

## **Verification**

### 1 Introduction

Verification is the process of confirming the accuracy of student reported data on financial aid applications. Only a portion of the student population is selected for verification.

### 2 Selection of Applications to be verified

The Office of Financial Aid (OFA) verifies those applicants identified by the Department of Education (DOE).

#### 2.1 Exclusions

Listed below are certain circumstances where students do not have to complete verification. The financial aid administrator must identify and document in the aid folder why the student is not required to complete verification.

- a. An applicant who died during the award year.
- b. A student who is incarcerated
- c. Applicants whose parents do not live in the United States and cannot be contacted.
- d. A dependent student whose parents cannot comply because of specified reasons (i.e., parents are deceased, are physically or mentally incapacitated, or the student does not know where the parents reside).
- e. A student who does not receive Title IV funds.

### 3 Verification Time Frame

If the OFA has received DOE information identifying the student as being selected for verification the verification form, and IRS Data Retrieval tool or tax return transcripts are requested to the student.

### 4 Document Collection Procedures

Required documentation items are identified and a copy of the tracking letter is kept in the pending file. When all required documents are received, the student is considered complete and the student file is passed on to the financial aid packaging and awarding specialist for award letter processing.

#### 4.1 Documentation

Documentation submitted to the OFA must be legible, appropriate, and have the student's social security number for identification purposes. If the student submits a document which is not legible the documents will be returned and a request for additional documentation is requested.

#### 4.2 Processing Time Period

Students are notified that until the missing items are submitted to the OFA, additional processing of their file is not possible.

#### 4.3 Failure to Comply

Students who fail to submit verification documents never become complete; therefore, aid is not awarded for these students.

#### 4.4 Notification of Verification to Applicants

The OFA mails a Verification Letter and the Verification Worksheet for students that were selected for verification.

### 5 Verification of Data Elements

SU verifies only those data elements required by the federal government. However, Aid Administrators are free to ask for additional information if further investigation is needed to resolve a discrepancy.

For each award year, the Secretary of Education publishes in the Federal Register a notice announcing the FAFSA information that an institution and an applicant may be required to verify. The notice also specifies what documentation is acceptable for verifying FAFSA information. The Federal Register lists these items for the 2013-2014 and 2014-2015 award years. The individual verification items that an applicant must

verify are based upon the Verification Tracking Group to which the applicant is assigned as listed in the chart below:

**Acceptable Documentation**

The documentation required for verification varies according to the specific FAFSA information being verified. A student selected for verification will need to submit the following acceptable documentation to the University to complete the verification process. If a student is unable to submit any of the required documents, he/she should contact the Financial Aid Office to discuss possible alternative acceptable documentation.

NOTE: Federal regulations stipulate that an institution may require an applicant to verify any FAFSA information that it specifies. On occasion, the University may therefore require a student to verify any FAFSA information and to provide any reasonable documentation.

**Acceptable Documentation**

The documentation required for verification varies according to the specific FAFSA information being verified. A student selected for verification will need to submit the following acceptable documentation to the University to complete the verification process. If a student is unable to submit any of the required documents, he/she should contact the Financial Aid Office to discuss possible alternative acceptable documentation.

For the retrieved data to be acceptable documentation of tax data, it is necessary that neither the student nor the parents change the data after it is transferred from the IRS.

## 6 No Tolerances

All discrepant information must be corrected when verifying a student's record.

## 7 Notification to Students

Students are notified of the results of verification in the form of an award letter.

### 7.1 Overpayments

OFA policies and procedures are designed to eliminate the possibility of an overpayment from any fund. If however, an overpayment does occur, the student is placed on hold until the overpayments can be corrected. Students are not allowed to register for subsequent terms and academic transcripts are withheld until the account has been cleared.

## 8 Updating Requirements and Procedures

There are three situations whereby an Aid Administrator may update student information. When students notify the aid office of an allowable update, the student is required to make a correction so that the Aid Administrator may recalculate the student's EFC and the new figure may be used to award financial aid. Updates may occur for:

- 1) Dependency status except through marriage.
- 2) Family size.
- 3) Number of family members enrolled in a postsecondary institution.

## 9 Interim Disbursements

Because the OFA is liable for disbursements made prior to verification, the OFA policy does not allow interim disbursements. Students must complete the verification process before aid is awarded or disbursed. Exceptions must include extenuating circumstances, be documented in the student's folder, and be monitored by an Aid Director.
