Students who seek special arrangements are encouraged to submit a request with academic advisor 10 days before the start of a term. All accommodation requests will be considered and suggestions will be provided to the student on how to accommodate them.

APPROVED AND REGULATED BY THE TEXAS WORKFORCE COMMISSION, CAREER SCHOOLS AND COLLEGES, AUSTIN, TEXAS

THE STUDENT AGREES:

1. That he/she will comply fully with the University's policies on attendance, progress, conduct and all other school policies as contained in the School Catalog, Student Handbook, or any supplemental publications.
2. That violation of school rules or policies constitutes grounds for student's dismissal from school.
3. That he/she will cooperate fully with the staff of the school in bringing his/her training to a successful conclusion within the scheduled training period.
4. That he/she will pay at the offices of Southwest University at El Paso or its agents, all payments on the due dates as indicated on page one of this agreement.
5. That he/she will buy textbooks, laboratory supplies, and other incidentals as may be required in any given course.
6. That should it be necessary for this account to be placed in the hands of an attorney for collection, the undersigned promises to pay such additional amounts as court cost and attorney's fees as the court may adjudge reasonable.
7. That he/she will be liable for school property or other property lost or damaged while in student's possession
8. That he/she will hold the school harmless for damage to clothing, rings, watches, and other such items, as well as personal injury that may be caused by laboratory equipment, chemicals, machines or test equipment
9. That he/she will refrain from removing from the School any supplies, textbooks or equipment or other property of Southwest University at El Paso without written permission from the School Director.
10. That staff or faculty personnel changes may occur periodically during the course of the student's enrollment.
11. That if, during the course of training, the school determines that the student is not adapted for this field, the school reserves the right to terminate the student's training. Unused prepaid tuition will be refunded in accordance with the refund policy.
12. That Southwest University at El Paso may periodically change, update or otherwise modify program curricula, textbooks, tools, or class schedules. The student will receive the benefit of any such curriculum updates or changes in his/her present course at no additional cost.
13. That if he/she continues his/her education at, or transfers to another institution, credits earned at this school may not be accepted by the receiving institution. An institution's accreditation does not guarantee that credits earned at that institution will be accepted for transfer by any other institution. Students must contact the registrar of the receiving institution to determine what credits, if any, that institution will accept.
14. That job placement assistance is an ongoing service available to all graduates in satisfactory standing. To protect the school's reputation as well as the employment opportunities of future graduates, a graduate is considered to be in unsatisfactory standing and forfeit his/her placement assistance privileges if he/she:
 - a. Has failed or refused to take a company physical relating to drug or other substance testing
 - b. Has defaulted on a student loan
 - c. Is not current in his/her financial obligations to the school
 - d. Has been discharged from a job for misconduct such as stealing, substance abuse, sexual harassment, etc...

SOUTHWEST UNIVERSITY AT EL PASO AGREES:

1. To provide instruction in the course for which the student is enrolled as described in its brochure to the best of its ability.
2. Upon completion of the course for which the student is enrolled and fulfillment of the student's financial obligation to the school, to grant the appropriate diploma or certificate. To assist and guide the student graduate in obtaining satisfactory employment or obligate itself beyond reasonable assistance and guidance. This job placement assistance is available without additional charge.

CANCELLATION POLICY

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

Student Initials _____

REFUND POLICY

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination for refund purposes will be the earliest of the following:
 - (a)The last day of attendance, if the student is terminated by the school;
 - (b)The date of receipt of written notice from the student; or
 - (c)Ten school days following the last date of attendance.
3. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
4. If a student enters a residence or synchronous distance education program and withdraws or is otherwise terminated, the school or college may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent

or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.¹

5. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
6. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
7. A full refund of all tuition and fees is due and refundable in each of the following cases:
 - (a) An enrollee is not accepted by the school;
 - (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
 - (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

8. REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
 - (b) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
 - (c) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
 - (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
 - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program.
9. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 60 days after the effective date of termination.

GROUND AND PROCEDURES FOR CANCELLATION OR TERMINATION OF A PROGRAM BY THE INSTITUTION:

1. Students who fail to achieve overall satisfactory progress for the program at the end of one six week probationary period (students who miss in excess of 15% of scheduled classes during any 6 week term will be placed on attendance probation for the following term will be subject to academic dismissal.
2. A student missing over 15% of scheduled classes during the probationary 6 week term will be terminated from school. Additionally, a student is in jeopardy of being terminated when his/ her absences exceed 15% of the total cumulative hours in the program. Authorized leave of absence (LOA) will not be included in the attendance percentage of a term.
3. A student who is absent in excess of ten (10) consecutive school days without approved leave of absence will be terminated.
4. A student who fails to meet financial obligations to the School as agreed upon
5. A student who exhibits conduct which is found to be detrimental to fellow students, staff or faculty, the School, and the public as addressed in the Student Conduct section of the School Catalog
6. A student who submits false or misleading information on admission, registration, or any other forms used as part of the enrollment process
7. Alters University records and / or is found cheating on a quiz, test, or exam.
8. A student who uses or is under the influence of alcoholic beverages or illegal drugs on or adjacent to University property or on affiliated job placement sites.
9. A student who vandalizes damages or destroys University, student, staff or faculty property.

¹ More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

WITHDRAWAL PROCESS

An official withdrawal occurs when a student formally informs the institution of his/her desire to withdraw. Students must complete a withdrawal form. Southwest University at El Paso will automatically withdrawal a students if the student incurs 10 consecutive absences.

All fees, including materials fees, are non-refundable after the start of a course.

The University will follow the refund policy to determine if a payment or refund is due.

Any s Federal financial aid recipient who withdraws or is withdrawn from the University is subject to a Federal Return of Title IV Aid Calculation. The calculation will determine the amount of Federal aid that the school and the student are eligible to retain along with the amount that must be returned to the federal government.

JOB PLACEMENT ASSISTANCE: Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the School.

FTC Statement: Any holder of this consumer credit contract is subject to all claims and defenses which the debtor could assert against the seller of goods or services obtained pursuant hereto or with the proceeds hereof. Recovery hereunder by the debtor shall not exceed the amounts paid by the debtor hereunder.

NOTICE TO THE BUYER: You are entitled to a completely filled in copy of this agreement. THE TERMS AND CONDITIONS OF THE REVERSE SIDE OF THE FORM ARE A PART OF THIS AGREEMENT.

This enrollment agreement is binding when it has been signed by the student and accepted by an authorized official of Southwest University at El Paso. This contract is the total and complete agreement between the parties and no other agreements, oral or written, are binding unless agreed to in writing by an official of Southwest University at El Paso. Any provision contained in this agreement which is held by any competent court to be invalid is severable and does not affect the operation or legality of the remaining provisions. Should any provision of this agreement be in conflict with any local, state or federal law or regulation of the regulatory body having jurisdiction over Southwest University at El Paso, then such law or regulation shall take precedence.

STUDENT UNDERSTANDING: I understand that the catalog and its contents are a part of this enrollment and financing agreement and that information presented therein is binding on the School and me.

SATISFACTORY ACADEMIC PROGRESS (SAP)

Southwest University at El Paso provides students progress reports/report cards and academic transcripts at the end of each academic session. This information is provided through the SU Learning Software available to all students.

Same As or Stricter Than:

The school's SAP policy for Title IV, HEA students is the same as the school's standards for students enrolled in the same educational programs who are not receiving Title IV, HEA funding.

The Director in the financial aid office reviews the Title IV, HEA SAP policy to ensure it meets all federal requirements. The Director of Academic Affairs notifies financial aid office if the school changes its academic policies.

Southwest University at El Paso (SU) has established minimum standards of "satisfactory progress" for enrolled students. All students must meet SU SAP requirements. The standards for determining progress at SU are comprised of two separate measurements: qualitative and quantitative.

This standard is applicable to all students regardless of Title IV eligibility.

QUALITATIVE REQUIREMENT

Basis for Calculation:

The cumulative grade point average (GPA) will be calculated at the end of each six-week period (or at the student's request). The calculation will be based on all quarter credit hour courses completed during the grading period.

TC	TRANSFER CREDIT	NOT COMPUTED	NOT COMPUTED

Calculations of Grade Average for Repeated Courses

If a student takes the same course more than once, the last grade received for the course will be recorded on the transcript; however, all grades received will remain on the student's transcript. In the case of the same or equivalent grades being earned in the multiple course enrollments, the last grade earned will be used to compute the cumulative grade point average. The cumulative grade average will be determined by adding the numeric values of all grade points earned and divided by the total number of credit hours.

Grade Point Average and GPA Standards

Grade point average (GPA) is the quantitative measurement used for academic work. A student must maintain at least a 2.0 GPA (C average) to maintain eligibility for Title IV. Incomplete or Withdrawn grades will not be factored in when calculating GPA. Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. SU does not enroll students in remedial courses or non-punitive courses. Students whose cumulative grade point average is below 2.00 after the 50% of the program’s maximum allowable timeframe are not considered making satisfactory progress.

QUANTITATIVE REQUIREMENT

Measurable Progress

“Making measurable progress” is defined as the student being on pace to complete the program of study in no more than 150% of the normal program length based on the program’s academic calendar. Incomplete, Repeated, or Withdrawn grades will be factored in when considering measurable progress. All transfer hours must be counted towards the 150%eligibility in order for the student to graduate within the maximum time frame.

Southwest University at El Paso does not offer non-credit courses, remedial courses, non-punitive grades or proficiency credits. Course incompletes and repetitions have no effect upon the school’s satisfactory progress standards.

SAP CALCULATIONS BY PROGRAM

PROGRAM	1ST CALCULATION	2ND CALCULATION	3rd CALCULATION
MA	18 th Week	36 th Week	45 th Week
AAS MA	24 th Week	48 th Week	72 th Week
AAS DT	24 th Week	48 th Week	72 th Week
AAS AT	30 th Week	60 th Week	90 th Week
AAS MCB	30 th Week	60 th Week	90 th Week
AAS HA	30 th Week	60 th Week	90 th Week
AAS BM	30 th Week	60 th Week	90 th Week
BS CT	30 th Week	60 th Week	90 th Week
BS (RN to BSN Bridge) NURSING	30 th Week	60 th Week	90 th Week

Students in the following programs must have completed at least 34% of the total program and maintain a 2.0 GPA by the 1st calculation, 67% of the total program and maintain a 2.0 GPA by the 2nd calculation, and 100% of the total program and maintain a 2.0 GPA by the 3rd calculation.

PROGRAM	1ST CALCULATION	2ND CALCULATION	3rd CALCULATION	4th CALCULATION	5th CALCULATION
AAS RS	30 th Week	60 th Week	90 th Week	120 th Week	150 th Week
AAS MR	30 th Week	60 th Week	90 th Week	120 th Week	144 th Week

Students in the following programs must have completed at least 20% of the total program and maintain a 2.0 GPA by the 1st calculation, 40% of the total program and maintain a 2.0 GPA by the 2nd calculation, 60% of the total program and maintain a 2.0 GPA by the 3rd calculation, 80% of the total program and maintain a 2.0 GPA by the 4th calculation, and 100% of the total program and maintain a 2.0 PGA by the 5th calculation.

PROGRAM	1ST CALCULATION	2ND CALCULATION	3rd CALCULATION	4th CALCULATION
AAS DMS	30 th Week	60 th Week	90 th Week	120 th Week

Students in the following program must have completed at least 25% of the total program and maintain a 2.0 GPA by the 1st calculation, 50% of the total program and maintain a 2.0 GPA by the 2nd calculation, 75% of the total program and maintain a 2.0 GPA by the 3rd calculation, and 100% of the total program and maintain a 2.0 GPA by the 4th calculation.

PROGRAM	1ST CALCULATION	2ND CALCULATION	3rd CALCULATION	4th CALCULATION	5th CALCULATION	6th CALCULATION	7th CALCULATION
BS BM	30 th Week	60 th Week	90 th Week	120 th Week	150 th Week	180 st Week	210 nd Week
BS HA	30 th Week	60 th Week	90 th Week	120 th Week	150 th Week	180 st Week	210 nd Week

Students in the following programs must have completed at least 15% of the total program and maintain a 2.0 GPA by the 1st calculation, 30% of the total program and maintain a 2.0 GPA by the 2nd calculation, 45% of the total program and maintain a 2.0 GPA by the 3rd calculation, 60% of the total program and maintain a 2.0 GPA by the 4th calculation, 75% of the total program and maintain a 2.0 PGA by the 5th calculation, 90% of the total program and maintain a 2.0 PGA by the 6th calculation, and 100% of the total program and maintain a 2.0 PGA by the 7th calculation.

QUALITATIVE REQUIREMENTS SAP PROBATION

Students who do not maintain a minimum of 2.0 GPA, will be considered to not meet satisfactory academic progress and will be placed on a 12 week academic probation. Students achieving a cumulative grade point average of 2.00 at the end of the probation period will be returned to good standing. Students who fail to achieve overall satisfactory progress for the program at the end of the one twelve week probationary period will be subject to academic dismissal. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated as an academic dismissal may not restart the program. The terms of the approved refund policy shall be applied.

QUANTITATIVE REQUIREMENT SAP PROBATION

Students who do not meet the minimum percentage of program completion at any given calculation will be considered to not meet satisfactory academic progress and will be placed on academic probation. Progress will be again measured at the next calculation period. Students who meet the minimum percentage of program completion will return to good standing. Students who do not meet the minimum percentage of program completion will be subject to academic dismissal. Students will not be allowed to re-enroll after being dropped for lack of measurable progress. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated as an academic dismissal may not restart the program. The terms of the approved refund policy shall be applied.

Student Who Receive Title IV Funding Must Meet The Following SAP To Remain Eligible for Title IV Funding

1.1 Process Overview & Responsibilities

To be eligible for Title IV aid, a student must maintain satisfactory academic progress. If the student has made acceptable quantitative and qualitative progress for that particular increment, then the school reviews the 150% of the maximum allowable time frame criterion to measure student's SAP.

All students must maintain Satisfactory Progress according to the following standards in order to continue enrollment. Satisfactory Progress is measured at the end of each payment period, and will be checked prior to disbursement of aid. Financial Aid SAP standards are established by the Office of Financial Aid. The relevant SAP policies are summarized below.

1.2 Financial Aid Warning

The OFA evaluates Satisfactory Academic Progress at the end of each payment period. If a student falls below a 2.0 GPA or if the student is not completing the required amount of hours/credits to keep pace with the requirements for graduation within the 150% time frame; the student will be placed on financial aid warning for one payment period. If the student is still not meeting SAP at the end of the warning period, the student may be placed on Financial Aid Probation. (See —Financial Aid Probation below.) A student who is put on a Financial Aid Warning can continue to receive Title IV aid for the next payment period after receiving the warning status. The status will be conferred automatically without the student appealing his/her SAP status.

If the student does not make SAP at the end of the financial aid warning period, the student loses financial aid

eligibility. The student has the opportunity to have his/her financial aid eligibility reinstated by appealing the decision and being placed on Financial Aid Probation.

1.3 Student Appeal Procedures

The student must advise the school as to why his/her grades have fallen below SAP and devise a plan to improve grades during the next payment period. A plan must be developed to assist a student to achieve success in the coming payment period. A student may file an appeal due to a death in the family, illness, an approved medical withdrawal, extreme change in financial or legal circumstances, or compulsory military duty, or other serious reasons. The appeal must be in writing to the SAP Appeal Committee explaining what caused the problem. The student would have to submit how circumstances have changed that will allow him/her to attain satisfactory academic progress once the probationary period is over.

A student, who wished to appeal a decision made in reference to the Satisfactory Academic Progress policy, must submit a typed letter to the SAP Appeal Committee. This letter must contain information about the student's reason regarding the action and/or decision and reasons why the student is wishing to appeal. Students must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The appeal letter must be submitted from the student to the SAP Appeal Committee within 3 business days of the student receiving the Financial Aid Ineligibility Letter. The student will be notified of the SAP Appeal Committee decision within five (5) business days following the receipt of the student's appeal letter, additional time may be taken to thoroughly review student's appeal. The student will receive a written decision as to the status of his/her appeal and any SAP plan that may be attached to it. The SAP Appeal Committee's decision shall be final.

1.4 Academic Plan

Students who successfully appeal will be placed on Financial Aid Probation for one term. Students must agree to an academic progress plan by the term's academic progress plan deadline. The Academic Plan is a plan developed by SAP Appeal Committee.

1.5 Financial Aid Probation

A student who has successfully appealed an Unsatisfactory SAP status and is eligible for federal student aid for one term.

Students on financial aid probation who fail to make satisfactory academic progress by the next term will lose their financial aid eligibility.

LOSS OF TITLE IV ELIGIBILITY

Students are eligible to continue their program of study as long as they continue to meet the university's SAP policy.

CANCELLATION POLICY

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

REFUND POLICY

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination (determined date of withdrawal) for refund purposes will be the earliest of the following:
 - (a) The last day of attendance, if the student is terminated by the school;
 - (b) The date of receipt of written notice from the student; or

- (c) Ten school days following the last date of attendance.
A student's last day of attendance is defined as the last day a student had academically related activity, which may include projects, clinical experience, or examinations.
3. Students who wish to withdraw from the course of study must complete the withdrawal process. The withdrawal process consists of:
 - a) Completing a withdrawal form
 - b) Conducting an interview with the School Director or President.
 - c) Verifying refund status with the accounting department.
 Students who do not complete this process will be automatically withdrawn from the institution after the tenth consecutive absence.
 4. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
 5. If a student enters a residence program and withdraws or is otherwise terminated, the school or college may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.²
 6. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
 7. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
 8. A full refund of all tuition and fees is due and refundable in each of the following cases:
 - (a) If an enrollee is not accepted by the school;
 - (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
 - (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

9. **REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.**

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
- (b) A grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no

² More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

- (c) The assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
- (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
 - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program

10. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 45 days after the effective date of termination.

JOB PLACEMENT ASSISTANCE

Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the School.

STUDENT SERVICES

In order to provide a complete education experience, SU provides a variety of student services. These services include daily tutoring, placement assistance, and academic guidance. SU has contracted with Student Resource Services to provide 24-hour supportive services for students. Student Resource Services provides students with financial counseling, access to master-level counselors, and contacts for community-based agencies that can facilitate transportation, childcare, and other daily living needs. All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

NON-DISCRIMINATION POLICY – AFFIRMATIVE ACTION STATEMENT

The school requires that all admission and hiring practices be structured and applied equally without regard to factors that are non-job related. These factors include, but are not limited to race, sex, creed, color, religion, national origin, age, source of income, marital status, sexual preferences, and physical or mental disabilities when the individual is otherwise qualified; or status as disabled and Vietnam-era veterans. This policy commits Southwest University at El Paso to providing equal admission and hiring opportunity to all phases or aspects of student or employee recruitment, including, but not limited to selection, placement, transfers, training and development, terminations and all conditions or privileges of admissions or hire.

Southwest University at El Paso complies with Section 504 policies (non discrimination against handicapped persons) and does not discriminate against hiring or enrolling handicapped persons on the basis of the handicap.

INSTITUTION’S RULES AND REGULATIONS

The institution’s rules and regulations are published in the student handbook. Student handbooks are made available to students during the orientation process and by request.

EXPERIENTIAL CREDIT

Southwest University at El Paso does not accept experiential credit for any program

TESTING FOR CREDITS

Southwest University at El Paso does allow students to test for credit in the Medical Assistant program. Please contact the student advisor to receive more information.

ADVANCED PLACEMENT

Southwest University at El Paso does not grant advanced placement

SOUTHWEST UNIVERSITY COURSE CREDIT IDENTIFICATION

Courses listed with three (3) digits within the course code are identified as a courses provided in the Certification and/or Associates Degree programs (lower division courses) . Courses listed with four (4) digits within the course code are identified as courses provided in the Bachelors degree programs (higher division courses).

TRANSFER OF CREDIT BETWEEN PROGRAMS WITHIN THE INSTITUTION

Students at Southwest University at El Paso may transfer to different programs within the institution. Students must complete a Request for Program Change Form. The School Director and CEO must sign this form prior to approval. Credits will be evaluated by the School Director and applied towards the new program, if applicable. To be eligible for transfer credit, students must have successfully completed the class with a minimum grade of "B". Students will only be allowed to transfer into another program once during the course of enrollment. If a student has completed or withdrawn from Southwest University at El Paso and wishes to enroll into a new program, the student will be treated as a new enrollment.

TRANSFER OF CREDIT FROM ANOTHER INSTITUTION

Students may transfer from other post-secondary public or private institutions recognized by the United States Department of Education (USDE) or Council for Higher Education Accreditation (CHEA). Admission and transfer of credit will be based on an evaluation of the academic transcript by the School Director. Credit for courses with a final grade of "B" or better from another accredited post-secondary institution will be accepted under the following conditions:

Associate Degree, Bachelor Degree (Degree Completed):

- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Official transcripts must be received before the enrollment date.
- A maximum of 10 courses will be transferred to a bachelor program

Certificate Programs:

- Credit must have been awarded within (7) years.
- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Transcripts must be received before the enrollment date.
- A maximum of 4 courses will be transferred to an associate degree or a certificate program

A transcript must be furnished from the educational institution previously attended prior to request for evaluation. A course competency examination may be required. Contact the Academic Advisor for more information.

ARTICULATION CREDITS

Southwest University at El Paso has Articulation Agreements with the following Universities:

- University of Phoenix
- Grand Canyon University

Students who have completed selected classes in high school that have been approved and are agreed upon by both SU and the ISD for that school year could be eligible for articulated credit. Please visit the admissions office for more details.

SCHOLARSHIPS

SU participates in several scholarship opportunities to assist students in achieving their educational goals. Scholarships include SU's High School Scholarship program, which awards two \$1000.00 scholarships to every high school in El Paso County. Career College and Schools of Texas (CCST) scholarships offer four \$1000.00 scholarships to every high school in the State of Texas. Applications are coordinated with each high school's guidance counseling departments. SU's Military scholarship offers \$1,500.00 to eligible veterans and their dependents. MYCAA scholarships are also accepted at SU. Military eligible spouses must apply online each term. SKILLSUSA scholarships are offered to eligible students competing in Automotive and in Diesel Technology programs. Scholarship amounts are as follows: 1st place: 25% of current year tuition; 2nd place: 20%; 3rd place: 15%; 4th place: 10%; and 5th place: 5%. Students must be in good standing to graduate from high school in the year awarded. Scholarship recipients can use ONLY one scholarship per year and cannot combine any of the above

LIMITED TRANSFERIBILITY OF CREDIT TO OTHER INSTITUTIONS

SU does not guarantee transferability of credit to other post-secondary institutions and acknowledges that credit transferability is limited. Post-secondary institutions vary greatly in their practice of accepting transfer credit for courses completed at other postsecondary institutions. The acceptance of transfer credits is left at the discretion of the institution to which an individual transfers. Students who transfer may be required to repeat courses in which a grade of "D" or "F" was received. Students planning to transfer are urged to contact the school to which they intend to transfer and apply for transfer credit. Many of the courses offered by Southwest University at El Paso have been developed to prepare students with skills appropriate to the employment market rather than for college transfer. Some institutions may accept such courses as elective credit, while other institutions may not accept the transfer credit.

DRUG-FREE SCHOOLS AND COMMUNITIES ACT – PUBLIC LAW 101-226

The DrugFreeSchools and Communities Act Amendment of 1989 requires, as a condition of receiving funds or any form of financial assistance under any Federal Program, an institution of higher education to certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drug and alcohol by students and employees. This program will be an ongoing prevention project that, at a minimum, will include the following: Distribution in writing to each employee and to each student who is taking one or more classes for any type of academic credit, regardless of the length of the student's program of study, to include standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on its property. Southwest University at El Paso will impose disciplinary action on students and employees up to and including expulsion or termination of education or employment and referral for prosecution for the violation of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

SUMMARY: All employees and students must certify that, as a condition of enrollment, employment or receiving any financial aid, they will not engage in the unlawful manufacture, distribution, dispensing or the use of a controlled substance during the period covered by employment or the period where federal financial assistance is used for education.

FERPA

The institution will annually distribute to all enrolled students information about:

- The right to review their education records, to request amendment of records, to consent to disclosures of personally identifiable information and to file complaints with the Department of Education.
- Procedures for reviewing education records and requesting amendment of the records.
- Information about the institution's policy regarding disclosures to school officials with a legitimate educational interest in the education records.

RECORDS AND THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974

In compliance with the Family Educational Rights and Privacy Act of 1974 and the Buckley Amendment, Southwest University at El Paso gives notice that the following types of directory information will be released to the general public and agencies without the written consent of the student:

a) student's dates of attendance; b) date of graduation and degree or certificate earned. Other kinds of directory information, such as a student's address, telephone listing, program of study, awards received, and the most recent previous education agency or previous institution attended, will be released only in response to a written request. The school reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know. Information regarding the student's record: grades, courses, GPA, social security number and other personal information will not be released without the student's written consent.

Students currently enrolled may request that all or part of their directory information be withheld from the public by filing a written request with the Registrar's Office. Such a request will remain in effect during the enrollment period unless the student requests its removal in writing.

Students must authorize release of any additional information pertaining to student records, in writing, except as authorized under the law. Such exceptions include, but are not limited to, agencies duly conducting authorized audits of school records, compliance with a legally authorized court order, and cooperation with law enforcement officials in an official investigation. Students, parents of students considered “minors”, and guardians of “tax dependent” students have a right to inspect, review, request copies of and challenge the contents of their educational records, but are responsible for the cost of such requested copies.

The Registrar Office is responsible for maintenance of students’ records. The staff will supply students with information related to their records and refer those students requiring additional assistance to appropriate school officials.

At the postsecondary level, parents have no inherent rights to inspect a student’s education record. The right to inspect is limited solely to the student. Records may be released to parents only under the following circumstances: (1) through the written consent of the student, (2) in compliance with a subpoena.

Employees of Southwest University at El Paso may have access to student education records. Their confidentiality, use, and release are governed by **FERPA**. Utilization of this information is governed by the regulations and the duties and responsibilities of employment and position. Unless job involves release of information and you have been trained in that function, any requests for disclosure of information, especially from outside the school should be referred to the Academic Advisor. Release of information contained on a student’s record without the written consent of the person identified on the document is in violation of Sec. 438 Public Law 90-247. Each school employee should have their own accounts and passwords on the administrative computer system and on e-mail. Each employee is responsible for their personal account and will be held accountable for any improper use. Protection of their sign-on password and procedure is critical for security. Your password is the only protection your account has, and the only way the computer system can verify that you are actually who you say you are. Please pick a good password and protect it.

RECORD RETENTION AND MAINTENANCE

Admissions material submitted to the School should be original documents. Upon receipt by the admissions office, the documents submitted become property of the school. Originals, except for diplomas or foreign transcripts, will not be returned to the student. An admission file will be considered complete if the material required for enrollment has been received. In accordance with school policy, admissions applications and supporting documentation will be retained for a period of one year and then destroyed if the student has not started classes. In accordance with provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, third party access to the records or copies of the documents therein, will not be permitted without the written consent of the student. Validation of the written consent will be required prior to release of information in the record. A reasonable period (not to exceed 45 calendar days) will be requested to review the record or receive copies thereof, and, upon presentation of acceptable identification to the School Director, be permitted supervised access to copies of the record. The student or third party will be responsible for upfront payment of copying costs at the rate of \$.75 per page.

All documents related to the student’s academic profile, academic transcripts, program diploma and progress are kept in a hard copy version for 5 years. Thereafter, all documentation is kept indefinitely in an electronic version. Students who request in writing or through the school web portal copies or official transcripts will be processed and delivered in a reasonable time frame.

STUDENT RESPONSIBILITY FOR REGISTRATION

Information regarding the conditions and criteria for student enrollment and registration is contained in this catalog and supplemented by information in the Student Handbook. It is the responsibility of each student to be knowledgeable in these policies, procedures, and requirements and to satisfy all conditions related to enrollment and registration.

NEWSTUDENT ORIENTATION

New student orientation is an advisory service offered prior to the beginning of each class start date. The orientation session acquaints new students with school policies, procedures, and services. Class schedules are distributed and the registration process is thoroughly explained during these sessions. New students must attend an orientation session to ease the transition into the school environment.

RIGHT OF APPEAL

Special Grievance Policy

Procedures for initiating Grievance Complaints: This procedure has been established to provide a method to resolve student grievances at the lowest administrative level in a fair and expeditious manner. For the purpose of this procedure, grievances are limited to alleged violations of Southwest University at El Paso policy or procedures by Southwest University at El Paso or its employees, disputes with faculty and/or alleged unfair treatment. This method is usually used to appeal a grade the student feels was not justified. Under no condition should these policies be used when the student has allegedly violated the code of conduct. Any student who believes that he/she has been unjustly treated within the academic/clinical process may proceed as far as necessary in the steps detailed below.

- A. Appeal to the faculty member: The student is to submit a written appeal to the faculty member within 30 days after the start of the six week period following the six week period in which the alleged grievance occurred. The faculty member and the student are to discuss the problem. The faculty member will submit a written report outlining his or her decision to the student and director within ten working days of receipt of the student's written appeal.
- B. Appeals to the Director: If a decision satisfactory to the student cannot be reached, the student may submit a written appeal to the Director. This is to be done within ten working days after the receipt of the written decision by the Assistant Director or the Director may meet with the student, faculty member, or Assistant Director to review the merits of the appeal. The Director will submit a written response outlining his or her decision to the student, faculty member, and Assistant Director within ten days of the last meeting.

ACADEMIC MISCONDUCT

- A. **Academic Misconduct** - Any Student found guilty of academic misconduct shall be subject to disciplinary action. Academic misconduct includes, but is not limited to the following actions:
 1. Cheating or knowingly assisting another student in committing an act of cheating or other forms of academic dishonesty.
 2. Plagiarism, which includes, submitting examinations, themes, reports, drawings, laboratory notes, undocumented quotations, or other material as one's own work when such work has been prepared by another person or copied from another person.
 3. Unauthorized possession of examinations or other course related material.
 4. Unauthorized changing of grades on an examination, in an instructor's grade book, or a grade report.
- B. **Academic Discipline Process** – The faculty member or School Director must inform the student of the alleged offense upon discovery, and after an investigation, will take one of the following actions:
 1. The allegation may be dismissed as unfounded
 2. The allegation may be dismissed for lack of clear evidence
 3. The student may admit guilt and a sanction will be imposed
 4. The School Director will determine guilt based on clear and convincing evidence and a sanction will be imposed
- C. **Sanctions That May Be Imposed-** If the student admits guilt to academic misconduct or is found guilty by the School Director the following sanctions may be applied.
 1. The student may receive a failing grade for the assignment, report, or test and be put on six weeks of probation
 2. The student may receive a failing grade for the course and be put on six weeks of probation
 3. The student may be dropped from all the courses he or she is currently taking
 4. The student may be permanently expelled from Southwest University at El Paso

SCHOOL POLICIES

Tuition Fees: Tuition fees vary according to program. A complete listing of classes and prices is included in this catalog. The fees are due upon enrollment in each program segment.

Book Fee: Student is responsible for books.

Supplies: Student is responsible for purchasing supplies, notebook(s) and pencils or pens

Total charges: Student is responsible for: books and supplies.

Financial Aid: Financial aid information and payment plans are available through the financial aid office. Students sponsored through the URGWDB will be charged the agreed upon cost of attendance.

Repeat Policy: Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. Students will be charge the full amount of the course.

Repeating Non-Passing Courses: Southwest University at El Paso allows students who earned a grade of D or lower to repeat the identical course and have the higher grade recorded and calculated in the GPA. The original course will be replaced as a “FR” as Failed Repeat or “R” as Repeat. Courses may not be repeated once the degree has been awarded.

Method of Delivery: SU does not provide instruction via distance learning.

Language of Instruction: SU does not offer English as a Second Language instruction. All instruction occurs in English.

Campus Accessibility: SU’s facilities are ADA compliant.

Referrals: Students experiencing personal difficulties may seek assistance by the Director or the President in receiving referrals to professional agencies or organizations.

Tutoring: Students experiencing academic difficulties may seek assistance from the Director or the President in seeking tutoring services.

Calendars: Classes are from Monday through Friday excluding holidays.

Student Handbook: SU institutional rules and regulations are provided in the student handbook.

Regular Hours of Operation:

School: 8:00 AM-9:00 PM Monday through Friday, Saturday by appointment

Office: 8:00 AM-9:00 PM Monday through Friday, Saturday by Appointment

Definitive Class Schedule

Mornings: 8:00-8:50, 9:00-9:50, 10:00-10:50, 11:00-11:50

Afternoons: 12:00-12:50, 1:00-1:50, 2:00-2:50, 3:00-3:50

Evenings: 5:00-5:50, 6:00-6:50, 7:00-7:50, 8:00-8:50

Standard of Attendance

Student Responsibilities: Regular class attendance is vital to a student’s academic success. Students are expected to attend all classes regularly. They are responsible notifying professors of planned absences and for fulfilling requirements missed during absence. The professor will use their ethical judgment in determining how to fairly assist the student.

General Policy: Students may be dismissed from Southwest University at El Paso or from individual courses for attendance violations.

Consequences of Excessive Absences: Students who do not attend or participate in school after 10 days will receive an administration withdrawal from the school.

Leaves of Absence: Leaves of absence, including military leaves, shall be reasonable in duration, not to exceed 180 calendar days in any twelve (12) month period, and shall be for specific and acceptable purposes. All requests for a leave of absence must be accompanied by acceptable documentation. The school attendance records will clearly show that a leave of absence has been granted. A written request for a leave of absence using the school’s form, properly signed and dated by both the student and an authorized school official, must be placed in the individual student file.

A student having a documented and approved leave of absence will be allowed additional training to complete the requirements for the graduation. Additional training will be at no cost to the student. The student is not required to use this additional training if he/she has completed all requirements for graduation by the originally scheduled date.

Requirements for Graduation: Southwest University at El Paso has also established the following requirements and procedures for graduation:

- Successfully complete all required course work.
- Obtain an overall Grade Point Average of at least 2.0
- Complete externship (if applicable)
- Achieve competencies required per program
- Complete interview with administration

(Optional) Complete interview with job placement coordinator

Factors That Adversely Impact a Student's Ability to Benefit: SU advises students that criminal records, identified disabilities, health limitations, and other circumstances may adversely impact a student's ability to benefit from the educational program. Please consult with an institutional representative for more information.

Campus Security: Security on campus is handled by the administration in coordination with state and local agencies. The personnel of this department are empowered to enforce Southwest University at El Paso's regulations, to investigate incidents and to apprehend those who violate these regulations or commit crimes on campus. Criminal violators who are apprehended will be turned over to the Central Regional Command, 915-577-5000 for arrest processing. When necessary, Southwest University at El Paso will press charges against the criminal violators.

Campus Community – Emergency Response: The administration has set up an e-mail group that will reach all current students, faculty and administration to inform them of any emergency on campus. In addition a message will be sent to students, faculty and administration. This system will be checked each year on specified days. The evacuation plan is the same as the fire evacuation plan that is posted throughout the building. All personnel will be advised of this plan each year.

ILLEGAL DISTRIBUTION OF COPYRIGHTED MATERIALS

Southwest University faculty and employees are prohibited from using the SU information network to illegally download or share music, video and all other copyrighted intellectual property; Southwest University supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the SU information network who have violated the law.

Be aware that illegal forms of downloading and Peer to Peer file sharing as well as the unauthorized distribution of copyrighted materials are violations of the law and may subject you to academic sanctions from the college as well as criminal and civil penalties including a lawsuit against you by the Recording Industry Association of America (RIAA) learn more at www.campusdownloading.com.

The University has developed policies and consequences to ensure that faculty and staff respect music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies below under the Misuse of Computer information & Resources Policy.

There are plenty of easy, affordable ways to get music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options; including download and subscription services legitimate peer to peer services, video-on-demand, podcasts and CD kiosks. For a list of sources that offer legal downloading- sites, access www.riaa.com.

MISUSE OF COMPUTER INFORMATION & RESOURCES POLICY

This administrative procedure implements **Procedures Regarding Misuse of Computer Information**.

Abuse of computing, networking or information resources contained in or part of the network may result in the loss of computer privileges. Additionally, abuse can be prosecuted under applicable statutes. Users may be held accountable for their conduct under any applicable college policies, or procedures. Complaints alleging abuse of the network will be directed to those responsible for taking appropriate disciplinary action illegal reproduction of material protected by U.S. and International Copyright Law is subject to civil damages and criminal penalties including fines and imprisonment.

Examples of behaviors constituting abuse include, but are not limited to the following activities:

System Abuse

- Using a computer account that one is not authorized to use.
- Obtaining a password for a computer account that one is not authorized to have.
- Using the network to gain unauthorized access to any computer systems.
- Knowingly performing an act which will interfere with the normal operation of computers, terminals, peripherals or networks.
- Knowingly running or installing on any computer system or network, or giving to another user, a program intended to damage or to place excessive load on a computer system or network. This includes but is not limited to programs known as computer viruses, Trojan horses and worms.
- Knowingly or carelessly allowing someone else to use your account who engages in any misuse.
- Forging email messages.

- Attempting to circumvent data protection schemes or uncover or exploit security loopholes. Masking the identity of an account or machine.
- Deliberately wasting computing resources.
- Downloading, displaying, uploading or transmitting obscenity or pornography, as legally defined.
- Attempting to monitor or tamper with another user's electronic communications, or changing, or deleting another user's files or software without the explicit agreement of the owner.
- Personal use which is excessive or interferes with the user's or others' performance of job duties, or otherwise burdens the intended use of the network.

Harassment

- Using the telephone, email or voice mail to harass or threaten others.
- Knowingly downloading, displaying or transmitting by use of the network, communications, pictures, drawings or depictions that contain ethnic slurs, racial epithets, or anything that may be construed as harassment or disparagement of others based on their race, national origin, sex, sexual orientation, age, disability, religious or political belief.
- Knowingly downloading, displaying or transmitting by use of the network sexually explicit images, messages, pictures, or cartoons when done to harass or for the purposes of harassment.
- Knowingly downloading, displaying or transmitting by use of the network sexually harassing images or text in a public computer facility, or location that can potentially be in view of other individuals.
- Posting on electronic bulletin boards material that violates existing laws or the University's Codes of Conduct.
- Using the network to publish false or defamatory information about another person.

Copyright

- Violating terms of applicable software licensing agreements or copyright laws.
- Publishing copyrighted material without the consent of the owner on Web sites in violation of copyright laws.

Exceptions

Activities by technical staff, as authorize by appropriate university officials to take action or security, enforcement, technical support, troubleshooting or performance testing purposes will not be considered abuse of the network. Although personal use is not an intended use, SU recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and provide that such usage is ordinarily on an employee's own time is occasional and does interfere with or burden SU's operation.

Resolution of Student Grievance/Complaints: Students will have access to the Director to express grievance or complaints. Grievances will then be directed to the advisory council. Unresolved grievances must be directed to:

20 Laboratory Hours	=	1 Quarter Credit Hour
30 Externship Hours	=	1 Quarter Credit Hour
1 Quarter Credit Hour	=	5 Outside Preparation Hours

Medical Assistant/Laboratory Assistant Certificate Program

The Medical Assistant/Laboratory Assistant program is designed to assist students in gaining the necessary skills to be competent in data processing operations, records management, medical billing, medical coding, and certain non-invasive clinical procedures necessary to work in today's medical environment as a medical assistant. Program graduates will develop the knowledge and skills in the areas of medical administrative duties (recording vital signs, medical histories, arranging for hospital admission and laboratory services, purchasing supplies, billing, and bookkeeping), certain clinical duties such as preparation of laboratory specimens, disposing of contaminated specimens, sterilizing medical instruments, preparing patients for examination; delivering patient instruction, authorizing drug refills as directed, telephoning prescriptions to the pharmacy. Additionally, successful graduates will be proficient in customer services skills, business correspondence, and computer skills. Program graduates will be eligible to become a medical assistant, medical coding specialist, or a medical assistant in a doctor's office or dental office; or a public or private health care facility; or in a clinical laboratory.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

Total Lecture Hours:	375 Hours
Total Lab Hours:	345 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	910 Hours
Total Length of Time:	36 Weeks
Outside Preparation Hours:	297.5 Hours
Total Credit Hours:	60 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

AP 101 ANATOMY & PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the Body Cells, Tissues/ Organ Systems, Integumentary, Musculoskeletal and Nervous Systems.

Clock hours of lab: 10

Clock hours of classroom lecture: 20

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

AP 102 ANATOMY & PHYSIOLOGY II

This course provides a systemic and functional review of human gross anatomy and systematic anatomy in order for students to expand the knowledge acquired in the Anatomy & Physiology I course. Students will learn the major gross—anatomical and systematic anatomy structures and physiology, functions / interactions of the different (organ) systems, as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases and treatments. This course will primarily focus on the clinical anatomy as it pertains to the Special Senses, Endocrine, Cardiovascular, Lymphatic, Respiratory, Digestive Reproductive and Urinary Systems.

SS 101 SPREADSHEETS I

Students will learn how to operate the spreadsheet program Excel for Microsoft Office. Topics covered in this course include basic skills in creating and formatting a worksheet and chart. Students will also learn to open an existing workbook, enter data, modify a cell, navigate within a worksheet, select objects, insert, delete, create formulas, functions and ranges.

Medical Laboratory Technology Associate of Applied Science Degree Program

An Associate Degree in Medical Laboratory Technology prepares individuals for a career in the health care industry as Medical Laboratory Technicians. These laboratory professionals assist in the coordination of clinical laboratory activities, including timely and cost effective testing of patient samples and lab equipment maintenance. Students will also learn the integration of lab regulations and compliance, as well as the incorporation of quality management systems in the clinical laboratory. Graduates of this program can expect to be hired at hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, private clinical laboratories and many other employment settings related to the medical laboratory field.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program
2. Prospective students must complete a successful interview with an intake (admissions) counselor.
3. Prospective students must obtain an AAS MLT Admissions Application.
4. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll).
5. Applicants will be ranked into the program based off of results of an institutional entrance exam.

Total Lab Hours: 550 Hrs
Total Externship Hours: 400 Hrs
Total Lecture Hours: 810 Hrs
Total Program Hours: 1760 Hrs
Total Length of Time: 78 Wks
Total Credit Hours: 121.5 credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

Clock hours of lab: 0

AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to skeletal, muscle, and neural tissue.

Diagnostic Medical Sonography (General Concentration of Study) Associate of Applied Science Degree Program

PROGRAM GOALS:

The goal of the Diagnostic Medical Sonography program (General Concentration) is the thorough preparation of the student, through quality didactic, laboratory, and clinical instruction, in the theoretical knowledge, tasks, and responsibilities required of an entry-level general sonographer.

PROGRAM PHILOSOPHY:

The Diagnostic Medical Sonography program of Southwest University at El Paso is committed to excellence in education demonstrated by providing a comprehensive entry-level education program to students through quality didactic and clinical instruction. The program supports the vision, values, and mission of Southwest University at El Paso by striving to be the premier Diagnostic Medical Sonography training program in our community. In combination, the seven program components ensure the adequacy of a well-rounded program through classes in didactic theory, application and practice of skill sets in the laboratory environment, and integration of didactic theory and acquisition of performance objectives in the clinical setting.

PROGRAM OBJECTIVES:

Upon completion of this program, the student will be able to:

1. Obtain, review, and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.
2. Perform appropriate ultrasound scanning procedures and record anatomic, pathologic, and/or physiologic data for interpretation by a physician.
3. Record, analyze, and process diagnostic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
4. Exercise discretion and judgment in the performance of sonographic and/or other non-invasive diagnostic services.
5. Provide appropriate and compassionate patient care for patients undergoing ultrasound examination.
6. Demonstrate appropriate communication skills with patients and colleagues.
7. Act in a professional and ethical manner.
8. Provide patient education related to medical ultrasound and/or other non-invasive diagnostic ultrasound techniques, and promote principles of good health.

OCCUPATIONAL OBJECTIVES:

The successful graduate of the Diagnostic Medical Sonography at Southwest University at El Paso will have the knowledge and skills to obtain entry-level employment as a Diagnostic Medical Sonographer in:

- A Hospital or Medical Center
- A Medical Clinic
- A Radiology Imaging Center
- A Physician's Office
- Mobile Ultrasound Service
- Free Lance Sonographer
- Traveling Sonographer
- Commercial Ultrasound: Applications Specialist and Sales
- Research Sonographer

Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an intake (admissions) counselor
- Prospective students must submit an AAS DMS Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional entrance exam with a minimum of 70%.

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must be a graduate of an SU Allied Health Program
- Must have earned a minimum SU cumulative GPA of 3.5 and an attendance rate of 90% are required.

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours: 470 Hrs
Total Externship Hours: 900 Hrs
Total Lecture Hours: 1120 Hrs
Total Program Hours: 2490 Hrs
Total Length of Time: 102 Wks
Total Credit Hours: 165 Credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS

Content of this course is designed to establish a knowledge base in anatomy and physiology. Systems of the human body are described and discussed in specific detail.

Clock hours of lab: 20

Clock hours of classroom lecture: 40

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Pre-Requisite: N/A

Total Clock Hours: 60

Tuition: \$1150.00

AP 102 ANATOMY AND PHYSIOLOGY II

This course provides a systemic and functional review of human gross anatomy and systematic anatomy in order for students to expand the knowledge acquired in the Anatomy & Physiology I course. Students will learn the major gross— anatomical and systematic anatomy structures and physiology, functions / interactions of the different (organ) systems, as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases and treatments. This course will primarily focus on the clinical anatomy as it pertains to the Special Senses, Cardiovascular, Lymphatic Respiratory, Digestive Reproductive and Urinary Systems.

Clock hours of lab: 10

Clock hours of classroom lecture: 20

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Business Management and Accounting Systems Associate of Applied Science Degree Program

This program is designed to prepare students seeking employment in business management and managerial levels of accounting. Students will receive instruction to gain mastery over the principles, methods, and procedures of accounting, and will gain a broad understanding and appreciation for other elements of management such as finance, communications, economics, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercising leadership skills that make the modern employer-employee relationship a pleasant, rewarding and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture, laboratory, and externship experience.

Total Lab Hours:	140 Hrs

Health Administration Associate of Applied Science Degree Program

This program is designed to prepare students seeking employment in health administration. Students will understand the principles and practices of health care regarding administration, management, law, economics, and policy. Students will gain knowledge in health record maintenance, medical insurance processes, and healthcare classification systems. Students will also learn management principles toward team building, collaborative decision making, and financial skills. Graduates of this program can expect to be hired at insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, and many other employment settings related to the health care administration field.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

EDUC 121 COLLEGE STUDIES

This course prepares students with the academic and organizational skills to successfully complete college courses. This is done by showing the students how to efficiently take notes, prepare for research projects, and study for higher educational exams. Additionally, the course is designed for students to develop job readiness skills by teaching writing, research, and analytical skills for workforce preparation.

Clock hours of lab: 10

Clock hours of classroom lecture: 40

ENGL 133 READING COMPREHENSION

This course provides instruction in critical reading and thinking skills necessary for college reading and research. The course includes instruction in critical analysis, critical interpretation, and advanced instruction in vocabulary and literal comprehension. Materials used in this course will be high interest selections such as short essays, newspaper &

magazine articles, general stories, etc. The instructor will help students analyze, synthesize and interpret general reading materials including some with abstract concepts; increase speed and comprehension in silent reading; develop the skill to deduce the meaning of unfamiliar vocabulary from context; read for enjoyment; and at the same time gain new vocabulary words and sentence structures.

Diesel Technology

Associate of Applied Science Degree Program

The Associate of Applied Science Degree in Diesel Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a diesel mechanical environment. Students will learn the basic preventative maintenance procedures for medium and large diesel engines. Students will gain experience working with diesel engine tractors, and tractor trailers. Students will learn to work with Detroit Diesel and Cummins Diesel engines. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various diesel mechanic shops.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

Radiological Sciences

Associate of Applied Science Degree Program

Radiological technologists are healthcare professionals who use specialized X-Ray equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. Technologists are supervised by board certified radiologists. This course is designed to prepare the student to perform clinical examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

Admissions requirements:

- **All potential students must receive a school catalog prior to signing an enrollment agreement**
- **Student must attend entrance orientation**
- **A high school diploma or its equivalency is required for admission into the program**
- **Successful interview with an intake (admissions) counselor**
- **Submit an AAS Radiology Admissions Application**
- **Be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)**
- **Applicants must take and pass an institutional entrance exam with a minimum of 70%.**
- **Applicants must be a graduate of Southwest University Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program, please refer to the institutional catalog for program specific tuition costs).**

Allied Health Program	Allied Health Program Tuition and Fees Cost	Adjusted Tuition and Fees (Includes transfer credits)	Tuition and Fees (including all adjustments)	Total Additional Program length
Medical Assistant	\$17,812	\$28,050	\$45,862	36 weeks
Associate in Applied Science in Medical Coding and Billing	\$26,965	\$26,930	\$53,895	60 weeks
Associate in Applied Science in Health Administration	\$26,845	\$26,930	\$53,775	60 weeks

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The Following is required for all students wishing to enroll the program:

- **Graduate of a SU Allied Health Program**
- **Minimum SU Cumulative GPA of 3.5, attendance rate of 90% is required.**

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours: 80 Hrs
Total Externship Hours: 1050 Hrs

AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

AP 145 ANATOMY AND PHYSIOLOGY

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—*anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology.* The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the upper limbs and lower limbs.

Clock hours of lab: 10

Clock hours of classroom lecture: 40

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

ISC 1600: PATIENT CARE IN IMAGING SCIENCES

The content for this course is designed to provide the basic concepts of patient care, including consideration for the physical and psychological needs of the patient and family. Routine and emergency patient care procedures are described, as well as infection control procedures using standard precautions. The role of the imaging professional in patient education is identified. The course provides laboratory instruction in basic patient care procedures as well as beginning practical clinical experience in a radiology department. The following topics will be explored, infection control, isolation procedures, aseptic technique, sterile procedures, vital signs, chest tubes, various lines, patient transfer techniques, patient interactions, history taking and patient safety protocols.

ISC 1700: PHARMACOLOGY AND DRUG ADMINISTRATION

Content is designed to provide basic concepts of pharmacology. The theory and practice of basic techniques of vein punctures and administration of diagnostic contrast agents and/or intravenous medications is included. The appropriate delivery of patient care during these procedures is emphasized. The course will include contrast media utilized in the imaging sciences including Ionic, non-ionic, barium sulfate, gadolinium, water soluble, positive, negative and newer agents. The course will discuss possible adverse reactions to contrast agents utilized in the imaging sciences. Discussion regarding adverse reactions to contrast as well patient emergency preparedness will be included.

ISC 1601: IMAGING PATHOLOGY I

This course investigates general pathology and organ system pathology. It includes a brief review of normal structure and function, followed by more in-depth descriptions of specific pathologic processes. This course will include basic characteristics, etiology, pathogenesis, clinical features, and diagnostic tools including medical imaging procedures, prognoses, and therapies for each of the specific pathologies. The contents of this course include an introduction to pathology, specialized imaging techniques, respiratory

system, skeletal system, GI system and the urinary system.

Magnetic Resonance Imaging Associate of Applied Science Degree Program

MRI technologist is a healthcare professional who uses specialized MRI equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. MRI Technologists will be supervised by board certified radiologists. This course is designed to prepare the student to perform clinical MRI examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an admissions counselor
- Prospective students must submit an AAS MRI Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional entrance exam with a minimum of 70%.
- Applicants must be a graduate of Southwest University Allied Health Program. (tuition and program length for these programs are in addition to the cost for this program, please refer to the institutional catalog for program specific tuition costs).

Allied Health Program	Allied Health Program Tuition and Fees t	Adjusted Tuition and Fees (Includes transfer credits)	Total Tuition and Fees (including all adjustments)	Total Length of Program
Medical Assistant	\$17,812	\$26,310	\$44,122	36 weeks
Associate in Applied Science in Medical Coding and Billing	\$26,965	\$25,410	\$52,375	60 weeks
Associate in Applied Science in Health Administration	\$26,845	\$25,410	\$52,375	60 weeks

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must have earned a minimum SU cumulative GPA of 3.5 and an attendance rate of 90% are required.

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student’s responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours: 80 Hrs
Total Externship Hours: 1050 Hrs
Total Lecture Hours: 1210 Hrs
Total Program Hours: 2340 Hrs
Total Length of Time: 96 Weeks
Total Credit Hours: 160 Hrs

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student’s enrollment status will be considered full time if student is enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily

focus on the clinical anatomy as it pertains to the upper limbs and lower limbs.

Automotive Technology

Associate of Applied Science Degree Program

The Associate of Applied Science Degree in Automotive Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a mechanical environment. Students will learn the basic preventive maintenance procedures for gasoline engines, brakes systems, transmission, electrical systems, trans-axels, diagnostic equipment, steering and suspension. Students will gain experience working with domestic and imported vehicles. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various mechanic shops.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

ABS 101 Auto Brake Systems

In this course the student will study the modern day braking system used on today's vehicles. They will cover the design, operation and repair of hydraulic brakes along with antilock breaking system. In the automotive shop the student will practice proper inspection and troubleshooting techniques on live trainers. The student will inspect and diagnose both ABS and non ABS brake systems. Students will practice measuring as well as resurfacing both brake rotors and brake drums. The hydraulic portion of the braking system will also be covered in this module.

Health Administration Bachelor of Science Degree Program

This program is designed to prepare students seeking employment in medical management and administrative levels of the healthcare industry. Students will receive instruction to gain mastery over the principles, methods, and procedures of management in a diverse medical industry, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, accounting, employee and patient law standards. Students who complete this program will understand the policies and procedures of organizational development, monitoring financial capital, employees' performance, and exercise modern leadership dynamics that can provide the current healthcare employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: medical office managers, supervisors, unit managers, department leads, etc.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture, laboratory, and externship experience.

Program Length: 2270 CH (Clock Hours)

Program Delivery: Residential

Definition of Academic Year: An academic year will consist of 36 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Total Lab Hours: 330 Hrs

Business Management Bachelor of Science Degree Program

This program is designed to prepare students seeking employment in business management and managerial levels of the business market. Students will receive instruction to gain mastery over the principles, methods, and procedures of business management, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, graphic design, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercise leadership skills that can make the modern employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture, laboratory, and externship experience.

Program Length: 2280 CH (Clock Hours)
156 Weeks

Program Delivery: Residential

Definition of Academic Year: An academic year will consist of 36 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Total Lab Hours: 330 Hrs
Total Lecture Hours: 1950 Hrs
Total Program Hours: 2280 Hrs

Nursing (RN to BSN Bridge) Bachelor of Science Degree Program

This program is designed to prepare Registered Nurses with an Associate's Degree in Nursing to advance in their nursing Career, and be proficient to participate at different levels of leadership within their nursing practice and as part of the Health Care Team. This is known as a Nursing (RN to BSN Bridge) degree. The program emphasis includes Evidence Based Nursing, Critical Thinking, Leadership and Management, Gerontology, and Public Health/Preventive Nursing. The program prepares the Nursing Professional to give a high-quality of care to patients, but also provide a high-quality customer service.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a nursing registry unencumbered license (Registered Nurse (RN) license will be verified by admissions director for successful completion of the NCLEX-RN)
 - a. 55 Semesters hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSN core of courses
 - b. Additionally 36 semester hours of registered nursing credits (54 quarter credit hours) must be completed
4. Background check and drug test
5. Updated immunization records (a listing of immunizations can be located in the admissions office)
6. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through distance lecture and laboratory. 99 Quarter credits will be awarded under the Southwest University Nursing (RN to BSN Bridge) curriculum.

Prerequisites:

Registered nurse applicants seeking admission to the Nursing (RN to BSN Bridge) must have completed the following:

Prerequisites Courses	Semester Credit Hours	Quarter Credit Hours
Anatomy and Physiology	8	12
General Chemistry	3	4.5
Microbiology	4	6
Introduction to Psychology	3	4.5
General Education	Semester Credit Hours	Quarter Credit Hours
Introductory Mathematics	6	9
Introduction to Computers	3	4.5
Professional Communication	3	4.5
Social Sciences	10	15
Electives	6	9
English	6	9
College Algebra	3	4.5

Program Length: 1080 CH (Clock Hours)

Program Delivery: Full Distance

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Transfer Hours:

General Education: 37 semester hrs (55.5 Quarter Credit Hours)

Prerequisites/Lower Division: 18 semester hrs (27 Quarter Credit Hours)

Nursing: 36 semester hrs (54 Quarter Credit Hours)

Total Lab Hours: 180 Hrs

Total Lecture Hours: 900 Hrs

Total Program Hours: 1080 Hrs

Total Length of Time: 54 Wks

Total Credit Hours after transfer credit awarded: 99 Qtr credits

Total Credit Hours: 235.5 Qtr credits

ENGL 2010 WORKPLACE WRITING

Workplace Writing is a course designed to help students enhance their professional writing skills. The course is based on the fundamentals writing of emails, letters, and reports. Students will practice research and writing skills appropriate for topics within the realm of their specific career fields. In addition students will read, analyze, and interpret several materials dealing with the workplace reports.

ENGL 2033 WRITING AND LITERATURE

English 2033 will expand and strengthen students' ability to read, reflect on, discuss, and write about literary texts. Students will be encouraged to assume an active and role in the literary community by becoming familiar with the conventions, terminology, and expectations in the study of literature. Students will also learn how to clearly analyze and effectively communicate ideas and intuitions/feelings about the literature they read for the course. They will begin to take part in the significant discussions and debates taking place within the academic world and in the wider culture concerning the nature and function of literature.

Associate of Applied Sciences in Medical Assisting

The Associate of Applied Sciences in Medical Assisting (AASMA) was designed to meet the demands of a continuously evolving healthcare market. By intensifying and expanding the training the AASMA Graduate will be competent not only as a Medical Assistant, but also in the areas of Phlebotomy, Electrocardiography, and advanced Patient Care. The medical assistant Program also provides the necessary skills to be competent in administrative and clinical operations, medical coding and billing, as well as in clinical and medical laboratory skills. By incorporating components of liberal arts and sciences, the student will re-enforce written and verbal communication skills, as well as develop critical thinking skills that are essential in a high-intensity work environment, and develop a humanistic healthcare professional.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Must be a graduate from a certified/accredited Medical Assistant program
3. Successful interview with an admissions representative is required prior to admission

Total Lecture Hours:	625 Hours
Total Lab Hours:	415 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	1230 Hours
Total Length of Time:	48 Weeks
Total Credit Hours:	89.0 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Military Transfer Credit: Military transfer credits will be honored from an allied health or medical related MOS (Military Occupational Specialty) completion.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

AP 101 ANATOMY & PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the body cells, tissues/organ systems, integumentary. Musculoskeletal and nervous systems.

EX -MA 101 EXTERNSHIP

This class is a hands-on externship in which the student spends 190 hours in a medical office environment utilizing the skills learned in the classroom and lab setting. This course fine tunes the skills learned and reinforces the role and functions of the Medical Assistant. The externship will be an unpaid, supervised experience at a health care or doctor's office setting.

Computed Tomography Diagnostic Imaging Bachelor of Science

This program is designed to prepare registered radiology technicians (RT) with an Associate's Degree within a radiology field to advance in their career and be proficient to participate in a different modality within their profession. This degree will serve as a specialty bridge in radiology from an Associates Degree in Radiology to a Bachelors of Science in Computed Tomography Diagnostic Imaging degree. The program emphasis includes course material specialized in the Computed Tomography modality such as: CT Sectional Anatomy, CT Procedures, CT Physics, and CT instrumentations.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist (RT) license will be verified by admissions director for successful completion of the ARRT Registry)
 - a. 54 Semesters hours (81 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSCT core of courses
 - b. 36 semester hours of imaging credits (54 quarter credit hours) must be completed
 - c. 18 additional general education credit hours (27 Quarter Credit Hours) must be completed
4. Background check and drug test
5. Updated immunization records (a listing of immunizations can be located in the admissions office)

The program content is offered through residential lecture and laboratory. 99 Quarter credits will be awarded under the Southwest University RS to BSCT curriculum.

Prerequisites:

Registered applicants seeking admission to the RS to BSCT must have completed the following:

Prerequisites Courses	Semester Credit Hours	Quarter Credit Hours
Anatomy and Physiology	8	12
General Pathology	3	4.5
Biology	4	6
Introduction to Psychology	3	4.5
General Education	Semester Credit Hours	Quarter Credit Hours
Introductory Mathematics	6	9
Introduction to Computers	3	4.5
Professional Communication	3	4.5
Social Sciences	10	15
Electives	6	9
English	6	9
College Algebra	3	4.5

General Education:

In addition to the prerequisites, Students will be required to satisfactorily complete a minimum of 18 additional general education credit hours (27 Quarter Credit Hours). Listed above.

Program Length: 1335 CH (Clock Hours)

Program Delivery: Online

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Transfer Hours:

General Education: 18 semester hrs (27 Quarter Credit Hours)

Prerequisites/Lower Division: 36 semester hrs (54 Quarter Credit Hours)

Total Lab Hours: 150 Hrs
Total Lecture Hours: 780 Hrs
Total Externship Hours: 405 Hrs
Total Program Hours: 1335 Hrs
Total Length of Time: 54 Wks
Total Credit Hours after transfer credit awarded: 99 Qtr credits
Total Credit Hours: 235.5 Qtr credits

ENGL 2010 WORKPLACE WRITING

Workplace Writing is a course designed to help students enhance their professional writing skills. The course is based on the fundamentals writing of emails, letters, and reports. Students will practice research and writing skills appropriate for topics within the realm of their specific career fields. In addition students will read, analyze, and interpret several materials dealing with the workplace reports.

Imaging Sciences

Bachelor of Science in Radiology Management Degree

The Radiology Management program is designed to help the Imaging professional prepare for the many types of leadership positions available in the Radiologic Sciences. The degree program will provide essential information relative to the most current trends and effective management practices in Radiology. The program core content focuses on the Association for Medical Imaging Management's (AHRA) professional development resources along with current medical procedures. These procedures include courses that apply the electronic medical record conversion with PACS systems and Joint Commission practices.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT(R), (CT), (MR), (US), (NM), (CIT)(RTT)(CVT)) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT recognized program (must be approved by department director).
 - a. 55 Semester hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSRM core of courses, the required 55 credit hours (82.5 quarter credit hours) are as follows:
 - i. 37 semester hours of general education credit hours (55.5 quarter credit hours) must be completed; and
 - ii. 18 semester hours of prerequisites credit hours (27 Quarter Credit Hours) must be completed
 - b. 40 Semester hours (60 quarter credit hours) of radiology courses must be completed before enrollment in the BSRM program. Modalities may vary
4. Background check and drug test
5. Updated immunization records (a listing of immunizations can be located in the admissions office)
6. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through online lecture. 78 Quarter credits will be awarded under the Southwest University BSRM curriculum.

Prerequisites:

Registered applicants seeking admission to the BSRM must have completed the following:

Prerequisites Courses	Semester Credit Hours	Quarter Credit Hours
Anatomy and Physiology	8	12
General Pathology	3	4.5
Biology	4	6
Introduction to Psychology	3	4.5
General Education	Semester Credit Hours	Quarter Credit Hours
Introductory Mathematics	6	9
Introduction to Computers	3	4.5
Professional Communication	3	4.5
Social Sciences	10	15
Electives	6	9
English	6	9
College Algebra	3	4.5
Radiology Courses	Semester Credit Hours	Quarter Credit Hours
May vary based on modality	40	60

Program Delivery: Online

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student’s enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Transfer Hours:

General Education: 18 semester hrs (27 Quarter Credit Hours)

Prerequisites/Lower Division: 37 semester hrs (55.5 Quarter Credit Hours)

Radiology Advanced Standing Credit (ARRT Completion): 40 semester hrs (60 Quarter Credit Hours)

Total Lab Hours: 40 Hrs
Total Lecture Hours: 760 Hrs
Total Externship Hours: 0 Hrs
Total Program Hours: 800 Hrs
Total Length of Time: 54 Wks
Total Credit Hours: 78 Qtr credits

Total Credit Hours after transfer credit awarded: 220.50 Qtr credits

***Please note that the program requires additional 2:1 outside preparation hours for any lecture hour indicated and 1:1 outside preparation hours are required for any lab hour indicated**

ACCT 115 INTRODUCTION TO ACCOUNTING (Online Only)

This course provides an introduction to accounting principles relating to business operations. The course will concentrate on generally accepted accounting principles, the accounting process, and the definition of accounting elements. The course covers a broad range of topics that will introduce students to the functions of accounting.
