All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.*

# HISTORY OF SOUTHWEST UNIVERSITY AT EL PASO

---

Southwest Career College, now Southwest University at El Paso, opened its doors to the public in June 1999. The primary goal of the institution was to provide quality education to individuals who lacked a strong grasp of the English language and had not received their high school diploma.

In November 2002, Southwest Career College added vocational career courses that would help the participants achieve their career goals. By working with the business community as partners, Southwest Career College created an extensive and complete curriculum in the fields of Office Technology, Administrative Assistant, and Medical Records and Health Information Specialist. Reacting to the demand from the business partners, Southwest Career College added a Medical Assistant program in May 2004, Diesel Technician in May 2005, and MRI Technologist in May 2008. In April 2009, Southwest Career College received authorization from THECB to grant an Associate in Applied Science Degree in Diagnostic Medical Sonography, and changed its name to Southwest University at El Paso. Southwest University at El Paso added Bachelor's Degree programs in Business Administration and Health Administration and officially became a university in 2012.

## SOUTHWEST UNIVERSITY AT EL PASO MISSION STATEMENT

The mission of Southwest University at El Paso is to provide exceptional career and technical training, promote intellectual growth, critical examination and informed understanding through general education and a commitment to educational excellence strengthened by quality instruction, a positive learning environment, and the integration of emerging technologies to enable students to achieve their potential, participate in new employment opportunities, and continue to be lifelong learners.

The following goals are integral to the mission of Southwest University at El Paso:

- To develop each student's individual, intellectual, and professional growth by providing high quality education with technology and quality instruction.
- To promote each student's critical thinking skills through pragmatic and real life course content.
- To promote good citizenship so that students may enjoy success in their career and in society by providing general education and promoting professional behavior in and out of the classroom.
- To offer competent certificate and degree programs by actively engage in advisory board community outreach.
- To promote a lifelong learning culture through a positive learning environment.
- To assist graduates in participating in new employment opportunities in their field of study.

## SCHOOL POLICIES ON ADMISSION AND ENROLLMENT

### APPLYING FOR ADMISSION

An admissions representative conducts a personal interview with each applicant before any decision is made regarding enrollment. The representative and student will meet to discuss the school's programs and the student's career goals. The representative assists the student in the completion of the application packet. The school director reviews the application for evidence of a high school diploma, a GED certificate, or a transcript from an accredited post-secondary educational institution for acceptance. If the applicant is not accepted to a desired program, an alternative program may be suggested. Any applicant rejected for admission will be notified within seven working days. Any fees paid by the prospective student will be fully refunded.

Southwest University at El Paso has established the following requirements and procedures for admissions:

- Visit School
- Complete interview with admissions representative
- Complete admissions packet
- Sign the enrollment agreement
- Sign a statement of general health
- Complete necessary school documentation

### ADMISSIONS REQUIREMENTS

**The following programs have the following additional requirements:**

**Medical Assistant, AAS Medical Coding & Billing, AAS Health Administration, AAS Business Management and Accounting Systems, AAS Automotive Technology, AAS Diesel Technology, AAS Medical Assisting, AAS Medical Laboratory Technology, BS Health Administration, BS Business Management, AAS Ophthalmology Technician, AAS Surgical Technology**

1. An accredited high school diploma or its equivalency
2. Possess a General Education Development (GED) certificate or state-specific equivalency diploma
3. For home schooled students: a certificate from the state in which the students resided during their homeschooling
4. Transcripts from foreign institutions must meet the same requirements as domestic institutions.
5. Successful interview with an admissions representative
6. Minimum age of at least 17 years (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
7. All courses are taught in English. You must be able to speak, read, and write English fluently.

**The following programs have the following additional requirements:**

**AAS Radiological Sciences, AAS MRI Technology, AAS Diagnostic Medical Sonography**

1. Prospective students must submit an AAS Imaging Admissions Application
2. A 500 word essay in APA format will need to be turned in.
3. Two letters of recommendation (1 Professional, 1 Personal)
4. A high school diploma or its equivalency is required for admission into the program.
5. Transcripts (Certification, Associates, Bachelors)
6. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.
7. Proof of citizenship (or Worker Visa)
8. Immunization Record
9. Physical (form is provided by the Imaging Office)
10. Background check – will be needed before Externship
11. Drug test – will be needed before Externship

**The following programs have the following additional requirements: Bachelor of Science in Radiology Management & Computed Tomography Certificate**

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program;
3. Prospective student must complete a successful interview with an intake (admissions) counselor; and
4. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT[RT], [CT], [MR], [US], [NM], [CIT], [RTT], [CVT]) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT recognized program (must be approved by department director).
  - o 55 Semester hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSRM core of courses, the required 55 credit hours (82.5 quarter credit hours) are as follows:
    - 37 semester hours of general education credit hours (55.5 quarter credit hours) must be completed; and
    - 18 semester hours of prerequisites credit hours (27 Quarter Credit Hours) must be completed
  - o 40 Semester hours (60 quarter credit hours) of radiology courses must be completed before enrollment in the BSRM program. Modalities may vary
5. Background check and drug test
6. Updated immunization records ( a listing of immunizations can be located in the admissions office)
7. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

**The following program has the following additional requirements:  
ADN (Associate Degree in Nursing)**

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. Student must attend entrance orientation
3. A high school diploma or its equivalency is required for admission into the program;
4. Prospective student must complete a successful interview with an intake (admissions) counselor.
5. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
6. Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.
7. Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).
8. Background check and drug test
9. Proof of citizenship (or Worker Visa)

**The following program has the following additional requirements:  
Bachelor of Science in Nursing (RN-BSN Bridge)**

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program.
3. Prospective student must complete a successful interview with an intake (admissions) counselor.
4. Successful completion of a nursing registry unencumbered license (Registered Nurse [RN], license will be verified by admissions director for successful completion of the NCLEX-RN).
5. 55 Semesters hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSN core of courses.
6. Additionally 36 semester hours of registered nursing credits (54 quarter credit hours) must be completed
7. Background check and drug test
8. Updated immunization records ( a listing of immunizations can be located in the admissions office)
9. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete forms that review the tasks experienced throughout the duration of the program. This will serve as a determinant if the student will be prepared to start with the distance education platform provided.

**The following programs have the following additional requirements:  
AAS Computer Information Technology Systems & AAS Web & Mobile Marketing Development**

1. A high school diploma or its equivalency is required for admission into the program.
2. Successful interview with an admissions representative is required prior to admissions

## DISTANCE EDUCATION

Southwest University at El Paso has been authorized by ABHES to offer recognized programs (listed below) as full distance education delivery. (Programs recognized as blended are labeled as such within their respective catalog insert).

- RN to BSN (Bridge), Bachelors of Science Degree in Nursing (Bridge Program)
- Bachelors of Science Degree in Radiology Management
- Certificate in Computed Tomography
- Associate of Applied Science of Business Management in Healthcare Support Systems

Southwest University is recognized under the National Council for State Authorization Reciprocity Agreements (NC-SARA). All distance education programs are recognized in all states other than California (2020). Any student whom relocates to a state not recognized by NC-SARA prior to program completion may have difficulties in program completion and/or gain in-field employment.

- A student must present evidence physical location at the time of enrollment (enrollment agreement)
- Student must notify institution of change of physical location (Admissions representative or program director)

\*Students may seek additional state approvals when seeking certification or licensure exams, credentialing, and credit transfers, to other institutions or employers outside of Texas and or outside of the NC-SARA pact. (i.e. Texas Board of Nursing, ARRT, and any other education entity).

The LMS software has been designed to accommodate 1000 students at a given moment. This allowance is sufficient to host both current and expected enrollment growth. The LMS provides the sufficient amount of server space and allocated resources to communicate from institution to student, deliver and distribute the learning materials without service interruption. If an interruption should occur (i.e., data back-up, scheduled maintenance) students and faculty will be notified with an ample amount of time in order to make any necessary arrangements.

## DATA LOSS SAFEGUARDS

The institution is housed with multiple safeguards against data loss. The LMS is backed up in the initial server, and backed up simultaneously in a RAID server one, and a RAID server two. The information from the initial server and RAID servers one and two are updated on a nightly basis in the FREENAST server. The information on the FREENAST server is then backed up on the DropBox Cloud as an additional safeguard for data loss.

24 hour support for these programs along with any SU Learning issues can be addressed at: <https://sullearning.southwestuniversity.edu/support.php>

## MILITARY STUDENTS

We will help you untangle the college web. Contact an admissions representative to get information about how you, as a military/veteran student or dependent, can get started with your degree.

- **Veterans' Educational Benefits**  
If you haven't applied for your Veterans' Educational Benefits, go to [www.gibil.va.gov](http://www.gibil.va.gov)
- **Post-9/11 GI Bill® Tuition Benefits**  
Under the new Post-9/11 GI Bill®, effective August 2009, eligible students can get their tuition covered up to the cost of tuition and fees, in addition to receiving housing and book stipends.
- **Reactivating GI Bill®**  
If you are coming back to SU or have already used your MGIB benefits at another college; you must reactivate your GI Bill® by filling out an application for Change of Place of Training or Program (form 22-1995). Take the completed application to Services for Veteran Students.
- **Tuition Assistance Procedures**  
Visit your local Education Service on Post for guidance to apply and use TA. GoArmyEd instructions to apply: [www.goarmyed.com/loin.aspx](http://www.goarmyed.com/loin.aspx)
- **Dependents**  
Several options are available for military dependents including using benefits transferred to them from service members. Discuss MYCAA and other financial options with your representative during your career counseling session. Apply: <http://www.military.com/education/content/money-for-school/military-spouse-career-advancement-accounts-financial-aid.html>
- **Vocational Rehabilitation**  
Visit your local veterans' service office for details.

Your representative will schedule a financial aid appointment with you to determine what you are eligible or qualified for. You will be required to apply for a pin number and file your FAFSA with the financial aid office.

After you have completed your career counseling sessions, the Admissions Office will notify you of available orientation dates. Orientation is mandatory for new students.

After you've applied for your Veterans' Educational Benefits, turn in your application (letter of eligibility), DD214, and your certification form (VA 22-1999) to Veterans' Services or your admissions advisor before class starts so you can start receiving your education benefits.

## VETERANS' READMISSION POLICY

A student who is called to active duty in the United States Armed Forces or the National Guard or Reserve, is entitled to reenroll at the college provided the student meets the following requirements:

- the student notifies the college upon completion of service that he or she intends to reenroll at the college;

The following policy and procedures are provided in order to minimize disruptions or inconveniences for students fulfilling their military responsibilities.

### **WITHDRAWAL PROCEDURES**

1. If called to active duty, a student is encouraged to notify the Registrar’s Office in advance either in writing or orally, unless the student cannot provide notice because the mission is classified. If possible, the student is requested to provide verification of the call to active duty by providing a copy of the service orders to the Registrar’s Office.  
If the student provides advance notice of the call to active duty, the student should inform the Registrar’s Office in writing one of the following two options he or she chooses:
  - a. The student may elect to withdraw from Southwest University
  - b. The student may choose to remain enrolled and receive the grade(s) and credit for the course(s). In such a case, no adjustment of tuition charges would occur. (I) in the course by requesting an Incomplete grade through the course instructor. The student may choose to take an Incomplete in one or more courses and drop other courses. A student would only pay tuition charges for the courses not dropped.
  - c. If the student does not provide notice of the call to active duty to the Registrar’s Office, the Registrar’s Office shall administratively withdraw the student.
2. A student receiving Veteran’s Benefits should notify the Registrar’s Office in order to complete required documents.
3. A student receiving financial aid will be subject to the refund policies of the agencies sponsoring the aid.
4. If a student is called to active duty in his or her last semester before graduation, the student should contact the Registrar’s Office to determine if graduation requirements can be completed.

### **READMISSION POLICY**

Southwest University agrees to promptly readmit the student upon the student’s inquiry about returning to the College. The College agrees to readmit the student with the same academic status as at the time they withdrew due to being called to active duty. The College agrees to admit the student:

1. To the same program to which he or she was last admitted by the institution or, if that program is no longer offered, the program that is most similar, unless the student requests or agrees to admission to a different program;
2. At the same enrollment status that the student last held at the institution, unless the student requests or agrees to admission at a different enrollment status;
3. With the same number of credit hours complete previously by the student, unless the student is readmitted to a different program to which the completed credits hours are not transferable;
4. With the same academic standing the student previously had;
5. If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, by assessing no more than the institutional charges that other students in the program are assessed for that academic year.

### **SERVICE MEMBERS OPPORTUNITY COLLEGES (SOC)**

Southwest University at El Paso is a member of the Service members Opportunity Colleges (SOC) Consortium of approximately 1,900 colleges and universities. SOC consortium members subscribe to principles and criteria to ensure that quality academic programs are available to service members, including members of the National Guard and Coast Guard, their family members, reservists, and veterans of all Services. As an SOC Consortium member, this institution ensures military students share in appropriately accredited postsecondary educational opportunities available to our citizens. Flexibility of programs and procedures, particularly in admissions, counseling, credit transfer, course articulations, scheduling, course format, and residency requirements are provided to enhance access of service members and their family members to higher education programs.

### **CONVICTION FOR POSSESSION OR SALE OF ILLEGAL DRUGS**

A federal or state drug conviction can disqualify a student for FSA funds. The student self-certifies in applying for aid that he/she is eligible;

A conviction that was reversed, set aside, or removed from the student’s record does not count, nor does one received when the student was a juvenile, unless she/he was tried as an adult.

The Chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs).

	<b>Possession of Illegal Drugs</b>	<b>Sale of Illegal Drugs</b>
1 <sup>st</sup> offense	1 year from date of conviction	2 years from date of conviction
2 <sup>nd</sup> offense	2 years from date of conviction	Indefinite period
3+offenses	Indefinite period	

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

A student regains eligibility the day after the period of ineligibility ends or when he/she successfully completes a qualified drug rehabilitation program. Further drug convictions will make him/her ineligible again.

When a student regains eligibility during the award year the University may award Pell and Campus-based aid for the current payment period and Direct loans for the period of enrollment.

### **STANDARDS FOR A QUALIFIED DRUG REHABILITATION PROGRAM**

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company
- Be administered or recognized by federal, state or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.

### **DESCRIPTION OF FACILITIES**

Southwest University at El Paso currently has one main campus and one separate classroom space. Our main campus is located at 1414 Geronimo (extending to 1420 Geronimo) in El Paso, Texas. The Medical Assistant/Laboratory Assistant; Business Management and Accounting Systems; Health Administration; Magnetic Resonance Imaging; Medical Coding and Billing Systems; Radiological Sciences; and Diagnostic Medical Sonography programs are fully taught at this location. Each of the thirty four classrooms can accommodate between 15- 45 students. Adequate space for office and administrative work is provided. Over one hundred computer workstations are available for student use in five separate computer laboratories. These workstations are networked and have access to a high-speed (Fiber Optic) Internet connection. Nine medical laboratories are available for student use, so they can gain experience in such areas as phlebotomy, EKGs, blood analysis, and laboratory procedures. Each classroom is furnished with an erasable ink board and bookshelves with multi-media resources available as needed. The University houses a coffee shop that has been designed to accommodate a lounge area furnished with tables, chairs, study areas, and a full service eatery. The facility is centrally located and convenient to bus routes and support agencies.

The Associate of Applied Science in Diesel Technology, The Associate of Applied Science in Automotive Technology, and the Certificate in Welding programs are offered at 6500 Montana, El Paso, Texas. The separate classroom space consists of five bays that allow the students to work on engines and vehicles. Currently, there are over twenty diesel engines and fifteen vehicles available for the students to work on. The campus has a capacity of one hundred students per shift. The AAS Degree in Diesel and Automotive Technology were approved in June 2012 and will be offered at this campus.

The University library is located in the Main Campus. The library includes areas featuring computer stations and areas for both group and individual study. All students are also encouraged to use the digital library subscriptions made available through SU Learning.

### **STUDENT DISABILITY SERVICES**

Southwest University at El Paso will not discriminate against any person on the basis of a disability. Furthermore Southwest University at El Paso is committed to providing equal access to university programs and facilities to all qualified students regardless of disability.

All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

Students who seek special arrangements are encouraged to submit a request with academic advisor 10 days before the start of a term. All accommodation requests will be considered and suggestions will be provided to the student on how to accommodate them.

**APPROVED AND REGULATED BY THE TEXAS WORKFORCE COMMISSION, CAREER SCHOOLS AND COLLEGES, AUSTIN, TEXAS**

**THE STUDENT AGREES:**

1. That he/she will comply fully with the University's policies on attendance, progress, conduct and all other school policies as contained in the School Catalog, Student Handbook, or any supplemental publications.
2. That violation of school rules or policies constitutes grounds for student's dismissal from school.
3. That he/she will cooperate fully with the staff of the school in bringing his/her training to a successful conclusion within the scheduled training period.
4. That he/she will pay at the offices of Southwest University at El Paso or its agents, all payments on the due dates as indicated on page one of this agreement.
5. That he/she will buy textbooks, laboratory supplies, and other incidentals as may be required in any given course.
6. That should it be necessary for this account to be placed in the hands of an attorney for collection, the undersigned promises to pay such additional amounts as court cost and attorney's fees as the court may adjudge reasonable.
7. That he/she will be liable for school property or other property lost or damaged while in student's possession
8. That he/she will hold the school harmless for damage to clothing, rings, watches, and other such items, as well as personal injury that may be caused by laboratory equipment, chemicals, machines or test equipment
9. That he/she will refrain from removing from the School any supplies, textbooks or equipment or other property of Southwest University at El Paso without written permission from the School Director.
10. That staff or faculty personnel changes may occur periodically during the course of the student's enrollment.
11. That if, during the course of training, the school determines that the student is not adapted for this field, the school reserves the right to terminate the student's training. Unused prepaid tuition will be refunded in accordance with the refund policy.
12. That Southwest University at El Paso may periodically change, update or otherwise modify program curricula, textbooks, tools, or class schedules. The student will receive the benefit of any such curriculum updates or changes in his/her present course at no additional cost.
13. That if he/she continues his/her education at, or transfers to another institution, credits earned at this school may not be accepted by the receiving institution. An institution's accreditation does not guarantee that credits earned at that institution will be accepted for transfer by any other institution. Students must contact the registrar of the receiving institution to determine what credits, if any, that institution will accept.
14. That job placement assistance is an ongoing service available to all graduates in satisfactory standing. To protect the school's reputation as well as the employment opportunities of future graduates, a graduate is considered to be in unsatisfactory standing and forfeit his/her placement assistance privileges if he/she:
  - a. Has failed or refused to take a company physical relating to drug or other substance testing
  - b. Has defaulted on a student loan
  - c. Is not current in his/her financial obligations to the school
  - d. Has been discharged from a job for misconduct such as stealing, substance abuse, sexual harassment, etc...
15. Repeat a Course Policy: Students who fail any course will have to retake course until receiving a satisfactory grade based on course grade scale. Students who fail courses will incur additional charges for the full amount of the course(s) that need to be retaken. These charges will appear as additional charges on the student's account. Southwest University will allow students who earn a grade of "D" or lower to repeat the identical course and have the higher grade recorded and calculate in the GPA. The original course will be replaced as a "R" Repeat. Courses may not be repeated once the degree has been awarded

**SOUTHWEST UNIVERSITY AT EL PASO AGREES:**

1. To provide instruction in the course for which the student is enrolled as described in its brochure to the best of its ability.
2. Upon completion of the course for which the student is enrolled and fulfillment of the student's financial obligation to the school, to grant the appropriate diploma or certificate. To assist and guide the student graduate in obtaining satisfactory employment or obligate itself beyond reasonable assistance and guidance. This job placement assistance is available without additional charge.

**CANCELLATION POLICY**

**A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.**

**Student Initials \_\_\_\_\_**

**REFUND POLICY**

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination for refund purposes will be the earliest of the following:
  - (a)The last day of attendance, if the student is terminated by the school;
  - (b)The date of receipt of written notice from the student; or
  - (c)Ten school days following the last date of attendance.
3. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
4. If a student enters a residence or synchronous distance education program and withdraws or is otherwise terminated, the school or college

may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.<sup>1</sup>

5. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
6. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
7. A full refund of all tuition and fees is due and refundable in each of the following cases:
  - (a) An enrollee is not accepted by the school;
  - (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
  - (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

*A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.*

#### **8. REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.**

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
- (b) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
- (c) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
  - (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
  - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program.

The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 45 days after the effective date of termination.

Tuition Charges are not initiated prior to start date. Southwest University officially charges tuition after the third (3) date of attendance. All fees acquired from the fourth (4) day of attendance until the date of completion or withdraw/drop are charged to the respective funding source.

#### **GROUND AND PROCEDURES FOR CANCELLATION OR TERMINATION OF A PROGRAM BY THE INSTITUTION:**

1. Students who fail to achieve overall satisfactory progress for the program at the end of one six week probationary period (students who miss in excess of 15% of scheduled classes during any 6 week term will be placed on attendance probation for the following term will be subject to academic dismissal.
2. A student missing over 15% of scheduled classes during the probationary 6 week term will be terminated from school. Additionally, a student is in jeopardy of being terminated when his/ her absences exceed 15% of the total cumulative hours in the program. Authorized leave of absence (LOA) will not be included in the attendance percentage of a term.
3. A student who is absent in excess of ten (10) consecutive school days without approved leave of absence will be terminated.
4. A student who fails to meet financial obligations to the School as agreed upon
5. A student who exhibits conduct which is found to be detrimental to fellow students, staff or faculty, the School, and the public as addressed in the Student Conduct section of the School Catalog
6. A student who submits false or misleading information on admission, registration, or any other forms used as part of the enrollment process
7. Alters University records and / or is found cheating on a quiz, test, or exam.
8. A student who uses or is under the influence of alcoholic beverages or illegal drugs on or adjacent to University property or on affiliated job placement sites.
9. A student who vandalizes damages or destroys University, student, staff or faculty property.

<sup>1</sup> More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

**WITHDRAWAL PROCESS**

An official withdrawal occurs when a student formally informs the institution of his/her desire to withdraw. Students must complete a withdrawal form. Southwest University at El Paso will automatically withdraw a students if the student incurs 10 consecutive absences.

All fees, including materials fees, are non-refundable after the start of a course.

The University will follow the refund policy to determine if a payment or refund is due.

Any s Federal financial aid recipient who withdraws or is withdrawn from the University is subject to a Federal Return of Title IV Aid Calculation. The calculation will determine the amount of Federal aid that the school and the student are eligible to retain along with the amount that must be returned to the federal government.

**JOB PLACEMENT ASSISTANCE:** Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the School.

**FTC Statement:** Any holder of this consumer credit contract is subject to all claims and defenses which the debtor could assert against the seller of goods or services obtained pursuant hereto or with the proceeds hereof. Recovery hereunder by the debtor shall not exceed the amounts paid by the debtor hereunder.

**NOTICE TO THE BUYER:** You are entitled to a completely filled in copy of this agreement. THE TERMS AND CONDITIONS OF THE REVERSE SIDE OF THE FORM ARE A PART OF THIS AGREEMENT.

This enrollment agreement is binding when it has been signed by the student and accepted by an authorized official of Southwest University at El Paso. This contract is the total and complete agreement between the parties and no other agreements, oral or written, are binding unless agreed to in writing by an official of Southwest University at El Paso. Any provision contained in this agreement which is held by any competent court to be invalid is severable and does not affect the operation or legality of the remaining provisions. Should any provision of this agreement be in conflict with any local, state or federal law or regulation of the regulatory body having jurisdiction over Southwest University at El Paso, then such law or regulation shall take precedence.

**STUDENT UNDERSTANDING:** I understand that the catalog and its contents are a part of this enrollment and financing agreement and that information presented therein is binding on the School and me.

## SATISFACTORY ACADEMIC PROGRESS (SAP)

Southwest University at El Paso provides students' progress reports/report cards and academic transcripts at the end of each academic session. This information is provided through the SU Learning Software available to all students.

### Same As or Stricter Than:

The school's SAP policy for Title IV, HEA students is the same as the school's standards for students enrolled in the same educational programs who are not receiving Title IV, HEA funding.

The Director in the financial aid office reviews the Title IV, HEA SAP policy to ensure it meets all federal requirements. The Director of Academic Affairs notifies financial aid office if the school changes its academic policies.

Southwest University at El Paso (SU) has established minimum standards of "satisfactory progress" for enrolled students. All students must meet SU SAP requirements. The standards for determining progress at SU are comprised of two separate measurements: qualitative and quantitative.

This standard is applicable to all students regardless of Title IV eligibility.

### QUALITATIVE REQUIREMENT

#### **Basis for Calculation:**

The cumulative grade point average (GPA) will be calculated at the end of each six-week period (or at the student's request). The calculation will be based on all quarter credit hour courses completed during the grading period.

#### **Grade Explanation Numeric Grades**

<b>A</b>	<b>EXCELLENT</b>	<b>90-100</b>	<b>4</b>
<b>B</b>	<b>ABOVE AVERAGE</b>	<b>80-89</b>	<b>3</b>

### Calculations of Grade Average for Repeated Courses

If a student takes the same course more than once, the last grade received for the course will be recorded on the transcript; however, all grades received will remain on the student's transcript. In the case of the same or equivalent grades being earned in the multiple course enrollments, the last grade earned will be used to compute the cumulative grade point average. The cumulative grade average will be determined by adding the numeric values of all grade points earned and divided by the total number of credit hours.

### Grade Point Average and GPA Standards

Grade point average (GPA) is the quantitative measurement used for academic work. A student must maintain at least a 2.0 GPA (C average) to maintain eligibility for Title IV. Incomplete or Withdrawn grades will not be factored in when calculating GPA. Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. SU does not enroll students in remedial courses or non-punitive courses. Students whose cumulative grade point average is below 2.00 after the 50% of the program's maximum allowable timeframe are not considered making satisfactory progress.

### QUANTITATIVE REQUIREMENT

#### Measurable Progress

"Making measurable progress" is defined as the student being on pace to complete the program of study in no more than 150% of the normal program length based on the program's academic calendar. Transfer Credits, Incomplete, Repeated, or Withdrawn grades will be factored in when considering measurable progress.

Southwest University at El Paso does not offer non-credit courses, remedial courses, non-punitive grades or proficiency credits. Course incompletes and repetitions have no effect upon the school's satisfactory progress standards.

### SAP CALCULATIONS BY PROGRAM

Students in the following programs must have completed at least 34% of the total program and maintain a 2.0 GPA by the 1<sup>st</sup> calculation, 67% of the total program and maintain a 2.0 GPA by the 2<sup>nd</sup> calculation, and 100% of the total program and maintain a 2.0 GPA by the 3<sup>rd</sup> calculation.

<b>PROGRAM</b>	<b>1<sup>st</sup> CALCULATION</b>	<b>2<sup>nd</sup> CALCULATION</b>	<b>3<sup>rd</sup> CALCULATION</b>
MA	30 <sup>th</sup> Week	54 <sup>th</sup> Week	
CT CERT	30 <sup>th</sup> Week	54 <sup>th</sup> Week	
AAS MA	30 <sup>th</sup> Week	60 <sup>th</sup> Week	72 <sup>th</sup> Week

## QUALITATIVE REQUIREMENT SAP

Students who do not maintain a minimum of 2.0 GPA, will be considered to not meet satisfactory academic progress and will be placed on a 12 week academic probation. Students achieving a cumulative grade point average of 2.00 at the end of the probation period will be returned to good standing. Students who fail to achieve overall satisfactory progress for the program at the end of the one twelve week probationary period will be subject to academic dismissal. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated as an academic dismissal may not restart the program. The terms of the approved refund policy shall be applied.

## QUANTITATIVE REQUIREMENT SAP PROBATION

Students who do not meet the minimum percentage of program completion at any given calculation will be considered to not meet satisfactory academic progress and will be placed on academic probation. Progress will be again measured at the next calculation period. Students who meet the minimum percentage of program completion will return to good standing. Students who do not meet the minimum percentage of program completion will be subject to academic dismissal. Students will not be allowed to re-enroll after being dropped for lack of measurable progress. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated due to failure to maintain quantitative requirements may not restart the program. The terms of the approved refund policy shall be applied.

## REINSTATED POLICY

Students who have been dismissed due to qualitative requirements may apply for reinstatement to the university and program by completing the following procedures:

Submit a typed letter to the SAP Appeal Committee. This letter must contain information about the student's reason regarding the action and/or decision and reasons why the student is wishing to be reinstated. Students must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The reinstatement letter must be submitted from the student to the SAP Appeal Committee after 6 months of the student receiving the termination letter. The student will be notified of the SAP Appeal Committee decision within five (5) business days following the receipt of the student's reinstatement letter, additional time may be taken to thoroughly review student's request. The student will receive a written decision as to the status of his/her request and any SAP plan that may be attached to it. The SAP Appeal Committee's decision shall be final. Students may only file one reinstatement over the course of their academic career.

## Student Who Receive Title IV Funding Must Meet The Following SAP To Remain Eligible for Title IV Funding

### 1.1 Process Overview & Responsibilities

To be eligible for Title IV aid, a student must maintain satisfactory academic progress. If the student has made acceptable quantitative and qualitative progress for that particular increment, then the school reviews the 150% of the maximum allowable time frame criterion to measure student's SAP.

All students must maintain Satisfactory Progress according to the following standards in order to continue enrollment. Satisfactory Progress is measured at the end of each payment period, and will be checked prior to disbursement of aid. Financial Aid SAP standards are established by the Office of Financial Aid. The relevant SAP policies are summarized below.

### Measurable Progress/Maximum Time Frame

"Making measurable progress" is defined as the student being on pace to complete the program of study in no more than 150% of the normal program length based on the program's academic calendar. Transfer Credits, Incomplete, Repeated, or Withdrawn grades will be factored in when considering measurable progress. Students must be able to complete the program without attempting more than 150% of the required credits or clock hours. Once it has been deemed impossible for a student to complete the program within 150% of the published length of the educational program, as measured in credit hours or clock hours, the student must be dismissed from the College and lose federal financial aid eligibility. At this point, even if the student has the capacity to "self-pay" they should not be allowed to continue in the program. The pace requirement has been established to ensure that all students do not exceed the maximum timeframe threshold and this must be applied equitably to all students, regardless of whether they are Title IV funded or not.

### 1.2 Financial Aid Warning

The OFA evaluates Satisfactory Academic Progress at the end of each payment period. If a student falls below a 2.0 GPA the student will be placed on financial aid warning for one payment period. If the student is still not meeting SAP at the end of the warning period, the student may be placed on Financial Aid Probation. (See —Financial Aid Probation below.) A student who is put on a Financial Aid Warning can continue to receive Title IV aid for the next payment period after receiving the warning status. The status will be conferred automatically without the student appealing his/her SAP status.

At the next SAP checkpoint, if that student has not made academic progress, they will no longer be in a Warning status but moved to a Termination Status. Students that do not demonstrate significant progress toward meeting SAP at the end of the next Sap check period will be dismissed or terminated from College and are ineligible to receive federal financial aid unless they successfully appeal that determination.

### 1.3 Student Appeal Procedures

The student must advise the school as to why his/her grades have fallen below SAP and devise a plan to improve grades during the next payment period. A plan must be developed to assist a student to achieve success in the coming payment period. A student may file an appeal due to a death in the family, illness, an approved medical withdrawal, extreme change in financial or legal circumstances, or compulsory military duty, or other serious reasons. The appeal must be in writing to the SAP Appeal Committee explaining what caused the problem. The student would have to submit how circumstances have changed that will allow him/her to attain satisfactory academic progress once the probationary period is over.

A student, who wished to appeal a decision made in reference to the Satisfactory Academic Progress policy, must submit a typed letter to the SAP Appeal Committee. This letter must contain information about the student's reason regarding the action and/or decision and reasons why the student is wishing to appeal. Students must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The appeal letter must be submitted from the student to the SAP Appeal Committee within 3 business days of the student receiving the Financial Aid Ineligibility Letter. The student will be notified of the SAP Appeal Committee decision within five (5) business days following the receipt of the student's appeal letter, additional time may be taken to thoroughly review student's appeal. The student will receive a written decision as to the status of his/her appeal and any SAP plan that may be attached to it. The SAP Appeal Committee's decision shall be final. Students may only file one appeal over the course of their academic career.

### 1.4 Academic Plan

Students who successfully appeal will be placed on Financial Aid Probation for one payment period. Students must agree to an academic progress plan by the term's academic progress plan deadline. The Academic Plan is a plan developed by SAP Appeal Committee.

### 1.5 Financial Aid Probation

Students on financial aid probation who fail to make satisfactory academic progress by the next term will lose their financial aid eligibility.

### **LOSS OF TITLE IV ELIGIBILITY**

Students are eligible to continue their program of study as long as they continue to meet the university's SAP policy.

## CANCELLATION POLICY

**A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.**

### REFUND POLICY

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination (determined date of withdrawal) for refund purposes will be the earliest of the following:
  - (a) The last day of attendance, if the student is terminated by the school;
  - (b) The date of receipt of written notice from the student; or
  - (c) Ten school days following the last date of attendance.A student's last day of attendance is defined as the last day a student had academically related activity, which may include projects, clinical experience, or examinations.
3. Students who wish to withdraw from the course of study must complete the withdrawal process. The withdrawal process consists of:
  - a) Completing a withdrawal form
  - b) Conducting an interview with the School Director or President.
  - c) Verifying refund status with the accounting department.Students who do not complete this process will be automatically withdrawn from the institution after the tenth consecutive absence.
4. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
5. If a student enters a residence program and withdraws or is otherwise terminated, the school or college may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.<sup>2</sup>
6. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
7. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
8. A full refund of all tuition and fees is due and refundable in each of the following cases:
  - (a) If an enrollee is not accepted by the school;

---

<sup>2</sup> More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

- (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
- (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

*A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.*

9. **REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.**

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
- (b) A grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
- (c) The assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
  - (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
  - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program

10. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 45 days after the effective date of termination

## TUITION BREAKDOWN

### Medical Assistant/Laboratory Assistant

<b>Total Program Price:</b>	<b>\$ 18,081.00</b>
<b>Tuition:</b>	<b>\$ 14,960.00</b>
<b>Book Fee:</b>	<b>\$ 1,666.00</b>
<b>Certification Fee:</b>	<b>\$ 155.00</b>
<b>Laboratory Fee:</b>	<b>\$ 500.00</b>

**JOB PLACEMENT ASSISTANCE**

Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the School.

**ATTESTATION POLICY**

**Southwest University reserves the right to administer graduate attestations to confirm placement status. Qualified documents of attestations include: student written documents, or documented conversations between the student and a Southwest University representative. All Attestation Agreements must be signed and dated by student and the institutional representative.**

**STUDENT SERVICES**

In order to provide a complete education experience, SU provides a variety of student services. These services include daily tutoring, placement assistance, and academic guidance. SU has contracted with Student Resource Services to provide 24-hour supportive services for students. Student Resource Services provides students with financial counseling, access to master-level counselors, and contacts for community-based agencies that can facilitate transportation, childcare, and other daily living needs. All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

## **NON-DISCRIMINATION POLICY – AFFIRMATIVE ACTION STATEMENT**

Southwest University at El Paso is an equal opportunity employer and follows the same policies in accepting applications for all potential students; including, but not limited to selection, placement, transfers, training and development, terminations and all conditions or privileges of admissions or hire. Southwest University at El Paso requires that all admission and hiring practices be structured and applied equally without regard to factors that are non-job related. These factors include, but are not limited to race, sex, creed, color, religion, national origin, age, source of income, marital status, sexual orientation, disabilities when the individual is otherwise qualified; or status as disabled this includes all veterans.

Southwest University at El Paso complies with Section 504 policies (nondiscrimination against handicapped persons) and does not discriminate against hiring or enrolling handicapped persons on the basis of the handicap.

## **INSTITUTION’S RULES AND REGULATIONS**

The institution’s rules and regulations are published in the student handbook. Student handbooks are made available to students during the orientation process and by request.

## **EXPERIENTIAL CREDIT**

Southwest University at El Paso does not accept experiential credit for any program

## **TESTING FOR CREDITS**

Southwest University at El Paso does allow students to test for credit in the Medical Assistant program. Please contact the student advisor to receive more information.

## **ADVANCED PLACEMENT**

Southwest University at El Paso does not grant advanced placement

## **SOUTHWEST UNIVERSITY COURSE CREDIT IDENTIFICATION**

Courses listed with three (3) digits within the course code are identified as a courses provided in the Certification and/or Associates Degree programs (lower division courses). Courses listed with four (4) digits within the course code are identified as courses provided in the Bachelor’s degree programs (higher division courses).

## **TRANSFER OF CREDIT BETWEEN PROGRAMS WITHIN THE INSTITUTION**

Students at Southwest University at El Paso may transfer to different programs within the institution. Students must complete a Request for Program Change Form. The School Director and CEO must sign this form prior to approval. Credits will be evaluated by the School Director and applied towards the new program, if applicable. To be eligible for transfer credit, students must have successfully completed the class with a minimum grade of "B". Students will only be allowed to transfer into another program once during the course of enrollment. If a student has completed or withdrawn from Southwest University at El Paso and wishes to enroll into a new program, the student will be treated as a new enrollment.

## **TRANSFER OF CREDIT FROM ANOTHER INSTITUTION**

Students may transfer from other post-secondary public or private institutions recognized by the United States Department of Education (USDE) or Council for Higher Education Accreditation (CHEA). Admission and transfer of credit will be based on an evaluation of the academic transcript by the School Director. The University does not guarantee the transferability of credits from other educational institutions. Credit for courses with a final grade of “B” or better from another accredited post-secondary institution will be accepted under the following conditions:

Associate Degree, Bachelor Degree (Degree Completed):

- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Official transcripts must be received before the enrollment date.
- A maximum of 10 courses will be transferred to a bachelor program

Certificate Programs:

- Credit must have been awarded within (7) years.
- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Transcripts must be received before the enrollment date.
- A maximum of 4 courses will be transferred to an associate degree or a certificate program

A transcript must be furnished from the educational institution previously attended prior to request for evaluation. A course competency examination may be required. Contact the Academic Advisor for more information.

## **ARTICULATION CREDITS**

Southwest University at El Paso has Articulation Agreements with the following Universities:

- University of Phoenix
- Grand Canyon University

Students who have completed selected classes in high school that have been approved and are agreed upon by both SU and the ISD for that school year could be eligible for articulated credit. Please visit the admissions office for more details.

## **SCHOLARSHIPS**

SU participates in several scholarship opportunities to assist students in achieving their educational goals. Scholarships include SU’s High School Scholarship program, which awards two \$1000.00 scholarships to every high school in El Paso County. Career College and Schools of Texas (CCST) scholarships offer four \$1000.00 scholarships to every high school in the State of Texas. Applications are coordinated with each high school’s guidance counseling departments. SKILLSUSA scholarships are offered to eligible students competing in Automotive and in Diesel Technology programs. Scholarship amounts are as follows: 1<sup>st</sup> place: 25% of current year tuition; 2<sup>nd</sup> place: 20%; 3<sup>rd</sup> place: 15%; 4<sup>th</sup> place: 10%; and 5<sup>th</sup> place: 5%. Students must be in good standing to graduate from high school in the year awarded. Scholarship recipients can use ONLY one scholarship per year and cannot combine any of the above

## **LIMITED TRANSFERIBILITY OF CREDIT TO OTHER INSTITUTIONS**

SU does not guarantee transferability of credit to other post-secondary institutions and acknowledges that credit transferability is limited. Post-secondary institutions vary greatly in their practice of accepting transfer credit for courses completed at other postsecondary institutions. The acceptance of transfer credits is left at the discretion of the institution to which an individual transfers. Students who transfer may be required to repeat courses in which a grade of “D” or “F” was received. Students planning to transfer are urged to contact the school to which they intend to transfer and apply for transfer credit. Many of the courses offered by Southwest University at El Paso have been developed to prepare students with skills appropriate to the employment market rather than for college transfer. Some institutions may accept such courses as elective credit, while other institutions may not accept the transfer credit.

## **DRUG-FREE SCHOOLS AND COMMUNITIES ACT – PUBLIC LAW 101-226**

The DrugFreeSchools and Communities Act Amendment of 1989 requires, as a condition of receiving funds or any form of financial assistance under any Federal Program, an institution of higher education to certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drug and alcohol by students and employees. This program will be an ongoing prevention project that, at a minimum, will include the following: Distribution in writing to each employee and to each student who is taking one or more classes for any type of academic credit, regardless of the length of the student's program of study, to include standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on its property. Southwest University at El Paso will impose disciplinary action on students and employees up to and including expulsion or termination of education or employment and referral for prosecution for the violation of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

**SUMMARY:** All employees and students must certify that, as a condition of enrollment, employment or receiving any financial aid, they will not engage in the unlawful manufacture, distribution, dispensing or the use of a controlled substance during the period covered by employment or the period where federal financial assistance is used for education

### **FERPA**

The institution will annually distribute to all enrolled students information about:

- The right to review their education records, to request amendment of records, to consent to disclosures of personally identifiable information and to file complaints with the Department of Education.
- Procedures for reviewing education records and requesting amendment of the records.
- Information about the institution's policy regarding disclosures to school officials with a legitimate educational interest in the education records.

## **RECORDS AND THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974**

In compliance with the Family Educational Rights and Privacy Act of 1974 and the Buckley Amendment, Southwest University at El Paso gives notice that the following types of directory information will be released to the general public and agencies without the written consent of the student:

*a) student's dates of attendance; b) date of graduation and degree or certificate earned. Other kinds of directory information, such as a student's address, telephone listing, program of study, awards received, and the most recent previous education agency or previous institution attended, will be released only in response to a written request. The school reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know. Information regarding the student's record: grades, courses, GPA, social security number and other personal information will not be released without the student's written consent.*

Students currently enrolled may request that all or part of their directory information be withheld from the public by filing a written request with the Registrar's Office. Such a request will remain in effect during the enrollment period unless the student requests its removal in writing.

Students must authorize release of any additional information pertaining to student records, in writing, except as authorized under the law. Such exceptions include, but are not limited to, agencies duly conducting authorized audits of school records, compliance with a legally authorized court order, and cooperation with law enforcement officials in an official investigation. Students, parents of students considered "minors", and guardians of "tax dependent" students have a right to inspect, review, request copies of and challenge the contents of their educational records, but are responsible for the cost of such requested copies.

The Registrar Office is responsible for maintenance of students' records. The staff will supply students with information related to their records and refer those students requiring additional assistance to appropriate school officials.

At the postsecondary level, parents have no inherent rights to inspect a student's education record. The right to inspect is limited solely to the student. Records may be released to parents only under the following circumstances: (1) through the written consent of the student, (2) in compliance with a subpoena.

Employees of Southwest University at El Paso may have access to student education records. Their confidentiality, use, and release are governed by **FERPA**. Utilization of this information is governed by the regulations and the duties and responsibilities of employment and position. Unless job involves release of information and you have been trained in that function, any requests for disclosure of information, especially from outside the school should be referred to the Academic Advisor. Release of information contained on a student's record without the written consent of the person identified on the document is in violation of Sec. 438 Public Law 90-247. Each school employee should have their own accounts and passwords on the administrative computer system and on e-mail. Each employee is responsible for their personal account and will be held accountable for any improper use. Protection of their sign-on password and procedure is critical for security. Your password is the only protection your account has, and the only way the computer system can verify that you are actually who you say you are. Please pick a good password and protect it.

## **RECORD RETENTION AND MAINTENANCE**

Admissions material submitted to the School should be original documents. Upon receipt by the admissions office, the documents submitted become property of the school. Originals, except for diplomas or foreign transcripts, will not be returned to the student. An admission file will be considered complete if the material required for enrollment has been received. In accordance with school policy, admissions applications and supporting documentation will be retained for a period of one year and then destroyed if the student has not started classes. In accordance with provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, third party access to the records or copies of the documents therein, will not be permitted without the written consent of the student. Validation of the written consent will be required prior to release of information in the record. A reasonable period (not to exceed 45 calendar days) will be requested to review the record or receive copies thereof, and, upon presentation of acceptable identification to the School Director, be permitted supervised access to copies of the record. The student or third party will be responsible for upfront payment of copying costs at the rate of \$.75 per page.

All documents related to the student's academic profile, academic transcripts, program diploma and progress are kept in a hard copy version for 5 years. Thereafter, all documentation is kept indefinitely in an electronic version. Students who request in writing or through the school web portal copies or official transcripts will be processed and delivered in a reasonable time frame.

## **STUDENT RESPONSIBILITY FOR REGISTRATION**

Information regarding the conditions and criteria for student enrollment and registration is contained in this catalog and supplemented by information in the Student Handbook. It is the responsibility of each student to be knowledgeable in these policies, procedures, and requirements and to satisfy all conditions related to enrollment and registration.

## **NEW STUDENT ORIENTATION**

New student orientation is an advisory service offered prior to the beginning of each class start date. The orientation session acquaints new students with school policies, procedures, and services. Class schedules are distributed and the registration process is thoroughly explained during these sessions. New students must attend an orientation session to ease the transition into the school environment

## **RIGHT OF APPEAL Student**

### **Complaint Policy and Procedure for Initiating Grievance Complaints**

Students must address their concerns about Southwest University or any of its educational programs by following the grievance process outlined below and included in the school's catalog. Southwest University is responsible for ensuring that all students receive a copy of the school's grievance procedures. If, as a student, you were not provided with this information, please inform school management.

The procedure established is to provide a method for resolving student grievances at the administrative level fairly and expeditiously. Grievances are limited to the complaint of alleged violations of Southwest University policies by its employees, and disputes with faculty and/or alleged unfair treatment. The process is utilized to appeal a grade or address other academic concerns. Under no condition should these policies be used when the student has allegedly violated the code of conduct. Any

student who believes that he/she has been disposed to unfair treatment within the academic/clinical process may proceed by following the steps detailed below.

A. Appeals to the faculty member: The student is to submit a written appeal to the faculty member within 30 days after the start of the six weeks following the six-week period in which the alleged grievance occurred. The faculty member and the student are to discuss the issue. The faculty member will then create a report outlining the discrepancies and their decision on how to handle the matter. The faculty member will submit this report to their respective program director within ten working days of receipt of the student's written appeal.

B. Appeals to the Program Director: If a decision satisfactory to the student cannot be reached with the faculty member, the student may submit a written appeal to the Program Director. This is to be done within ten working days after the receipt of the report written by the faculty member. The Program Director will then meet with the student to review the merits of the appeal. The Program Director will notify the student with a response outlining his or her decision within ten days of the last meeting.

C. Appeals to the Associate Dean/Academic Dean: If a decision satisfactory to the student cannot be reached with the program director, the student may submit a written appeal to the Associate Dean/Academic Dean. This is to be done within ten working days after the receipt of the written decision by the Program Director. The Associate Dean/Academic Dean will then meet with the student to review the merits of the appeal. The Associate Dean/Academic Dean will notify the student and the Program Director with a response outlining his or her verdict within ten days of the last meeting.

#### NOTICE STUDENT COMPLAINT POLICY

Dear Students:

This school has a Certificate of Approval from the Texas Workforce Commission (TWC).  
The TWC-assigned school number is: S1611.

The school's programs are approved by TWC, as well as TWC and ABHES.

Students must address their concerns about this school or any of its educational programs by following the grievance process outlined in the school's catalog. Schools are responsible for ensuring and documenting that all students have received a copy of the school's grievance procedures and for describing these procedures in the school's published catalog. If, as a student, you were not provided with this information, please inform school management.

Students dissatisfied with this school's response to their complaint or who are not able to file a complaint with the school, can file a formal complaint with TWC, as well as with other relevant agencies or accreditors, if applicable. Information on filing a complaint with TWC can be found on the website at [www.texasworkforce.org/careerschoolstudents](http://www.texasworkforce.org/careerschoolstudents).

---

Students who are dissatisfied with the response to their complaint or who are not able to file a complaint with the school can file a formal complaint with THECB

Formal complaints with THECB can be submitted by using one of the following three options:

- By completing the online student complaint form and uploading the required documentation.
- By sending an email to [studentcomplaints@the.cb.state.tx.us](mailto:studentcomplaints@the.cb.state.tx.us) with the required student complaint and release forms along with supporting documentation as PDF attachments. Please follow the link below for more information.
- By mailing printed student complaint forms to: Contact Information for THECB:

Texas Higher Education Coordinating Board  
Office of General Counsel  
P.O. Box 12788

Austin, Texas 78711-2788

Information on filing a complaint with THECB can be found on their website at:

<https://www.twc.texas.gov/jobseekers/career-schools-colleges-students>

## ACADEMIC MISCONDUCT

- A. **Academic Misconduct** - Any Student found guilty of academic misconduct shall be subject to disciplinary action. Academic misconduct includes, but is not limited to the following actions:
1. Cheating or knowingly assisting another student in committing an act of cheating or other forms of academic dishonesty.
  2. Plagiarism, which includes, submitting examinations, themes, reports, drawings, laboratory notes, undocumented quotations, or other material as one's own work when such work has been prepared by another person or copied from another person.
  3. Unauthorized possession of examinations or other course related material.
  4. Unauthorized changing of grades on an examination, in an instructor's grade book, or a grade report.
- B. **Academic Discipline Process** – The faculty member or School Director must inform the student of the alleged offense upon discovery, and after an investigation, will take one of the following actions:
1. The allegation may be dismissed as unfounded
  2. The allegation may be dismissed for lack of clear evidence
  3. The student may admit guilt and a sanction will be imposed
  4. The School Director will determine guilt based on clear and convincing evidence and a sanction will be imposed
- C. **Sanctions That May Be Imposed**- If the student admits guilt to academic misconduct or is found guilty by the School Director the following sanctions may be applied.
1. The student may receive a failing grade for the assignment, report, or test and be put on six weeks of probation
  2. The student may receive a failing grade for the course and be put on six weeks of probation
  3. The student may be dropped from all the courses he or she is currently taking
  4. The student may be permanently expelled from Southwest University at El Paso

## SCHOOL POLICIES

**Tuition Fees:** Tuition fees vary according to program. A complete listing of classes and prices is included in this catalog. The fees are due upon enrollment in each program segment.

**Book Fee:** Student is responsible for books.

**Supplies:** Student is responsible for purchasing supplies, notebook(s) and pencils or pens

**Total charges:** Student is responsible for: books and supplies.

**Financial Aid:** Financial aid information and payment plans are available through the financial aid office. Students sponsored through the URGWDB will be charged the agreed upon cost of attendance.

**Repeat Policy:** Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. Students will be charge the full amount of the course.

**Repeating Non-Passing Courses:** Southwest University at El Paso allows students who earned a grade of D or lower to repeat the identical course and have the higher grade recorded and calculated in the GPA. The original course will be replaced as a "FR" as Failed Repeat or "R" as Repeat. Courses may not be repeated once the degree has been awarded.

**Method of Delivery:** SU provides instruction via residential and distance education.

**Language of Instruction:** SU does not offer English as a Second Language instruction. All instruction occurs in English.

**Campus Accessibility:** SU's facilities are ADA compliant.

**Referrals:** Students experiencing personal difficulties may seek assistance by the Director or the President in receiving referrals to professional agencies or organizations.

**Tutoring:** Students experiencing academic difficulties may seek assistance from the Director or the President in seeking tutoring services.

**Calendars:** Classes are from Monday through Friday excluding holidays.

**Student Handbook:** SU institutional rules and regulations are provided in the student handbook.

### **Regular Hours of Operation:**

**School:** 8:00 AM-9:00 PM Monday through Friday, Saturday by appointment

**Office:** 8:00 AM-9:00 PM Monday through Friday, Saturday by appointment

### **Definitive Class Schedule**

**Mornings:** 8:00-8:50, 9:00-9:50, 10:00-10:50, 11:00-11:50

**Afternoons:** 12:00-12:50, 1:00-1:50, 2:00-2:50, 3:00-3:50

**Evenings:** 5:00-5:50, 6:00-6:50, 7:00-7:50, 8:00-8:50

### **Standard of Attendance**

**Student Responsibilities:** Regular class attendance is vital to a student's academic success. Students are expected to attend all classes regularly. They are responsible notifying professors of planned absences and for fulfilling requirements missed during absence. The professor will use their ethical judgment in determining how to fairly assist the student.

**General Policy:** Students may be dismissed from Southwest University at El Paso or from individual courses for attendance violations.

**Consequences of Excessive Absences:** Students who do not attend or participate in school after 10 days will receive an administration withdrawal from the school.

### **Distance Education Attendance Policy**

Students are expected to participate in class sessions. If a student exceeds 2 weeks of non-participation (without proper documentation to excuse), he or she will be dropped from the course. Participation indicates that the student be engaged in the weekly assignments and threaded discussions, this means that, in addition to posting a response to the thread topic presented, students are expected to respond to each other and comment and questions from the instructor and/or other students.

Students who exceed 2 weeks of non-participation (without proper documentation to excuse) in all registered courses, will receive an administration withdrawal from the school.

**Leaves of Absence:** Leaves of absence, including military leaves, shall be reasonable in duration, not to exceed 180 calendar days in any twelve (12) month period, and shall be for specific and acceptable purposes. All requests for a leave of absence must be accompanied by acceptable documentation. The school attendance records will clearly show that a leave of absence has been granted. A written request for a leave of absence using the school's form, properly signed and dated by both the student and an authorized school official, must be placed in the individual student file.

A student having a documented and approved leave of absence will be allowed additional training to complete the requirements for the graduation. Additional training will be at no cost to the student. The student is not required to use this additional training if he/she has completed all requirements for graduation by the originally scheduled date.

\*This policy also applies to distance education students.

**Requirements for Graduation:** Southwest University at El Paso has also established the following requirements and procedures for graduation:

- Successfully complete all required course work.
- Obtain an overall Grade Point Average of at least 2.0
- Complete externship (if applicable)
- Achieve competencies required per program
- Complete interview with administration  
(Optional) Complete interview with job placement coordinator

**Factors That Adversely Impact a Student's Ability to Benefit:** SU advises students that criminal records, identified disabilities, health limitations, and other circumstances may adversely impact a student's ability to benefit from the educational program. Please consult with an institutional representative for more information.

**Campus Security:** Security on campus is handled by the administration in coordination with state and local agencies. The personnel of this department are empowered to enforce Southwest University at El Paso's regulations, to investigate incidents and to apprehend those who violate these regulations or commit crimes on campus. Criminal violators who are apprehended will be turned over to the Central Regional Command, 915-577-5000 for arrest processing. When necessary, Southwest University at El Paso will press charges against the criminal violators.

**Campus Community – Emergency Response:** The administration has set up an e-mail group that will reach all current students, faculty and administration to inform them of any emergency on campus. In addition a message will be sent to students, faculty and administration. This system will be checked each year on specified days. The evacuation plan is the same as the fire evacuation plan that is posted throughout the building. All personnel will be advised of this plan each year.

## **ILLEGAL DISTRIBUTION OF COPYRIGHTED MATERIALS**

Southwest University faculty and employees are prohibited from using the SU information network to illegally download or share music, video and all other copyrighted intellectual property; Southwest University supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the SU information network who have violated the law.

Be aware that illegal forms of downloading and Peer to Peer file sharing as well as the unauthorized distribution of copyrighted materials are violations of the law and \_ may subject you to academic sanctions from the college as well as criminal and civil penalties including a lawsuit against you by the Recording Industry Association of America (RIAA) learn more at [www.campusdownloading.com](http://www.campusdownloading.com).

The University has developed policies and consequences to ensure that faculty and staff respects music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies below under the Misuse of Computer information & Resources Policy.

There are plenty of easy, affordable ways to get music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options; including download and subscription services legitimate peer to peer services, video-on-demand, podcasts and CD kiosks. For a list of sources that offer legal downloading- sites, access [www.riaa.com](http://www.riaa.com).

### **MISUSE OF COMPUTER INFORMATION & RESOURCES POLICY**

This administrative procedure implements **Procedures Regarding Misuse of Computer Information.**

Abuse of computing, networking or information resources contained in or part of the network may result in the loss of computer privileges. Additionally, abuse can be prosecuted under applicable statutes. Users may be held accountable for their conduct under any applicable college policies, or procedures. Complaints alleging abuse of the network will be directed to those responsible for taking appropriate disciplinary action. Illegal reproduction of material protected by U.S. and International Copyright Law is subject to civil damages and criminal penalties including fines and imprisonment.

Examples of behaviors constituting abuse include, but are not limited to the following activities:

#### **System Abuse**

- Using a computer account that one is not authorized to use.
- Obtaining a password for a computer account that one is not authorized to have.
- Using the network to gain unauthorized access to any computer systems.
- Knowingly performing an act which will interfere with the normal operation of computers, terminals, peripherals or networks.
- Knowingly running or installing on any computer system or network, or giving to another user, a program intended to damage or to place excessive load on a computer system or network. This includes but is not limited to programs known as computer viruses, Trojan horses and worms.
- Knowingly or carelessly allowing someone else to use your account who engages in any misuse.
- Forging email messages.
- Attempting to circumvent data protection schemes or uncover or exploit security loopholes. Masking the identity of an account or machine.
- Deliberately wasting computing resources.
- Downloading, displaying, uploading or transmitting obscenity or pornography, as legally defined.
- Attempting to monitor or tamper with another user's electronic communications, or changing, or deleting another user's files or software without the explicit agreement of the owner.
- Personal use which is excessive or interferes with the user's or others' performance of job duties, or otherwise burdens the intended use of the network.

#### **Harassment**

- Using the telephone, email or voice mail to harass or threaten others.
- Knowingly downloading, displaying or transmitting by use of the network, communications, pictures, drawings or depictions that contain ethnic slurs, racial epithets, or anything that may be construed as harassment or disparagement of others based on their race, national origin, sex, sexual orientation, age, disability, religious or political belief.
- Knowingly downloading, displaying or transmitting by use of the network sexually explicit images, messages, pictures, or cartoons when done to harass or for the purposes of harassment.
- Knowingly downloading, displaying or transmitting by use of the network sexually harassing images or text in a public computer facility, or location that can potentially be in view of other individuals.
- Posting on electronic bulletin boards material that violates existing laws or the University's Codes of Conduct.
- Using the network to publish false or defamatory information about another person.

#### **Copyright**

- Violating terms of applicable software licensing agreements or copyright laws.
- Publishing copyrighted material without the consent of the owner on Web sites in violation of copyright laws.

#### **Exceptions**

Activities by technical staff, as authorized by appropriate university officials to take action or security, enforcement, technical support, troubleshooting or performance testing purposes will not be considered abuse of the network. Although personal use is not an intended use, SU recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and that such usage is ordinarily on an employee's own time, is occasional, and does not interfere with or burden SU's operations.

**Resolution of Student Grievance/Complaints:** Students will have access to the Director to express grievance or complaints. Grievances will then be directed to the advisory council. Students dissatisfied with this school's response to their complaint or who are not able to file a complaint with the school, can file a formal complaint with TWC.

Information on filing a complaint with TWC can be found on TWC's Career Schools and Colleges Website at:

<http://www.theccb.state.tx.us/index.cfm?objectid=AC6FA0BC-F5DB-16DE-6B667C083DFB5B98>

Unresolved grievances must be directed to:

Texas Workforce Commission,  
Proprietary School Section  
101 East 15<sup>th</sup> Street  
Austin, Texas 78778-000

## **Licensing and Credentialing**

Students are advised, prior to admission and throughout the program, of any credentialing requirements necessary to achieve employment in the field. Focus is placed on credentialing requirements and opportunities to obtain employment. All licensing and credentialing provided by Southwest University at El Paso, will be administered in the State of Texas. All licensing and credentials of the field will vary in other states based off of the respective state mandates and approvals.

## Medical Assistant/Laboratory Assistant

---

The Medical Assistant/Laboratory Assistant program is designed to assist students in gaining the necessary skills to be competent in data processing operations, records management, medical billing, medical coding, and certain non-invasive clinical procedures necessary to work in today's medical environment as a medical assistant. Program graduates will develop the knowledge and skills in the areas of medical administrative duties (recording vital signs, medical histories, arranging for hospital admission and laboratory services, purchasing supplies, billing, and bookkeeping), certain clinical duties such as preparation of laboratory specimens, disposing of contaminated specimens, sterilizing medical instruments, preparing patients for examination; delivering patient instruction, authorizing drug refills as directed, telephoning prescriptions to the pharmacy. Additionally, successful graduates will be proficient in customer services skills, business correspondence, and computer skills. Program graduates will be eligible to become a medical assistant, medical coding specialist in a doctor's office or dental office; or a public or private health care facility; or in a clinical laboratory.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

<b>Total Lecture Hours:</b>	<b>375 Hours</b>
<b>Total Lab Hours:</b>	<b>345 Hours</b>
<b>Total Externship Hours:</b>	<b>190 Hours</b>
<b>Total Program Hours:</b>	<b>910 Hours</b>
<b>Total Length of Time:</b>	<b>36 Weeks</b>
<b>Total Credit Hours:</b>	<b>60 Credit Hours</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

### **AP 101 ANATOMY & PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the Body Cells, Tissues/ Organ Systems, Integumentary, Musculoskeletal and Nervous Systems.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$600.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture 2.0

Lab 0.5

## Associate of Applied Sciences in Medical Assisting

---

The Associate of Applied Sciences in Medical Assisting (AASMA) was designed to meet the demands of a continuously evolving healthcare market. By intensifying and expanding the training the AASMA Graduate will be competent not only as a Medical Assistant, but also in the areas of Phlebotomy, Electrocardiography, and advanced Patient Care. The medical assistant Program also provides the necessary skills to be competent in administrative and clinical operations, medical coding and billing, as well as in clinical and medical laboratory skills. By incorporating components of liberal arts and sciences, the student will re-enforce written and verbal communication skills, as well as develop critical thinking skills that are essential in a high-intensity work environment, and develop a humanistic healthcare professional.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission.

<b>Total Lecture Hours:</b>	<b>665 Hours</b>
<b>Total Lab Hours:</b>	<b>375 Hours</b>
<b>Total Externship Hours:</b>	<b>190 Hours</b>
<b>Total Program Hours:</b>	<b>1230 Hours</b>
<b>Total Length of Time:</b>	<b>48 Weeks</b>
<b>Total Credit Hours:</b>	<b>90.5 Credit Hours</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Military Transfer Credit:** Military transfer credits will be honored from an allied health or medical related MOS (Military Occupational Specialty) completion.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

### **AP 101 ANATOMY & PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the body cells, tissues/organ systems, integumentary. Musculoskeletal and nervous systems.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

### **AP 102 ANATOMY & PHYSIOLOGY II**

This course provides a systemic and functional review of human gross anatomy and systematic anatomy in order for students to expand the knowledge acquired in the Anatomy & Physiology I course. Students will learn the major gross—anatomical and systematic anatomy structures and physiology, functions / interactions of the different (organ) systems, as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases and treatments. This course will primarily focus on the clinical anatomy as it pertains to the Special Senses, Endocrine, Cardiovascular, Lymphatic, Respiratory, Digestive Reproductive and Urinary Systems.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

### **MT 102 MEDICAL TERMINOLOGY II**

This course is a continuation of MT 101 and provides in-depth medical terminology information including Greek and Latin derivations, prefixes, suffixes, root words, and combining forms. It provides practice in building and defining medical terms, and emphasizes correct spelling and pronunciation of medical words. Interpreting terminology related to body structure, disease, diagnosis, and treatment is emphasized along with medical abbreviations.

**Clock hours of lab: 15**

**Clock hours of classroom lecture: 15**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

## Associate of Applied Science in Medical Laboratory Technology

---

An Associate Degree in Medical Laboratory Technology prepares individuals for a career in the health care industry as Medical Laboratory Technicians. These laboratory professionals assist in the coordination of clinical laboratory activities, including timely and cost effective testing of patient samples and lab equipment maintenance. Students will also learn the integration of lab regulations and compliance, as well as the incorporation of quality management systems in the clinical laboratory. Graduates of this program can expect to be hired at hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, private clinical laboratories and many other employment settings related to the medical laboratory field.

**Admissions requirements:**

1. A high school diploma or its equivalency is required for admission into the program
2. Prospective students must complete a successful interview with an intake (admissions) counselor.
3. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll).

<b>Total Lab Hours:</b>	<b>550 Hrs</b>
<b>Total Externship Hours:</b>	<b>400 Hrs</b>
<b>Total Lecture Hours:</b>	<b>810 Hrs</b>
<b>Total Program Hours:</b>	<b>1760 Hrs</b>
<b>Total Length of Time:</b>	<b>78 Wks</b>
<b>Total Credit Hours:</b>	<b>121.5 credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery:** **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

### **AP 145 ANATOMY AND PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

### **CHM 221 CLINICAL CHEMISTRY II**

Clinical Chemistry II is a continuation of CHM 210, Clinical Chemistry I. Clinical Chemistry II will provide Medical Laboratory Technology students knowledge that will allow them to be competent in skills needed to perform in the clinical chemistry laboratory. Clinical Chemistry II will introduce students to physiology and pathophysiology involved when conducting clinical chemistry lab tests on samples. The course will also enable students to learn how to perform specific analyte tests, as well as understanding the procedures and components of chemical analysis and metabolic panels and profiles. The course will also combine other health fields (i.e. Microbiology and Hematology) into the chemistry curriculum to further enhance the students' knowledge after completing the course.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**HMT 120 HEMATOLOGY II**

This course is a continuation of Hematology (HMT 110). This course will enable Medical Laboratory Technology students to understand hematologic and hemostatic mechanisms by providing thorough knowledge and understanding of normal human physiological processes. The course covers the process and mechanisms of primary and secondary hemostasis and their associated disorders. Automated processes for hematological lab testing and procedures will be discussed in addition to coagulation testing.

**Clock hours of lab: 30**

**Clock hours of lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

## Associate of Applied Science in Medical Coding and Billing Systems

---

An Associate in Applied Science degree in Medical Coding and Billing Systems prepares individuals for a career in the health care industry as billing and coding specialists. These administrative professionals prepare and submit paperwork necessary for insurance and billing purposes. Students will gain knowledge in health record maintenance, medical insurance processes, and healthcare classification systems. Students will also learn computer application skills, interpersonal coding, and billing procedures. Graduates of this program can expect to be hired at insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, and many other employment settings related to the health care administration field.

### Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

<b>Total Lab Hours:</b>	<b>120 Hrs</b>
<b>Total Externship Hours:</b>	<b>210 Hrs</b>
<b>Total Lecture Hours:</b>	<b>930 Hrs</b>
<b>Total Program Hours:</b>	<b>1260 Hrs</b>
<b>Total Length of Time:</b>	<b>60 Wks</b>
<b>Total Credit Hours:</b>	<b>106 credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### ACCT 110 INTRODUCTION TO ACCOUNTING

This course provides an introduction of the function of accounting in regards to business operations. The overall focus will be on defining the accounting elements, showing the flow of the accounting process, and applying accounting principles to allow for transaction analysis and the preparation of financial statements.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 50**

### AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross— anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

**Clock hours of lab: 0**

### **HC 330 OUTPATIENT DIAGNOSTIC & PROCEDURAL CODING 3**

This course is one of four that has been designed to provide a hands-on approach to the medical coding system. Students will learn to use the International Classification of Diseases (ICD-10-CM), Current Procedural Terminology (CPT-4), and HCPCS Level II manuals to accurately identify medical diagnoses and procedures. The course has been designed for students to demonstrate the proper guidelines and techniques utilizing the coding manuals to assign codes from the presented clinical cases. In this course students will familiarize themselves with the coding guidelines and anatomic structures of the endocrine and urinary systems along with a breakdown of the reproductive systems of a female and male.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: HC 275**

**Total Clock Hours: 50**

**Tuition: \$1166.00**

## Associate of Applied Science in Health Administration

---

This program is designed to prepare students seeking employment in health administration. Students will understand the principles and practices of health care regarding administration, management, law, economics, and policy. Students will gain knowledge in health record maintenance, medical insurance processes, and healthcare classification systems. Students will also learn management principles toward team building, collaborative decision making, and financial skills. Graduates of this program can expect to be hired at insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, and many other employment settings related to the health care administration field.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

<b>Total Lab Hours:</b>	<b>130 Hrs</b>
<b>Total Externship Hours:</b>	<b>210 Hrs</b>
<b>Total Lecture Hours:</b>	<b>900 Hrs</b>
<b>Total Program Hours:</b>	<b>1240 Hrs</b>
<b>Total Length of Time:</b>	<b>60 Wks</b>
<b>Total Credit Hours:</b>	<b>103.5 credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

**ACCT 110 INTRODUCTION TO ACCOUNTING**

This course provides an introduction of the function of accounting in regards to business operations. The overall focus will be on defining the accounting elements, showing the flow of the accounting process, and applying accounting principles to allow for transaction analysis and the preparation of financial statements.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

## Bachelor of Science in Health Administration

---

This program is designed to prepare students seeking employment in medical management and administrative levels of the healthcare industry. Students will receive instruction to gain mastery over the principles, methods, and procedures of management in a diverse medical industry, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, accounting, employee and patient law standards. Students who complete this program will understand the policies and procedures of organizational development, monitoring financial capital, employees' performance, and exercise modern leadership dynamics that can provide the current healthcare employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: medical office managers, supervisors, unit managers, department leads, etc.

### Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture and laboratory experience.

### **AP 145 ANATOMY AND PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

## Computed Tomography Certificate

---

This program is designed to prepare registered radiology technologist (RT) within a radiology field to advance in their career and be proficient to participate in a different modality within their profession. This certificate will serve as specialty advancement in radiology from as an Associates Degree in Radiology to a Certification in Computed Tomography. The program emphasis includes course material specialized in the Computed Tomography modality such as: CT Sectional Anatomy, CT Procedures, CT Physics, and CT instrumentations.

### Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT(R), (RTT)) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT recognized program (must be approved by department director).
4. Background check and drug test
5. Updated immunization records ( a listing of immunizations can be located in the admissions office)
6. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete an assessment exam questioning if they are capable of managing the delivery throughout the duration of the program. This will serve as a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through online lecture. 45 Quarter credits will be awarded under the Southwest University CT Certification curriculum.

### Program Delivery: Full Distance

**Distance Authorization:** This program will apart with the institutions agreement with NCSARA, the degree will be eligible in all states within the NCSARA pact, this excludes California. Students whom seek to register from the state of California must seek additional information from an admissions advisor.

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

### Transfer Hours:

**Radiology Advanced Standing Credit (ARRT Completion): 40 semester hrs (60 Quarter Credit Hours)**

<b>Total Lab Hours:</b>	<b>80 Hrs</b>
<b>Total Lecture Hours:</b>	<b>320 Hrs</b>
<b>Total Externship Hours:</b>	<b>270 Hrs</b>
<b>Total Program Hours:</b>	<b>670 Hrs</b>
<b>Total Length of Time:</b>	<b>36 Wks</b>
<b>Total Credit Hours:</b>	<b>45 Qtr credits</b>

**ISC 100 HUMAN VALUES, ETHICS, AND LAW IN HEALTHCARE**

This course is designed to provide students with the opportunity to explore their personal values system within the context of practice as a health professional. This course will provide an introduction to the elementary concepts of medical law for first line-supervisors and health care practitioners. The course will discuss the effects that HIPAA regulation may have on the imaging industry including information management. This course will provide explanation relative for providing safeguards for maintaining the integrity of all confidential patient medical records.

**Clock hours of lab: 10**

## **Associate of Applied Science in Diagnostic Medical Sonography**

---

### **PROGRAM GOALS:**

The goal of the Diagnostic Medical Sonography program (General Concentration) is the thorough preparation of the student, through quality didactic, laboratory, and clinical instruction, in the theoretical knowledge, tasks, and responsibilities required of an entry-level general sonographer.

### **PROGRAM PHILOSOPHY:**

The Diagnostic Medical Sonography program of Southwest University at El Paso is committed to excellence in education demonstrated by providing a comprehensive entry-level education program to students through quality didactic and clinical instruction. The program supports the vision, values, and mission of Southwest University at El Paso by striving to be the premier Diagnostic Medical Sonography training program in our community. In combination, the seven program components ensure the adequacy of a well-rounded program through classes in didactic theory, application and practice of skill sets in the laboratory environment, and integration of didactic theory and acquisition of performance objectives in the clinical setting.

### **PROGRAM OBJECTIVES:**

Upon completion of this program, the student will be able to:

1. Obtain, review, and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.
2. Perform appropriate ultrasound scanning procedures and record anatomic, pathologic, and/or physiologic data for interpretation by a physician.
3. Record, analyze, and process diagnostic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
4. Exercise discretion and judgment in the performance of sonographic and/or other non-invasive diagnostic services.
5. Provide appropriate and compassionate patient care for patients undergoing ultrasound examination.
6. Demonstrate appropriate communication skills with patients and colleagues.
7. Act in a professional and ethical manner.
8. Provide patient education related to medical ultrasound and/or other non-invasive diagnostic ultrasound techniques, and promote principles of good health.

### **OCCUPATIONAL OBJECTIVES:**

The successful graduate of the Diagnostic Medical Sonography at Southwest University at El Paso will have the knowledge and skills to obtain entry-level employment as a Diagnostic Medical Sonographer in:

- A Hospital or Medical Center
- A Medical Clinic
- A Radiology Imaging Center
- A Physician's Office
- Mobile Ultrasound Service
- Free Lance Sonographer
- Traveling Sonographer
- Commercial Ultrasound: Applications Specialist and Sales
- Research Sonography

**Admissions requirements:**

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an intake (admissions) counselor
- Prospective students must submit an AAS DMS Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

**General Criteria:** Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

<b>Total Lab Hours:</b>	<b>370 Hrs</b>
<b>Total Externship Hours:</b>	<b>825 Hrs</b>
<b>Total Lecture Hours:</b>	<b>1100 Hrs</b>
<b>Total Program Hours:</b>	<b>2295 Hrs</b>
<b>Total Length of Time:</b>	<b>104 Wks</b>
<b>Total Credit Hours:</b>	<b>156.50 Credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

**AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS**

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 60**

**Tuition: \$1,575.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	4.0
Lab	1.0
Ext	0.0

**TOTAL = 5.0 Qtr Hr**

**ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$945.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	3.0
Lab	0.0
Ext	0.0

**AIP 101 ANATOMY FOR IMAGING PROFESSIONALS I**

This course provides systemic and functional review of human gross anatomy and sectional anatomy in order for students to obtain the knowledge required in the diagnostic ultrasound medical field. Students will learn the physiology of different (organ) systems. The course will cover the following subject areas: Integumentary, Endocrine, Musculoskeletal and Nervous System.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$788.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	2.0
Lab	0.5
Ext	0.0

**TOTAL = 2.5 Qtr Hr**

**AIP 102 ANATOMY FOR IMAGING PROFESSIONALS II**

This course provides a systemic and functional review of human gross anatomy and sectional anatomy in order for students to expand the knowledge acquired in the Anatomy for Imaging Professionals I course. Students will learn the major gross— anatomical and systematic anatomy structures and physiology functions / interactions of the different (organ) systems. The course will also introduce students to basic diagnostic images of gross-anatomical and sectional anatomy structures, as well as basic physiology. This course will primarily focus on the sectional anatomy as it pertains to the Cardiovascular, Lymphatic, Respiratory, Digestive Reproductive and Urinary Systems.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: AIP 101**

**Total Clock Hours: 30**

**Tuition: \$788.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	2.0
Lab	0.5
Ext	0.0

**TOTAL = 2.5 Qtr Hr**

**BC 110 BUSINESS COMMUNICATION**

This course examines basic interpersonal communication processes with practical applications for the business environment. Issues regarding cross-cultural communications and ethical considerations in business communication are discussed. The course will emphasize planning, organizing and delivering oral presentations in business settings.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$945.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	3.0
Lab	0.0
Ext	0.0

### **BIO 101 BIOLOGY I**

This course is designed to provide the students with the foundation and knowledge of biology in brief investigations of all major facets of living organisms including cell structure and function, major kingdoms of organisms, selected topics in human anatomy, physiology, genetics, reproduction, evolution, and biochemistry. In addition, ecological principles and conservation will be stressed throughout the course.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$945.00**

### **BIO 103D MICROORGANISMS AND DISEASE**

Microorganisms & Disease covers principles of microbiology and the impact these organisms have on humans and on the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. The course will additionally cover the proper application of the skills needed for microscopy, aseptic technique, staining, culture methods, and identification of microorganisms.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: BIO 102**

**Total Clock Hours: 30**

## Associate of Applied Science in Radiological Sciences

Radiological technologists are healthcare professionals who use specialized X-Ray equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. Technologists are supervised by board certified radiologists. This course is designed to prepare the student to perform clinical examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

### Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an intake (admissions) counselor
- Prospective students must submit an AAS Radiology Admissions Application
- Applicant must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

<u>Allied Health Program</u>	<u>Allied Health Program Tuition and Fees Cost</u>	<u>Adjusted Tuition and Fees (Includes transfer credits)</u>	<u>Tuition and Fees (including all adjustments)</u>	<u>Total Additional Program length</u>
<u>Medical Assistant</u>	<u>\$17,781</u>	<u>\$36,281</u>	<u>\$54,062</u>	<u>22 Terms</u>
<u>Associate in Applied Science in Medical Assistant</u>	<u>\$28,035</u>	<u>\$34,657</u>	<u>\$62,692</u>	<u>24 Terms</u>
<u>Associate in Applied Science in Medical Coding and Billing</u>	<u>\$31,457</u>	<u>\$35,821</u>	<u>\$67,278</u>	<u>26 Terms</u>
<u>Associate in Applied Science in Health Administration</u>	<u>\$30,451</u>	<u>\$35,108</u>	<u>\$65,559</u>	<u>26 Terms</u>

**General Criteria:** Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The Following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

**Total Lab Hours: 80 Hrs**

<b>Total Externship Hours:</b>	<b>1050 Hrs</b>
<b>Total Lecture Hours:</b>	<b>1330 Hrs</b>
<b>Total Program Hours:</b>	<b>2460 Hrs</b>
<b>Total Length of Time:</b>	<b>96 Weeks</b>
<b>Total Credit Hours:</b>	<b>172.0Credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if student is enrolled in at least 8.0 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equations, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$690.00**

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	3.0
Lab	0.0
Ext	0.0

**TOTAL = 3.0 Qtr Hr**

### **AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS**

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 60**

**Tuition: \$1150.00**

Length of time (2 hrs per day, 5 days per wk): 6 wks

Lecture	4.0
Lab	1.0
Ext	0.0

**TOTAL = 5.0 Qtr Hr**

### **AP 145R ANATOMY AND PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic

anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 50**

**Tuition: \$1035.00**

Length of time (2 hrs per day, 5 days per wk): 6 wks

Lecture	4.0
Lab	0.5
Ext	0.0

**TOTAL = 4.5 Qtr Hr**

### **AP 147R ANATOMY PHYSIOLOGY II**

This course provides a systemic and functional review of human gross anatomy and systematic anatomy in order for students to expand the knowledge acquired in the Anatomy & Physiology I course. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases and treatments. This course will primarily focus on the clinical anatomy as it pertains to the thorax, abdomen, pelvis & perineum.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: AP 145R**

**Total Clock Hours: 50**

**TOTAL = 4.5 Qtr Hr**

### **BC 110: BUSINESS COMMUNICATION**

This course examines basic interpersonal communication processes with practical applications for the business environment. Issues regarding cross-cultural communications and ethical considerations in business communication are discussed. The course will emphasize planning, organizing and delivering oral presentation in business setting.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

### **HC 115R HEALTHCARE VOCABULARY I**

This course provides in-depth medical terminology information including Greek and Latin derivations, prefixes, suffixes, root words, and combining forms. It provides practice in building and defining medical terms, and emphasizes correct spelling and pronunciation of medical words. Interpreting terminology related to body structure, disease,

diagnosis, and treatment is emphasized along with medical abbreviations.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

### **HC 135 HEALTHCARE ETHICS**

The student will learn the application of legal principles, policies, regulations, and standards for the control and use of information as it applies to various areas of employment. Students will learn the proper release of information, ethical codes, confidentiality, humanistic healthcare, legal terminology, legal judgments, documents, and litigation terms. In class, the student will apply this knowledge through discussion of ethical dilemmas, conferencing, and analysis of legal situations.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

### **ISC 1301: SECTIONAL ANATOMY I**

This course is the study of cross-sectional normal with normal anatomical variants. The course will demonstrate and educate the student on the correlation of the study of cross-sectional anatomy. In this course, students will explore in-depth study of human anatomy in sagittal, coronal, transverse, and orthogonal sections essential to current techniques in diagnostic imaging. This course content will include an introduction to cross sectional anatomy, cranium and facial bones, brain, neck and spine.

**Clock hours of lab: 0**

### **ISC 1500: FUNDAMENTALS OF IMAGING SCIENCES**

The course content is designed to provide an overview of the foundations in the imaging sciences and the practitioner's role in the health care delivery system. Principles, practices and policies of the health care

organization(s) are examined and discussed in addition to the professional responsibilities of the imaging professional. The course will include development of critical thinking skills as well as the transition from classroom to clinical environment. The course will discuss current legal and ethical situation as it pertains to medical imaging.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

**ISC 1600: PATIENT CARE IN IMAGING SCIENCES**

The content for this course is designed to provide the basic concepts of patient care, including consideration for the physical and psychological needs of the patient and family. Routine and emergency patient care procedures are described, as well as infection control procedures using standard precautions. The role of the imaging professional in patient education is identified. The course provides laboratory instruction in basic patient care procedures as well as beginning practical clinical experience in a radiology department. The following topics will be explored, infection control, isolation procedures, aseptic technique, sterile procedures, vital signs, chest tubes, various lines, patient transfer techniques, patient interactions, history taking and patient safety protocols.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

**ISC 1700: PHARMACOLOGY AND DRUG ADMINISTRATION**

Content is designed to provide basic concepts of pharmacology. The theory and practice of basic techniques of vein punctures and administration of diagnostic contrast agents and/or intravenous medications is included. The appropriate delivery of patient care during these procedures is emphasized. The course will include contrast media utilized in the imaging sciences including Ionic, non-ionic, barium sulfate, gadolinium, water soluble, positive, negative

and newer agents. The course will discuss possible adverse reactions to contrast agents utilized in the imaging sciences. Discussion regarding adverse reactions to contrast as well patient emergency preparedness will be included.

**Clock hours of lab: 0**

## Associate of Applied Science in Magnetic Resonance Imaging

MRI technologist is a healthcare professional who uses specialized MRI equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. MRI Technologists will be supervised by board certified radiologists. This course is designed to prepare the student to perform clinical MRI examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

### Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an admissions counselor
- Prospective students must submit an AAS MRI Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

<u>Allied Health Program</u>	<u>Allied Health Program Tuition and Fees Cost</u>	<u>Adjusted Tuition and Fees (Includes transfer credits)</u>	<u>Tuition and Fees (including all adjustments)</u>	<u>Total Additional Program length</u>
<u>Medical Assistant</u>	<u>\$17,781</u>	<u>\$32,701</u>	<u>\$50,482</u>	<u>20 Terms</u>
<u>Associate in Applied Science In Medical Assistant</u>	<u>\$28,035</u>	<u>\$31,077</u>	<u>\$59,112</u>	<u>22 Terms</u>
<u>Associate in Applied Science in Medical Coding and Billing</u>	<u>\$31,457</u>	<u>\$32,244</u>	<u>\$63,701</u>	<u>24 Terms</u>
<u>Associate in Applied Science in Health Administration</u>	<u>\$30,451</u>	<u>\$31,528</u>	<u>\$61,979</u>	<u>24 Terms</u>

**General Criteria:** Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

**Total Lab Hours:**

**80 Hrs**

<b>Total Externship Hours:</b>	<b>1050 Hrs</b>
<b>Total Lecture Hours:</b>	<b>1210 Hrs</b>
<b>Total Program Hours:</b>	<b>2340 Hrs</b>
<b>Total Length of Time:</b>	<b>96 Weeks</b>
<b>Total Credit Hours:</b>	<b>160 Credit Hrs</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if student is enrolled in at least 8.0 credit hours in a six week period.

**Program Delivery: Blended (Residential and Online, please see marked classes)** *The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)*

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

### **AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS**

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

### **AP 145R ANATOMY AND PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross- anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily

focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

### **ISC 1301 SECTIONAL ANATOMY I**

This course is the study of cross-sectional normal with normal anatomical variants. The course will demonstrate and educate the student on the correlation of the study of cross-sectional anatomy. In this course, students will explore in-depth study of human anatomy in sagittal, coronal, transverse, and orthogonal sections essential to current techniques in diagnostic imaging. This course content will include an introduction to cross sectional anatomy, cranium and facial bones, brain, neck and spine.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Tuition: \$690.00**

### **ISC 1302 SECTIONAL ANATOMY II**

This course is a continuation of ISC 1301. This course is the study of cross-sectional normal with normal anatomical variants. The course will demonstrate and educate the student on the correlation of the study of cross-sectional anatomy. In this course, students will explore in-depth study of human anatomy in sagittal, coronal, transverse, and orthogonal sections essential to current techniques in diagnostic imaging. This course content will include the thorax, abdomen, pelvis, upper and lower extremities.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

**Pre-Requisite: ISC 1301**

### **ISC 1400 DIGITAL IMAGE AND DISPLAY**

This course provides a comprehensive overview of digital imaging acquisition, PACS, RIS and the electronic medical. The subjects are formatted in individual outlines and can be sequenced according to level of knowledge desired. The course includes basic principles of digital imaging, digital image acquisition, PACS, RIS and the EMR. The course will include digital imaging quality control and the importance of formulating a QA management program.

**Clock hours of lab: 0**

### **ISC 1500 FUNDAMENTALS OF IMAGING SCIENCES**

The course content is designed to provide an overview of the foundations in the imaging sciences and the practitioner's role in the health care delivery system. Principles, practices and policies of the health care organization(s) are examined

and discussed in addition to the professional responsibilities of the imaging professional. The course will include development of critical thinking skills as well as the transition from classroom to clinical environment. The course will discuss current legal and ethical situation as it pertains to medical imaging.

**Clock hours of lab: 0**

**ISC 1600 PATIENT CARE IN IMAGING SCIENCES**

The content for this course is designed to provide the basic concepts of patient care, including consideration for the physical and psychological needs of the patient and family. Routine and emergency patient care procedures are described, as well as infection control procedures using standard precautions. The role of the imaging professional in patient education is identified. The course provides laboratory instruction in basic patient care procedures as well as beginning practical clinical experience in a radiology department. The following topics will be explored, infection control, isolation procedures, aseptic technique, sterile procedures, vital signs, chest tubes, various lines, patient transfer techniques, patient interactions, history taking and patient safety protocols.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

**ISC 1601 IMAGING PATHOLOGY I**

This course investigates general pathology and organ system pathology. It includes a brief review of normal structure and function, followed by more in-depth descriptions of specific pathologic processes. This course will include basic characteristics, etiology, pathogenesis, clinical features, and diagnostic tools including medical imaging procedures, prognoses, and therapies for each of the specific pathologies. The contents of this course include an introduction to

pathology, specialized imaging techniques, respiratory system, skeletal system, GI system and the urinary system.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

**ISC 1700 PHARMACOLOGY AND DRUG ADMINISTRATION**

Content is designed to provide basic concepts of pharmacology. The theory and practice of basic techniques of vein punctures and administration of diagnostic contrast agents and/or intravenous medications is included. The appropriate delivery of patient care during these procedures is emphasized. The course will include contrast media utilized in the imaging sciences including Ionic, non-ionic, barium sulfate, gadolinium, water soluble, positive, negative and newer agents. The course will discuss possible adverse reactions to contrast agents utilized in the imaging sciences. Discussion regarding adverse reactions to contrast as well patient emergency preparedness will be included.

**Clock hours of lab: 0**

### **MR 1101 MRI PHYSICAL PRINCIPLES I**

This course provides the student with a comprehensive overview of MR imaging principles. The subjects are formatted in individual outlines and can be sequenced according to the level of knowledge desired. Course topics include the history of MR, atomic structure, the atom, alignment, precession, resonance, MR signal, FID, relaxation, T1, T2 and pulse timing parameters. The course will discuss the importance of the Larmor equation in MR imaging.

**Clock hours of lab: 0**

### **MR 1103 MRI PHYSICAL PRINCIPLES III**

This course provides continuation and review for students to expand the knowledge acquired following MR 1102. This unit provides the student with a comprehensive overview of MR imaging principles. The subjects are formatted in individual outlines and can be sequenced according to the level of knowledge desired. The course topics include: The mechanisms of flow phenomenon, time of flight, entry slice, intra-voxel dephasing and flow compensation. The course will discuss even echo rephrasing, nulling and spatial pre-saturation. The course will include an in depth analysis of image artifacts and their compensation.

**Clock hours of lab: 0**

## Associate of Applied Science in Nursing

---

The Associate Degree of Nursing Program at Southwest University at El Paso is a 15-term program of study that leads to an Associate of Applied Science Degree upon completion. This program prepares the graduate for the NCLEX-RN examination, which is a requirement for licensure and is administered by the National Council for the State Boards of Nursing (NCSBN). The curriculum at Southwest University at El Paso School of Nursing is designed with a block of content framework. The courses are structured in a manner that delivers the material from simple to complex. Nursing skills are divided into two courses and are taught before clinical or simulation entry. The design of the program focuses on the for roles of a nurse as expressed by the Texas Board of Nursing: Provider of Patient-Centered Care, Member of Health Care Team, Member of the Profession, and Patient Safety Advocate. The major concepts of health promotion, disease prevention, and disease management are incorporated into each course. The nurse utilizes a systematic framework for assessment, planning, and evaluation of nursing care.

### **Admissions requirements:**

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor
3. Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.
4. Background check and drug test
5. Proof of citizenship (or Workers Visa)

**Prerequisites:** Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.

**Program Length: 1960 CH (Clock Hours)**

**Total Lab Hours: 200 Hrs**

**Total Lecture Hours: 890 Hrs**

**Clinical Hours: 870 Hrs**

**Total Program Hours: 1960 Hrs**

**Total Length of Time: 104 Wks**

**Total Credit Hours: 128 credits**

**128 Quarter Credit Hours**

**Program Delivery: Program Delivery: Blended (Residential and Online, please see marked classes)** *The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)*

**Clinical Lab:** Students will be required to complete 870 hours of clinical rotations, these rotations will issued by the University.

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equations, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

### **MBIO 103 MICROBIOLOGY**

This course covers principles of microbiology and the impact these organisms have on man and on the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

### **HC 105 INTRODUCTION TO NURSING**

This course provides an overview of nursing and the role of the professional nurse as a provider of patient centered care, member of the health care team, patient safety advocate, coordinator of care, and member of a profession. Additionally, this course will provide and introduction to learning key study habits, and developing test taking skills. Topics include: nursing history, knowledge, judgment, theory, and skills associated with test taking strategies. The course introduces professional writing utilizing American Psychological Association (APA) format.

**Clock hours of lab: 0**

**RNSG 1105 NURSING SKILLS I**

Students are introduced to the values, knowledge, skills and competencies that are the foundation for safe, evidence based professional holistic nursing care of adults with common medical and surgical needs. In the clinical and lab environment, students will use critical thinking, and effective communication skills to deliver safe, evidence-based care. This is the first of two courses designed to teach concepts and principles necessary to perform beginner and intermediate nursing skills for adult patients and the demonstration of competency in the performance of nursing procedures. In addition to content in knowledge, judgement, skills, and professional values within a legal/ethical framework of the professional nurse as a provider of patient-centered care, patient safety advocate, member of the health care team, and member of the profession.

**RNSG 1301 PHARMACOLOGY I**

The course includes a Pharmacology lab component of safe medications calculation and administration. The emphasis is on accuracy of calculations and the critical thinking involved in patient safety and minimize the risk of harm to patients and providers through both system effectiveness and individual performance. It includes reading, interpreting and solving calculation problems encountered in the preparation of medication. The learner will be exposed to metric, apothecary and avoirdupois systems. Dimensional Analysis for calculating dosages of oral, powdered and parental medications, pediatric and adult weight-based medications and intravenous medications taught. This course focuses on the standards of nursing practice in relation to the safe administration of medications to all the age groups. The nursing students exposure to pharmacology principles of drug action will increase as the pharmacokinetics and pharmacodynamics are enhanced to a higher level and supported by the framework of the nursing process. Will learn to function effectively within the nursing and inter-professional teams in order to foster open communication, mutual respect and shared decision-making. All common drug classifications will be discussed as well as the legal responsibilities of the nurse as they apply to medication administration..

## Bachelor of Science in Nursing (RN to BSN Bridge)

This program is designed to prepare Registered Nurses with an Associate's Degree in Nursing to advance in their nursing Career, and be proficient to participate at different levels of leadership within their nursing practice and as part of the Health Care Team. This is known as a RN to BSN degree. The program emphasis includes Evidence Based Nursing, Critical Thinking, Leadership and Management, Gerontology, and Public Health/Preventive Nursing. The program prepares the Nursing Professional to give a high-quality of care to patients, but also provide a high-quality customer service.

### Admissions requirements:

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program;
3. Successful interview with an intake (admissions) counselor; and
4. Successful completion of a nursing registry unencumbered license (Registered Nurse (RN) license will be verified by admissions director for successful completion of the NCLEX-RN)
  - a. 55 Semesters hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSN core of courses
  - b. Additionally 36 semester hours of registered nursing credits (54 quarter credit hours) must be completed
5. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete forms that review the tasks experienced throughout the duration of the program. This will serve as a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through distance lecture and laboratory. 99 Quarter credits will be awarded under the Southwest University RN to BSN curriculum.

### Prerequisites:

Registered nurse applicants seeking admission to the RN to BSN must have completed the following:

General Education	Semester Credit Hours	Quarter Credit Hours
Professional Communication	2	3
Social Sciences	10	15
Electives	6	9
English	4	6
College Algebra	2	3
Nursing Education	Semester Credit Hours	Quarter Credit Hours
ADN Nursing Credit	60	90

### Program Delivery: Full Distance

**Distance Authorization:** This program will apart with the institutions agreement with NCSARA, the degree will be eligible in all states within the NCSARA pact, this excludes California. Students whom seek to register from the state of California must seek additional information from an admissions advisor.

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

### Transfer Hours:

**General Education: 36 Quarter Credit Hours**

**Nursing: 90 Quarter Credit Hours**

**Total Lab Hours: 100 Hrs**

**Total Lecture Hours: 580Hrs**

**Total Program Hours: 680 Hrs**

**Total Length of Time: 48 Wks**

**Total Credit Hours after transfer credit awarded: 63 Qtr credits**

**Total Credit Hours: 189 Qtr credit**

### **ENGL 2010 WORKPLACE WRITING**

Workplace Writing is a course designed to help students enhance their professional writing skills. The course is based on the fundamentals writing of emails, letters, and reports. Students will practice research and writing skills appropriate for topics within the realm of their specific career fields. In addition students will read, analyze, and interpret several materials dealing with the workplace reports.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

## Bachelor of Science in Radiology Management

The Radiology Management program is designed to help the Imaging professional prepare for the many types of leadership positions available in the Radiologic Sciences. The degree program will provide essential information relative to the most current trends and effective management practices in Radiology. The program core content focuses on the Association for Medical Imaging Management's (AHRA) professional development resources along with current medical procedures. These procedures include courses that apply the electronic medical record conversion with PACS systems and Joint Commission practices.

### Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT(R), (CT), (MR), (US), (NM), (CIT)(RTT)(CVT)) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT, ARMRT, ARDMS recognized program (must be approved by department director).
  - a. 30 Semester hours (45 quarter credit hours) of lower division courses must be completed before enrollment in BSRM core of courses, the required 30 credit hours (45 quarter credit hours) are as follows:
    - i. 13 semester hours of general education credit hours (19.5 quarter credit hours) must be completed; and
    - ii. 17 semester hours of prerequisites general education credit hours (25.5 Quarter Credit Hours) must be completed
  - b. 40 Semester hours (60 quarter credit hours) of radiology courses must be completed before enrollment in the BSRM program. Modalities may vary
4. Background check and drug test
5. Updated immunization records (a listing of immunizations can be located in the admissions office)
6. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through online lecture. 78 Quarter credits will be awarded under the Southwest University BSRM curriculum.

### Prerequisites:

Registered applicants seeking admission to the BSRM must have completed the following:

<b>General Education</b>		
Prerequisites Gen Ed Courses	Semester Credit Hours	Quarter Credit Hours
Anatomy and Physiology	8	12
General Pathology	3	4.5
Biology	4	6
Introduction to Psychology	2	3

## Associate of Applied Science in Ophthalmology Technician

---

The Ophthalmology Technician Program has been designed to prepare a student to assist ophthalmologists in detecting, diagnosing, and treating ailments, and diseases of the eye. The students will study in detail the structure and development of the human eye, the functions of internal and external parts of the eye; like the pupil, iris, retina, cornea, crystalline lens, vitreous membrane and optic nerve. Students will study the etiology, as well as the signs and symptoms of ophthalmic pathology. Students will recognize the properties of light and geometric optics, including refraction, reflection and comprehending the principles of vision. Students are expected to gain proficiency in the duties for technicians which include: assisting ophthalmologists through a patient's medical history and performing basic diagnostic tests to assess the patient's vision, measurement of sight, observing eye movement with specialized instruments to determine the existence of any complications. Upon completion, students should also be able to: test and measure vision functionality, acuity, color perception, examine the cornea, apply drops, and any other common duties required in the field.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

<b>Total Lecture Hours:</b>	<b>600 Hours</b>
<b>Total Lab Hours:</b>	<b>350 Hours</b>
<b>Total Externship Hours:</b>	<b>960 Hours</b>
<b>Total Program Hours:</b>	<b>1910 Hours</b>
<b>Total Length of Time:</b>	<b>72 Weeks</b>
<b>Total Credit Hours:</b>	<b>109 Credit Hours</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

**AAO 101 ADVANCE ANATOMY FOR OPTHALMOLOGY TECHNICIAN**

This course is designed to strengthen the student’s knowledge on the ophthalmology system. The course content describes specific details of the various functions of the eye and its different components. In this course there will be discussion regarding the eye as it relates to cells, tissues, organs, and organ system. Anatomy is heavily emphasized, and specific parts of the eye will be detailed. Discussion regarding eye physiology will cover the mechanisms sustaining visual acuity and eye movement. Health issues, pathologies, diagnostics and disease prevention will also be discussed in class.

## Associate of Applied Science in Business Management and Accounting Systems

---

This program is designed to prepare students seeking employment in business management and managerial levels of accounting. Students will receive instruction to gain mastery over the principles, methods, and procedures of accounting, and will gain a broad understanding and appreciation for other elements of management such as finance, communications, economics, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercising leadership skills that make the modern employer-employee relationship a pleasant, rewarding and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture, laboratory, and externship experience.

<b>Total Lab Hours:</b>	<b>140 Hrs</b>
<b>Total Externship Hours:</b>	<b>180 Hrs</b>
<b>Total Lecture Hours:</b>	<b>950 Hrs</b>

## Bachelor of Science in Business Management

---

This program is designed to prepare students seeking employment in business management and managerial levels of the business market. Students will receive instruction to gain mastery over the principles, methods, and procedures of business management, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, graphic design, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercise leadership skills that can make the modern employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

### Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture and laboratory experience.

**Program Length:** 2280 CH (Clock Hours)  
156 Weeks

**Program Delivery:** **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

**Definition of Academic Year:** An academic year will consist of 36 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

<b>Total Lab Hours:</b>	<b>330 Hrs</b>
<b>Total Lecture Hours:</b>	<b>1950 Hrs</b>
<b>Total Program Hours:</b>	<b>2280 Hrs</b>
<b>Total Length of Time:</b>	<b>156 Wks</b>
<b>Total Credit Hours:</b>	<b>211.5 credits</b>

**ACCT 110 INTRODUCTION TO ACCOUNTING**

This course provides an introduction of the function of accounting in regards to business operations. The overall focus will be on defining the accounting elements, showing the flow of the accounting process, and applying accounting principles to allow for transaction analysis and the preparation of financial statements. .

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 40**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

## Associate of Applied Science in Diesel Technology

---

The Associate of Applied Science Degree in the Diesel Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a diesel mechanical environment. Students will learn the basic preventative maintenance procedures for medium and large diesel engines. Students will gain experience working with diesel engine tractors and tractor trailers. Students will learn to work with Detroit Diesel and Cummins Diesel engines. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various diesel mechanic shops.

### Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission;

<b>Total Lecture Hours:</b>	<b>1050 Hours</b>
<b>Total Lab Hours:</b>	<b>280 Hours</b>
<b>Total Externship Hours:</b>	<b>190 Hours</b>
<b>Total Program Hours:</b>	<b>1520 Hours</b>
<b>Total Length of Time</b>	<b>66 Weeks</b>
<b>Total Credit Hours</b>	<b>125 Credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **BC 110 BUSINESS COMMUNICATION**

This course examines basic interpersonal communication processes with practical applications for the business environment. Issues regarding cross-cultural communications and ethical considerations in business communication are discussed. The course will emphasize planning, organizing and delivering oral presentation in a business setting.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

**DBS 101 Diesel Brakes, Steering, and Suspension**

This course provides the students the opportunity to work with hydraulic, air and disc brake systems found on today’s heavy-duty vehicles. Students will learn to identify various brake systems and provide routine and preventative maintenance inspections and repairs, disassemble and reassemble axles, brake chambers, drums, rotors, wheel bearings, air lines, air valves, air compressors, suspension components such as kingpins, springs, air bags, wheel mounting and dismantling tires. The student will be able to locate service information and service procedures necessary to complete any needed repairs by using shop manuals and electronic service information.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: CDC 101 & DCD 101**

**Total Clock Hours: 120**

**Tuition: \$2,310.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**DCD 101 Detroit Diesel Combustion Theory**

This course will provide the students the framework for beginning knowledge of the Detroit Diesel Engine. Student will learn to identify and use basic tools and micrometers, safety rule/regulations in and around the shop and identification of different components that make up the Detroit Diesel Engine. Students will also gain experience by following an organized disassembly and reassembly process of Detroit Engines as well as the importance of the shop manual and electrical/electronic service information.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 50**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**TOTAL = 5.5 Qtr Hr**

**DE 101 Diesel Electric**

The student will learn the use of diagnostic equipment to diagnose the electronic system on heavy-duty trucks. Students will be prepared to follow an organized thought process in diagnosing electrical/electronic problems, learn about switches, starters, alternators, solenoids, relays, diodes, capacitors, resistors, transistors, lighting systems, batteries and electric motors. Students will be introduced to basic electrical theory, diagnostic skills and reading wiring diagrams.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: CDC 101 & DCD 101**

**Total Clock Hours: 120**

**Tuition: \$2,310.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**TOTAL = 10.5 Qtr Hr**

**DPE 101 Diesel Performance Engine Building**

This course introduces the fundamental principles and functions of diesel performance engine building. Topics include combustion basics, volumetric efficiency, laminar airflow, turbine/compressor maps, common rail injection, nitrous and propane injection, tuning tactics and much more. This course will emphasize an understanding of power balancing, porting for flow & swirl, camshafts & valvetrains and electronic engine controls. Upon completion, students will be able to understand the component combination and all other variables involved in diesel performance engines.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: CDC 101 & DCD 101**

## Associate of Applied Science in Automotive Technology

---

The Associate of Applied Science Degree in the Automotive Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a mechanical environment. Students will learn the basic preventive maintenance procedures for gasoline engines, brake systems, transmissions, electrical systems, trans-axels, diagnostic equipment, steering and suspension. Students will gain experience working with domestic and imported vehicles. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various mechanic shops.

**Admissions Requirements:**

1. A high school diploma or its equivalency is required for admission into the program;
1. Successful interview with an admissions representative is required prior to admission;

<b>Total Lecture Hours:</b>	<b>1220 Hours</b>
<b>Total Lab Hours:</b>	<b>350 Hours</b>
<b>Total Externship Hours:</b>	<b>190 Hours</b>
<b>Total Program Hours:</b>	<b>1760 Hours</b>
<b>Total Length of Time</b>	<b>72 Weeks</b>
<b>Total Credit Hours</b>	<b>145.5 Credits</b>

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **ABS 101 Auto Brake Systems**

In this course the student will study the modern day braking systems used on today's vehicles. They will cover the design, operation and repair of hydraulic brakes along with antilock braking systems. In the automotive shop the student will practice proper inspection and troubleshooting techniques on live trainers. The student will inspect and diagnose both ABS and non ABS brake systems. Students will practice measuring, as well as resurfacing, both brake rotors and brake drums. The hydraulic portion of the braking system will also be covered in this module.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: GCE 101**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**TOTAL = 10.5 Qtr Hr**

### **ADT 101 Automotive Drive Train**

During this module the student will be introduced into all the different components that make up the automotive drive train. Some of these components include the clutch, standard transmission, drive shaft, u-joints, and differential and drive axles. The student will study the design, operation and repair procedures associated with these units. The main focus will be on front wheel drive vehicles however rear wheel drive vehicle will also be covered in this module.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**Pre-Requisite: GCE 101**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**TOTAL = 10.5 Qtr Hr**

### **AEB-101 Automotive Performance Engine Building**

In the performance engine building and assembly class, students take an in-depth look at modern performance engine components and what it takes to disassemble, measure, inspect and build an engine for high-performance applications. The student will have to choose the right performance ingredients to make their particular engine perform better than it came from the factory. Students will complete this class with a firm understanding of all that goes into blueprinting a high-performance, high, horse-power gasoline combustion engine. This module will also allow students to run and

test the high horse-power engines that they disassembled, inspected, measured & assembled during lab time. Careful planning and forethought will be demonstrated by the students as they embark on an exciting venture into the performance engine building realm.

**Clock hours of lab: 30**

**Clock hours of classroom: 90**

*Clock hours of individual and small group tutoring:*

*Provided to student on an as-needed basis*

**Pre-Requisite: GCE 101 and AES 101**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time: (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**TOTAL = 10.5 Qtr Hr**

### **AED 101 Automotive Engine Diagnostics**

During this module the student will be introduced to computer systems used on today's complex fuel-efficient engines. Students will study basic computer sensors, circuits and operation. Students will study, test and replace everything from the input sensors to the actuators that keep these engines running. Fuel pumps, fuel injectors, fuel pressure regulators, ignition distributors, ignition coils, input sensors and actuators are just some of the components used on the modern gasoline engine that students will be working with. Scan tools will be used to monitor the same data that the engine computer uses to run the engine. Students will use this information to repair simple misfire problems to more difficult drivability issues.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring:*

*provided to student on an as-needed basis*

**Pre-Requisite: GCE 101 and AES 101**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5
Ext	0.0

**TOTAL = 10.5 Qtr Hr**

### **AEM-101 Automotive Engine Management & Performance Training**

In the automotive engine management and performance tuning class, students will test, repair, and demonstrate a sound understanding of the engine management system and how it controls the operation of modern performance gasoline engines. Computer tuning, air-fuel ratios, variable valve timing control, forced-induction, high-performance fuel systems and spark control are some of the topics highlighted in this module.

**Clock hours of lab: 30**

**Clock hours of classroom lectures: 90**

*Clock hours of individual and small group tutoring:*

*Provided to student on an as-needed basis*

**Pre-requisite: GCE 101 and AES 101**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time (1 hr per day, 5 days per wk): 6 wks

Lecture	9.0
Lab	1.5

**TOTAL = 10.5 Qtr Hr**

**AES 101 Automotive Electric System**

This course will introduce the student to basic electricity and electronics. The study of Ohm's law will allow the student to understand electrical circuits and other electrical components. The student will identify electrical components; work with batteries, starters, alternators and electrical circuits. The student will use a digital volt Ohm meter (DVOM) on various circuits and components. Available voltage, voltage drop and amperage are some of the tests that will be performed in the shop on various types of circuits. Circuit protection devices, relays, motors, starters and alternators will also be tested in the shop.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

**APM 101 Automotive Preventative Maintenance**

In this course the student will perform Preventive Maintenance Inspections (PMI) on passenger cars and light duty trucks. The student will cover how to properly perform PMI's and which items to inspect. Some of the systems checked during the inspection include the cooling system, engine, drive train, tires, wheels, brakes, steering, suspension and electrical systems. Students will use electronic service manuals and database systems to find and follow manufacturer service schedules. The student will have an opportunity to review any material (previously covered) they feel they may need help with.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring: provided to student on an as-needed basis*

### **GCE 101 Gasoline Engine Theory**

In this course the student will study the modern Internal Combustion Engine. The theory portion of this course will explain the purpose, function and repairs associated with the internal combustion gasoline engine. The hands on portion of this module will allow the student to gain knowledge and experience on the gasoline internal combustion engine. The student will discuss, inspect, disassemble, measure and reassemble the gasoline internal combustion engine. Upon completion of this course the student will understand the function of the gasoline internal combustion engine.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring:  
provided to student on an as-needed basis*

**Pre-Requisite: N/A**

**Total Clock Hours: 120**

**Tuition: \$2205.00**

Length of time (4 hrs per day, 5 days per wk): 6 wks

### **HVAC 102 Automotive HVAC**

Heating, ventilation and air conditioning will be the main topics studied in this module. The student will be prepared to understand, diagnose and service the HVAC units in today's complex vehicles. This course will cover the principles of heating and cooling, component identification and service procedures. The student will cover state and federal regulations regarding automotive type refrigerants. The student qualifies to take ASE's Recovery and Recycling Certification Examination.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

*Clock hours of individual and small group tutoring:  
provided to student on an as-needed basis*

**Pre-Requisite: GCE 101**

### **SSA 101 Auto Suspension & Steering**

Rack and pinion steering, electronic steering, Mc Pherson Struts and air suspension are just some of the items covered in this module. Component identification, suspension inspection, alignment procedures, alignment angles and theory will also be studied. The student will study all the major types of suspension and steering systems used on today's vehicles. This will allow the student to effectively inspect and repair these systems. A good understanding of these systems is necessary to maintain these systems in good working order and more importantly in a safe operating condition.

## Associate of Applied Science in Web and Mobile Marketing Development

---

This program is designed to prepare students seeking employment in Web and Mobile Marketing Development. Students will gain knowledge in building an app utilizing Swift (Apple), data operations, control flows, debugging; Xcode, building and running an app, prototyping, project planning programming, HTML and CSS computer programming, online advertising, social media, online privacy, and marketing technologies. As part of the curriculum, students will be eligible to sit for Swift (Apple), Software Development Fundamentals, Adobe Photoshop, Javascript, and Microsoft MTA certifications.

### Admissions Requirements:

- ✓ A high school diploma or its equivalency is required for admission into the program;
- ✓ Successful interview with an admissions representative is required prior to admissions

**Total Lecture Hours: 1050 Hrs**

**Total Lab Hours: 130 Hrs Total**

**Externship Hours: 0**

**Total Program Hours: 1180 Hrs**

**Total Length of Time: 78 Weeks**

**Total Credit Hours: 111.50**

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience (if applicable). (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$787.00**

Length of time (2 hrs per day, 5 days per wk): 6wks

Lecture	3.0
Lab	0.0
Ext	0.0

### **APL 110 INTRODUCTION TO SWIFT**

In this course students will learn the basics of building an app. Students will learn about good variable naming conventions, strings, logging, abstract thinking, and functions. Students will also become familiar with Swift Playground and will build their first app by modifying an existing one. At the end of this course, will be able to build a simple app that applies the concepts covered in this course.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Tuition: \$1125.00**

Length of time (2 hrs per day, 5 days per wk): 6wks

Lecture	3.0
Lab	0.0
Ext	0.0

TOTAL= 3.0 Qtr Hr

### **APL 121 DATA TYPES AND CONTROL STRUCTURES IN SWIFT**

In this course students will learn how to store data in an app and control of flow of execution using control structures. Students will about constants and variables, primitive data types, functions and parameters, conditional statements, objects, and arrays and loops. At the end of this course, students will be able to create an app that applies the concepts covered in this course.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

**Pre-Requisite: APL 110**

**Total Clock Hours: 30**

**Tuition: \$ 1125.00**

## **Associate of Applied Science in Computer Information Technology Systems**

---

This program is designed to prepare students seeking employment in Computer Information Technology Systems. Students will understand the principles and practices of technology by gaining knowledge in HTML and CSS computer programming, algorithms, data structure, hardware, networking, cyber security, troubleshooting, and operation systems. As part of the curriculum, students will be eligible to attempt CompTIA A+, CompTIA Security, CompTIA Network, CompTIA CySa, Software Development Fundamentals, Adobe Photoshop, Javascript, and Microsoft MTA certifications. Graduates of the program can expect to be hired under computer occupation, computer and information analysts, computer support specialist, and other computer occupations.

### **Admissions Requirements:**

- A high school diploma or its equivalency is required for admission into the program;
- Successful interview with an admissions representative is required prior to admissions

**Total Lecture Hours: 1050 Hrs**

**Total Lab Hours: 190 Hrs**

**Total Externship Hours: 0 Hrs**

**Total Program Hours: 1240 Hrs**

**Total Length of Time: 78 Weeks**

**Total Credit Hours: 114.50**

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience (if applicable). (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **Outside Preparation Policy**

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

### **ALG 110 ALGEBRA I**

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**Clock hours of lab: 0**

## **Associate of Applied Science in Surgical Technology**

---

The Surgical Technology Program has been designed to train students to work with surgical teams as a Surgical Technologist. Surgical Technologists serve as a vital role with the process and procedures of patients undergoing surgery from pre- to post operation. This program covers all foundational competencies required to successfully understand the needs of surgical technologist in the surgical room and required for certification exams. The curriculum covers materials that will train students: from surgical room sterilization and preparation, initial patient intake, perioperative procedures and post operation assistance. Upon successful completion graduates will be obtain competencies required for certification examinations.

### **Admissions Requirements:**

- A high school diploma or its equivalency is required for admission into the program;
- Successful interview with an admissions representative is required prior to admissions.
- As some sites require a background check, a background check will be administered before externship.

**Total Lecture Hours: 745 Hrs**

**Total Lab Hours: 385 Hrs Total**

**Externship Hours: 570**

**Total Program Hours: 1700 Hrs**

**Total Length of Time: 72 Weeks**

**Total Credit Hours: 111.00**

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

**Program Delivery: Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **Outside Preparation Policy**

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities /project hours as they see necessary.

**Drop Disclosure:** Due to the sensitivity of the field of study and competitive demand of the workforce, Students will be held responsible for adhering to a set standard issued by the College of Allied Health. These standards include the following:

1. Any grade below 75% (0-74) will be considered an "F"
2. Any student whom fails the same course twice will automatically be dropped from the program.

### **AP 101 ANATOMY AND PHYSIOLOGY I**

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the Body Cells, Tissues/ Organ Systems, Integumentary, Musculoskeletal and Nervous Systems.

**Clock hours of lab: 10**

### **EPST 100 EXAM PREPARATION FOR SURGICAL TECHNOLOGISTS**

This course will provide a preparation and subject review to help further prepare students for national certification exam. Based on the foundations established in EPST, this class will focus on Surgical Technology topics in National Certification Exams.

**Clock hours of lab:** 10

**Clock hours of classroom lecture:** 20

**Pre-Requisite:** SURG 203

**Total Clock Hours:** 30

**Tuition:** \$ 660.00

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.5 Qtr Hrs

### **EX-ST 101 EXTERNSHIP I**

This class is a hands-on externship in which the student spends 190 hours in a surgical team environment utilizing the skills learned in the classroom and lab settings. This course is a comprehensive review of the skills learned and reinforces the role and functions of the Surgical Technologist. The externship will be an unpaid, supervised experience at a health care or hospital setting.

**Clock hours of lab:** 0

**Clock hours of classroom lecture:** 0

**Clock hours of Externship:** 190

**Pre-Requisite:** SURG 203

**Total Clock Hours:** 190

**Tuition:** \$ 2200.00

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 0.0

**Lab** 0.0

**Ext** 6.0

TOTAL= 6.0 Qtr Hrs

### **EX-ST 102 EXTERNSHIP II**

This class serves as a continuation of the first component of externship. In this hands-on externship a student will spend an additional 190 hours in a surgical environment utilizing the skills learned in the classroom and lab settings. This course is applied so that students will be able to obtain the hours and competencies required for the CST exam. All externship opportunities are meant to reinforce the role and functions of the Surgical Technologist. The externship will be an unpaid, supervised experience at a health care or hospital setting.

**Clock hours of lab:** 0

**Clock hours of classroom lecture:** 0

**Clock hours of Externship:** 190

**Pre-Requisite:** SURG 203

**Total Clock Hours:** 190

**Tuition:** \$ 2200.00

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 0.0

**Lab** 0.0

**Ext** 6.0

TOTAL= 6.0 Qtr Hrs

### **EX-ST 103 EXTERNSHIP III**

This class is the final component of a student's externship experience. This class allows students to complete any and all remaining competencies required for their CST exam. This course will provide a hands-on experience in which the student will spend 190 hours in a surgical environment utilizing the skills learned in the classroom and lab settings. The externship will be an unpaid, supervised experience at a health care or hospital setting.

**Clock hours of lab:** 0

**Clock hours of classroom lecture:** 0

**Clock hours of Externship:** 190

**Pre-Requisite:** SURG 203

**Total Clock Hours:** 190

**Tuition:** \$ 2200.00

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 0.0

**Lab** 0.0

**Ext** 6.0

TOTAL= 6.0 Qtr Hrs

### **HP 101 HUMAN PATHOPHYSIOLOGY**

This course will provide an introduction to human diseases, techniques used to diagnose disease, treatments and interventions. Students will cover the major diseases of the organ systems, and understand the effects that diseases have on human anatomy and physiology. Students will also learn the clinical importance of understanding human diseases.

**Clock hours of lab:** 10

**Clock hours of classroom lecture:** 20

**Pre-Requisite:** AP 101

**Total Clock Hours:** 30

**Tuition:** \$ 660.00

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.5 Qtr Hrs

### **JC 101 COLLEGE STUDIES AND CAREER PREPARATION**

This course prepares students with the academic and organizational skills to successfully complete college studies, by showing students how to efficiently take notes, prepare for research projects and study for exams. Additionally, course is designed for students to develop job readiness skills, by teaching essay writing, researching (online), analytical skills, resume preparation, and professionalism for a career path.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 660.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.5 Qtr Hrs

### **MBIO 101 MICROBIOLOGY**

This course will serve as a foundational understanding of microbiology in the allied health realm. This class reviews the fundamentals of microbiology in relation with the practice of sterilization techniques, mechanisms of transmission of infections and infection control in the operating room.

**Clock hours of lab: 0**

**Clock hours of classroom lecture: 30**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Tuition: \$ 715.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 0.0

**Ext** 0.0

TOTAL= 3.0 Qtr Hrs

### **ME 101 MEDICAL LAW AND ETHICS**

The student will learn the application of legal principles, policies, regulations and standards for the control and use of information as it applies to various areas of employment. Students will learn the proper release of information, ethical codes, confidentiality, humanistic healthcare, legal terminology, legal judgments, documents, and litigation terms. In class, students will apply this knowledge through discussion of ethical dilemmas, conferencing, and analysis of legal situations.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 20**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 660.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.5 Qtr Hrs

### **MS 101 MATH SKILLS**

Math Skills will provide instruction and review in elementary arithmetic skills, mathematical operations, and their applications. The content includes operations with whole numbers, whole number and decimal fractions, ratio and proportion, percent, and calculator fundamentals. The course also introduces students to the basic fundamentals of dosage calculations.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 660.00**

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.5 Qtr Hr

### **MT 101 MEDICAL TERMINOLOGY I**

This course provides basic medical terminology information including Greek and Latin derivations, prefixes, suffixes, root words, and combining forms. This course provides practice in building and defining medical terms, and emphasizes correct spelling and pronunciation of medical words.

**Clock hours of lab: 15**

**Clock hours of classroom lecture: 15**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.5

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.0 Qtr Hrs

### **MT 102 MEDICAL TERMINOLOGY II**

This course is a continuation of MT 101 and provides in-depth medical terminology information including Greek and Latin derivations, prefixes, suffixes, root words, and combining forms. It provides practice in building and defining medical terms, and emphasizes correct spelling and pronunciation of medical words. Interpreting terminology related to body structure, disease, diagnosis, and treatment is emphasized along with medical abbreviations.

**Clock hours of lab: 15**

**Clock hours of classroom lecture: 15**

**Pre-Requisite: MT 101**

**Total Clock Hours: 30**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.5

**Lab** 0.5

**Ext** 0.0

TOTAL= 2.0 Qtr Hrs

### **PB 101 PATIENT BILLING**

This course is designed to broaden coding knowledge and enhance skills by addressing specific coding issues within a particular area. Modules include claim form instruction, billing and collection practices, and reimbursement guidelines, including the audit and appeals process.

**Clock hours of lab: 15**  
**Clock hours of classroom lecture: 15**  
**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.5

**Lab** 0.5

**Ext** 0.0

**TOTAL= 2.0 Qtr Hrs**

### **PH 101 PHARMACOLOGY**

This course will provide basic pharmacology knowledge that includes: drug terminology, units of measurement, legalities, drug references, and their uses, medication orders, drug interactions, side effects, drug and medical sources, and forms of common drugs.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 10**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.0

**Lab** 1.0

**Ext** 0.0

**TOTAL= 2.0 Qtr Hrs**

### **PH 102 SURGICAL PHARMACOLOGY**

This course serves as a continuation of pharmacology designed specifically for students studying in the surgical technology field. This class reviews the principles of pharmacology and anesthesiology in relation to dose, administration of drugs, before, during and after the surgical procedure.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 10**

**Pre-Requisite: PH 101**

**Total Clock Hours: 30**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.0

**Lab** 1.0

**Ext** 0.0

**TOTAL= 2.0 Qtr Hrs**

### **PS 101 PSYCHOLOGY OF SUCCESS**

This course provides skills and strategies for creating a pattern of success. Developed to enhance a students' ability to identify career options based on self-knowledge and self-esteem, this course provides a framework for focusing on employment and identifying a career path for lifelong success.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Tuition: \$ 660.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

**TOTAL= 2.5 Qtr Hrs**

### **PS 102 PSYCHOLOGY OF PATIENT CARE**

This course provides skills and strategies for creating a pattern of psychological success when working with patients. The course was developed to enhance a students' ability to relate psychology, health, and medicine to assist patients. Additionally, this course provides initial concepts of death and dying, as well as coping strategies and mechanisms.

**Clock hours of lab: 10**

**Clock hours of classroom lecture: 20**

**Pre-Requisite: PS 101**

**Total Clock Hours: 30**

**Tuition: \$ 660.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 2.0

**Lab** 0.5

**Ext** 0.0

**TOTAL= 2.5 Qtr Hrs**

### **SS 101 SPREADSHEETS FOR MEDICAL PROFESSIONS**

This course covers the use of a technology, Microsoft Excel, that is commonly used by the medical assisting profession for the purpose of computation, data collection, and professional communication as it relates to their duties. Students will also learn to open an existing workbook, enter data, modify a cell, navigate within a worksheet, select objects, insert, delete, and create formulas, functions and ranges.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 10**

**Pre-Requisite: N/A**

**Total Clock Hours: 30**

**Method of Delivery: Blended**

**Tuition: \$ 528.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 1.0

**Lab** 1.0

**Ext** 0.0

**TOTAL= 2.0 Qtr Hrs**

### **SURG 100 SURGICAL RISK MANAGEMENT**

This class serves as a foundational review of how to manage issues that may be encountered during surgical procedures. Students will have an understanding of issues that include common professional, ethical, legal and risk management of teams or groups that are involved in a surgical procedure. Students are set to learn the foundations of professional practices, team work, and group dynamics.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: AP 102**

**Co-Requisite: PH 102**

**Total Clock Hours: 60**

**Method of Delivery: Blended**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 4.0

**Lab** 1.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hrs**

### **SURG 101 SURGICAL PROCEDURES I**

This class serves as the first of a student's fundamentals into surgical procedures. This course includes the materials of what to do during basic surgical procedures, along with basic precautions and outcomes of patients that are undergoing a procedure. Students will begin to learn the handling of the instruments, equipment and supplies that are utilized in the different types of surgeries covered in this course.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: AP 102**

**Co-Requisite: SURG 100**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hrs**

### **SURG 102 SURGICAL PROCEDURES II**

This class serves as a continuation from the fundamentals of procedures obtained in SURG 101. This course includes more functionalities behind surgical procedures, basic precautions and outcomes of patients undergoing procedures. This course will specifically go over the handling of the instruments, equipment and supplies that are utilized in plastic and reconstructive, genitourinary, orthopedic, cardiothoracic surgery, peripheral vascular surgery, and neurosurgery.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: SURG 101**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hrs**

### **SURG 200 INTRAOPERATIVE PROCEDURES**

This course introduces the surgical technologist student to the intraoperative procedures important to the surgical field. Students are introduced to topics including sterilization and different techniques, protocols and procedures performed during surgeries. Students will learn how to perform procedures while maintaining a sterile environment.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: SURG 101**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hrs**

### **SURG 201 PREOPERATIVE PROCEDURES**

This course introduces the surgical technologist student to the procedures necessary to complete before a surgery can begin. These topics include surgical consent, sterile considerations

and attire, patient preparation procedures, and familiarity with surgical instruments. At the end of this course, students will demonstrate an understanding of the procedures and equipment that a surgical technologist must be familiar with during the preoperative phase of surgery.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: SURG 102**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hr**

### **SURG 202 PERIOPERATIVE CASE MANAGEMENT**

This course covers perioperative case management. Topics include planning for the needs of the surgical case, selecting instruments for the surgical procedure, monitoring the sterile field, and integrating variations of case management according to surgical procedure. At the end of this course, students will demonstrate an understanding of perioperative case management, as well as an understanding of the assistant circulator's role.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: SURG 201**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

**TOTAL= 5.0 Qtr Hrs**

### **SURG 203 POSTOPERATIVE PROCEDURES**

This course introduces the surgical technologist student to the procedures that come after the conclusion of a surgery. These procedures include analyzing the immediate post-operative care of the surgical patient, defining terms related to the terminal disinfection/sterilization process, and performing decontamination of the O.R. environment. At the end of this course, students will demonstrate an understanding of procedures necessary for the successful conclusion of a surgery.

**Clock hours of lab: 20**

**Clock hours of classroom lecture: 40**

**Pre-Requisite: SURG 201**

**Total Clock Hours: 60**

**Tuition: \$ 1320.00**

**Length of time** (2 hrs per day, 5 days per wk): 6wks

**Lecture** 3.0

**Lab** 2.0

**Ext** 0.0

## Certificate in Welding

---

The certificate program is designed to give students entry-level skills in welding. As an industrial welding technician, you will work alongside engineers, supervisors, and workers in the production of quality welded and metal fabricated parts. The program of study will emphasize on blueprints, metallurgy, as well as a basic understanding of electrical safety, material properties, and welding codes. Upon completion of the curriculum, students will have the skills needed for a successful career in industrial welding.

### **Admissions Requirements:**

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

**Total Lecture Hours: 900 Hours**

**Total Lab Hours: 270 Hours**

**Total Externship Hours: 210**

**Total Program Hours: 1380 Hours**

**Total Length of Time: 60 Weeks**

**Total Credit Hours: 110.50 Credit Hours**

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

### **Program Delivery: Residential**

The program content is offered through lecture, laboratory, and externship experience.

### **Outside Preparation Policy**

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

### **AW-101 Advanced Welding I**

This course refreshes students on Advanced Welding Fabrication. Upon completion, students should have a general understanding of the common welding fabrication processes and welding certifications available.

**Clock hours of lab: 30**

**Clock hours of classroom lecture: 90**

**Pre-Requisite: BRF 101**

## **Associate of Applied Science of Business Management in Healthcare Support Systems**

---

The Associate of Applied Science of Business Management in Healthcare Support Systems program is a 10-term course specifically designed for Hospital Housekeeping Systems (HHS) employees to seek advancement in the support systems realm. This program prepares the degree graduate for future professional opportunities presented in the HHS current workplace. Students will receive instruction to gain proficiencies in the principles, methods, and procedures of business and healthcare management. The curriculum has been designed to provide a broad understanding of the fundamentals of management in healthcare hospitality and support system services. Graduates of this program will exercise leadership skills that will make their current employer-employee relationship a pleasant, rewarding and successful experience.

### **Admissions requirements:**

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor
3. Must be an HHS employee (or direct family member provided scholarship by an HHS employee)
4. Proof of citizenship
5. Completion of Online Course Orientation <https://southwestuniversity.edu/online-course-resources/>
  - a. This includes a review of the technology resources required for successful program completion needed to start the orientation

**Prerequisites: Must be verified as an HHS employee by institution and HHS Human Resources department**

**Program Length: 1000 CH (Clock Hours)**

**Program Delivery: Full Distance**

**Total Lab Hours: 200 Hrs Total**

**Lecture Hours: 800 Hrs Total**

**Program Hours: 1000 Hrs**

**Total Length of Time: 64 Wks**

**Total Credit Hours: 90 credits**

**Distance Authorization:** This program will part with the institutions agreement with NCSARA, the degree will be eligible in all states within the NCSARA pact, this excludes California. Students whom seek to register from the state of California must seek additional information from an admissions advisor.

**Definition of Academic Year:** An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six-week period.

**ACCT 101 INTRODUCTION TO ACCOUNTING**

This course provides an introduction of accounting principles relating to business operations. The course will concentrate on general accepted accounting principles, the accounting process, and the definition of accounting elements. The course covers a broad range of topics that will introduce students to the functions of accounting.

## Associate of Applied Science in Culinary Arts

---

The Associate of Applied Science in Culinary Arts Program is designed to provide the necessary skills that prepare individuals for entry level professions in culinary and hospitality services. The utilization of production kitchens and commercial food service equipment allow students to gain the knowledge, skills, techniques, and hands on experience required in the field as it relates to restaurant and hospitality business operations. Students will learn about safety and sanitation, recipe/menu planning, food processing, purchasing, and the art and science behind food preparation. The curriculum is designed to ensure students learn quality cooking skills incorporating culinary elements such as; cooking, baking, and plating presentation and strengthen the comprehension of concepts for employment in the food service industry.

### **Admissions Requirements:**

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

**Total Lecture Hours: 1710 Hours**

**Total Lab Hours: 520 Hours**

**Total Externship**

**Hours: 240 Hours**

**Total Program Hours:**

**2470 Hours Total**

**Length of Time: 110**

**Weeks**

**Total Credit Hours: 205 Credit Hours**

**Definition of Academic Year:** An academic year will consist of 108 instruction weeks and 36 quarter credit hours.

**Full Time Status:** Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

**Program Delivery: Residential** The program content is offered through lecture, laboratory, and externship experience. (Certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

### **Outside Preparation Policy**

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

**BOT 101 BOTANY**

This course is designed to provide students with a foundation and knowledge of culinary botany through brief investigations of all major facets including anatomy and physiology of plant cells and tissues, biochemistry, evolution and description of useful plant parts, and classification of important plant families. Plants in American Southwest Cultures and Latin American cuisine will also be emphasized.
