This catalog is current as of the time of printing. Southwest University at El Paso reserves the right to make changes in course content, equipment, materials, organizations, policy and curriculum as circumstances dictate, subsequent to publication. The school expects its students to have knowledge of the information presented in this catalog and in other official publications.

Southwest University at El Paso is in compliance with the following: The Equal Opportunity Act, the Age Discrimination Act, and the Americans with Disabilities Act. All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

HISTORY OF SOUTHWEST UNIVERSITY AT EL PASO

Southwest Career College, now Southwest University at El Paso, opened its doors to the public in June 1999. The primary goal of the institution was to provide quality education to individuals who lacked a strong grasp of the English language and had not received their high school diploma.

In November 2002, Southwest Career College added vocational career courses that would help the participants achieve their career goals. By working with the business community as partners, Southwest Career College created an extensive and complete curriculum in the fields of Office Technology, Administrative Assistant, and Medical Records and Health Information Specialist. Reacting to the demand from the business partners, Southwest Career College added a Medical Assistant program in May 2004, Diesel Technician in May 2005, and MRI Technologist in May 2008. In April 2009, Southwest Career College received authorization from THECB to grant an Associate in Applied Science Degree in Diagnostic Medical Sonography, and changed its name to Southwest University at El Paso. Southwest University at El Paso added Bachelor's Degree programs in Business Administration and Health Administration and officially became a university in 2012.

SOUTHWEST UNIVERSITY AT EL PASO MISSION STATEMENT

The mission of Southwest University at El Paso is to provide exceptional career and technical training, promote intellectual growth, critical examination and informed understanding through general education and a commitment to educational excellence strengthened by quality instruction, a positive learning environment, and the integration of emerging technologies to enable students to achieve their potential, participate in new employment opportunities, and continue to be lifelong learners.

The following goals are integral to the mission of Southwest University at El Paso:

- To develop each student's individual, intellectual, and professional growth by providing high quality education with technology and quality instruction.
- To promote each student's critical thinking skills through pragmatic and real life course content.
- To promote good citizenship so that students may enjoy success in their career and in society by providing general education and promoting professional behavior in and out of the classroom.
- To offer competent certificate and degree programs by actively engage in advisory board community outreach.
- To promote a lifelong learning culture through a positive learning environment.
- To assist graduates in participating in new employment opportunities in their field of study.

SCHOOL POLICIES ON ADMISSION AND ENROLLMENT

APPLYING FOR ADMISSION

An admissions representative conducts a personal interview with each applicant before any decision is made regarding enrollment. The representative and student will meet to discuss the school's programs and the student's career goals. The representative assists the student in the completion of the application packet. The school director reviews the application for evidence of a high school diploma, a GED certificate, or a transcript from an accredited post-secondary educational institution for acceptance. If the applicant is not accepted to a desired program, an alternative program may be suggested. Any applicant rejected for admission will be notified within seven working days. Any fees paid by the prospective student will be fully refunded.

Southwest University at El Paso has established the following requirements and procedures for admissions:

- Visit School
- Complete interview with admissions representative
- Complete admissions packet
- Sign the enrollment agreement
- Sign a statement of general health
- Complete necessary school documentation

ADMISSIONS REQUIREMENTS

The following programs have the following additional requirements:

Medical Assistant, AAS Medical Coding & Billing, AAS Health Administration, AAS Business Management and Accounting Systems, AAS Automotive Technology, AAS Diesel Technology, AAS Medical Assisting, AAS Medical Laboratory Technology, BS Health Administration, BS Business Management, AAS Ophthalmology Technician, AAS Surgical Technology

1. An accredited high school diploma or its equivalency
2. Possess a General Education Development (GED) certificate or state-specific equivalency diploma
3. For home schooled students: a certificate from the state in which the students resided during their homeschooling
4. Transcripts from foreign institutions must meet the same requirements as domestic institutions.
5. Successful interview with an admissions representative
6. Minimum age of at least 17 years (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
7. All courses are taught in English. You must be able to speak, read, and write English fluently.

The following programs have the following additional requirements:

AAS Radiological Sciences, AAS MRI Technology, AAS Diagnostic Medical Sonography

1. Prospective students must submit an AAS Imaging Admissions Application
2. A 500 word essay in APA format will need to be turned in.
3. Two letters of recommendation (1 Professional, 1 Personal)
4. A high school diploma or its equivalency is required for admission into the program.
5. Transcripts (Certification, Associates, Bachelors)
6. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.
7. Proof of citizenship (or Worker Visa)
8. Immunization Record
9. Physical (form is provided by the Imaging Office)
10. Background check – will be needed before Externship
11. Drug test – will be needed before Externship

The following programs have the following additional requirements: Bachelor of Science in Radiology Management & Computed Tomography Certificate

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program;
3. Prospective student must complete a successful interview with an intake (admissions) counselor; and
4. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT[RT], [CT], [MR], [US], [NM], [CIT], [RTT], [CVT]) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT recognized program (must be approved by department director).
 - 55 Semester hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSRM core of courses, the required 55 credit hours (82.5 quarter credit hours) are as follows:
 - 37 semester hours of general education credit hours (55.5 quarter credit hours) must be completed; and
 - 18 semester hours of prerequisites credit hours (27 Quarter Credit Hours) must be completed
 - 40 Semester hours (60 quarter credit hours) of radiology courses must be completed before enrollment in the BSRM program. Modalities may vary
5. Background check and drug test
6. Updated immunization records (a listing of immunizations can be located in the admissions office)
7. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

**The following program has the following additional requirements:
ADN (Associate Degree in Nursing)**

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. Student must attend entrance orientation
3. A high school diploma or its equivalency is required for admission into the program;
4. Prospective student must complete a successful interview with an intake (admissions) counselor.
5. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
6. Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.
7. Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).
8. Background check and drug test
9. Proof of citizenship (or Worker Visa)

**The following program has the following additional requirements:
Bachelor of Science in Nursing (RN-BSN Bridge)**

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program.
3. Prospective student must complete a successful interview with an intake (admissions) counselor.
4. Successful completion of a nursing registry unencumbered license (Registered Nurse [RN], license will be verified by admissions director for successful completion of the NCLEX-RN).
5. 55 Semesters hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSN core of courses.
6. Additionally 36 semester hours of registered nursing credits (54 quarter credit hours) must be completed
7. Background check and drug test
8. Updated immunization records (a listing of immunizations can be located in the admissions office)
9. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete forms that review the tasks experienced throughout the duration of the program. This will serve as a determinant if the student will be prepared to start with the distance education platform provided.

**The following programs have the following additional requirements:
AAS Computer Information Technology Systems**

1. A high school diploma or its equivalency is required for admission into the program.
2. Successful interview with an admissions representative is required prior to admissions

DISTANCE EDUCATION

ABHES has authorized Southwest University at El Paso to offer recognized programs as full distance education delivery.

Southwest University currently offers full-distance education in the following states: Alabama, Colorado, Florida, Georgia, Missouri, Oklahoma, Pennsylvania, Tennessee, Texas, and Washington.

- * Agents approved by the Colorado Department of Higher Education, Private Occupational School Board

- *All students outside of Texas have the responsibility to check with appropriate regulatory agencies in their home state to confirm program/coursework satisfy initial or renewal licensing or certification of that agency

- A student must present evidence physical location at the time of enrollment (enrollment agreement)
- Student must notify institution of change of physical location (Admissions representative or program director)

*Students may seek additional state approvals when seeking certification or licensure exams, credentialing, and credit transfers, to other institutions or employers outside of Texas and or outside of the NC-SARA pact. (i.e. Texas Board of Nursing, ARRT, and any other education entity).

The LMS software has been designed to accommodate 1000 students at a given moment. This allowance is sufficient to host both current and expected enrollment growth. The LMS provides the sufficient amount of server space and allocated resources to communicate from institution to student, deliver and distribute the learning materials without service interruption. If an interruption should occur (i.e., data back-up, scheduled maintenance) students and faculty will be notified with an ample amount of time in order to make any necessary arrangements.

DATA LOSS SAFEGUARDS

The institution is housed with multiple safeguards against data loss. The LMS is backed up in the initial server, and backed up simultaneously in a RAID server one, and a RAID server two. The information from the initial server and RAID servers one and two are updated on a nightly basis in the FREENAST server. The information on the FREENAST server is then backed up on the DropBox Cloud as an additional safeguard for data loss.

24 hour support for these programs along with any SU Learning issues can be addressed at: <https://sulearning.southwestuniversity.edu/support.php>

MILITARY STUDENTS

We will help you untangle the college web. Contact an admissions representative to get information about how you, as a military/veteran student or dependent, can get started with your degree.

- **Veterans' Educational Benefits**

If you haven't applied for your Veterans' Educational Benefits, go to www.gibil.va.gov

- **Post-9/11 GI Bill® Tuition Benefits**

Under the new Post-9/11 GI Bill®, effective August 2009, eligible students can get their tuition covered up to the cost of tuition and fees, in addition to receiving housing and book stipends.

- **Reactivating GI Bill®**

If you are coming back to SU or have already used your MGIB benefits at another college; you must reactivate your GI Bill® by filling out an application for Change of Place of Training or Program (form 22-1995). Take the completed application to Services for Veteran Students.

- **Tuition Assistance Procedures**

Visit your local Education Service on Post for guidance to apply and use TA. GoArmyEd instructions to apply: www.goarmyed.com/login.aspx

- **Dependents**

Several options are available for military dependents including using benefits transferred to them from service members. Discuss MYCAA and other financial options with your representative during your career counseling session. Apply:

<http://www.military.com/education/content/money-for-school/military-spouse-career-advancement-accounts-financial-aid.html>

- **Vocational Rehabilitation**

Visit your local veterans' service office for details.

Your representative will schedule a financial aid appointment with you to determine what you are eligible or qualified for. You will be required to apply for a pin number and file your FAFSA with the financial aid office.

After you have completed your career counseling sessions, the Admissions Office will notify you of available orientation dates. Orientation is mandatory for new students.

After you've applied for your Veterans' Educational Benefits, turn in your application (letter of eligibility), DD214, and your certification form (VA 22-1999) to Veterans' Services or your admissions advisor before class starts so you can start receiving your education benefits.

VETERANS' READMISSION POLICY

A student who is called to active duty in the United States Armed Forces or the National

Guard or Reserve, is entitled to reenroll at the college provided the student meets the following requirements:

- the student notifies the college upon completion of service that he or she intends to reenroll at the college;

The following policy and procedures are provided in order to minimize disruptions or inconveniences for students fulfilling their military responsibilities.

WITHDRAWAL PROCEDURES

1. If called to active duty, a student is encouraged to notify the Registrar's Office in advance either in writing or orally, unless the student cannot provide notice because the mission is classified. If possible, the student is requested to provide verification of the call to active duty by providing a copy of the service orders to the Registrar's Office.

If the student provides advance notice of the call to active duty, the student should inform the Registrar's Office in writing one of the following two options he or she chooses:

- a. The student may elect to withdraw from Southwest University

- b. The student may choose to remain enrolled and receive the grade(s) and credit for the course(s). In such a case, no adjustment of tuition charges would occur. (I) in the course by requesting an Incomplete grade through the course instructor. The student may choose to take an Incomplete in one or more courses and drop other courses. A student would only pay tuition charges for the courses not dropped.
 - c. If the student does not provide notice of the call to active duty to the Registrar's Office, the Registrar's Office shall administratively withdraw the student.
2. A student receiving Veteran's Benefits should notify the Registrar's Office in order to complete required documents.
3. A student receiving financial aid will be subject to the refund policies of the agencies sponsoring the aid.
4. If a student is called to active duty in his or her last semester before graduation, the student should contact the Registrar's Office to determine if graduation requirements can be completed.

READMISSION POLICY

Southwest University agrees to promptly readmit the student upon the student's inquiry about returning to the College. The College agrees to readmit the student with the same academic status as at the time they withdrew due to being called to active duty. The College agrees to admit the student:

1. To the same program to which he or she was last admitted by the institution or, if that program is no longer offered, the program that is most similar, unless the student requests or agrees to admission to a different program;
2. At the same enrollment status that the student last held at the institution, unless the student requests or agrees to admission at a different enrollment status;
3. With the same number of credit hours complete previously by the student, unless the student is readmitted to a different program to which the completed credits hours are not transferable;
4. With the same academic standing the student previously had;
5. If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, by assessing no more than the institutional charges that other students in the program are assessed for that academic year.

SERVICE MEMBERS OPPORTUNITY COLLEGES (SOC)

Southwest University at El Paso is a member of the Service members Opportunity Colleges (SOC) Consortium of approximately 1,900 colleges and universities. SOC consortium members subscribe to principles and criteria to ensure that quality academic programs are available to service members, including members of the National Guard and Coast Guard, their family members, reservists, and veterans of all Services. As an SOC Consortium member, this institution ensures military students share in appropriately accredited postsecondary educational opportunities available to our citizens. Flexibility of programs and procedures, particularly in admissions, counseling, credit transfer, course articulations, scheduling, course format, and residency requirements are provided to enhance access of service members and their family members to higher education programs.

CONVICTION FOR POSSESSION OR SALE OF ILLEGAL DRUGS

A federal or state drug conviction can disqualify a student for FSA funds. The student self-certifies in applying for aid that he/she is eligible;

A conviction that was reversed, set aside, or removed from the student's record does not count, nor does one received when the student was a juvenile, unless she/he was tried as an adult.

The Chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs).

	Possession of Illegal Drugs	Sale of Illegal Drugs
1 st offense	1 year from date of conviction	2 years from date of conviction
2 nd offense	2 years from date of conviction	Indefinite period
3+offenses	Indefinite period	

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

A student regains eligibility the day after the period of ineligibility ends or when he/she successfully completes a qualified drug rehabilitation program. Further drug convictions will make him/her ineligible again.

When a student regains eligibility during the award year the University may award Pell and Campus-based aid for the current payment period and Direct loans for the period of enrollment.

STANDARDS FOR A QUALIFIED DRUG REHABILITATION PROGRAM

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company
- Be administered or recognized by federal, state or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.

DESCRIPTION OF FACILITIES

Southwest University at El Paso currently has one main campus and one separate classroom space. Our main campus is located at 6101 Montana in El Paso, Texas. The Medical Assistant/Laboratory Assistant; Business Management and Accounting Systems; Health Administration; Magnetic Resonance Imaging; Medical Coding and Billing Systems; Radiological Sciences; and Diagnostic Medical Sonography programs are fully taught at this location. Each of the thirty four classrooms can accommodate between 15- 45 students. Adequate space for office and administrative work is provided. Over one hundred computer workstations are available for student use in five separate computer laboratories. These workstations are networked and have access to a high-speed (Fiber Optic) Internet connection. Nine medical laboratories are available for student use, so they can gain experience in such areas as phlebotomy, EKGs, blood analysis, and laboratory procedures. Each classroom is furnished with an erasable ink board and bookshelves with multi-media resources available as needed. The University houses a coffee shop that has been designed to accommodate a lounge area furnished with tables, chairs, study areas, and a full service eatery. The facility is centrally located and convenient to bus routes and support agencies.

The Associate of Applied Science in Diesel Technology, The Associate of Applied Science in Automotive Technology, and the Certificate in Welding programs are offered at 6500 Montana, El Paso, Texas. The separate classroom space consists of five bays that allow the students to work on engines and vehicles. Currently, there are over twenty diesel engines and fifteen vehicles available for the students to work on. The campus has a capacity of one hundred students per shift. The AAS Degree in Diesel and Automotive Technology were approved in June 2012 and will be offered at this campus.

The University library is located in the Main Campus. The library includes areas featuring computer stations and areas for both group and individual study. All students are also encouraged to use the digital library subscriptions made available through SU Learning.

STUDENT DISABILITY SERVICES

Southwest University at El Paso will not discriminate against any person on the basis of a disability. Furthermore Southwest University at El Paso is committed to providing equal access to university programs and facilities to all qualified students regardless of disability.

All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

Students who seek special arrangements are encouraged to submit a request with academic advisor 10 days before the start of a term. All accommodation requests will be considered and suggestions will be provided to the student on how to accommodate them.

The terms and conditions on the reverse side of this form are part of this agreement

I hereby affirm that the above information is true and accurate, I acknowledge having read and I understand the agreement of the reverse side and agree to abide by the rules and conditions set forth therein. I agree to pay the total cost indicate on this page subject to the refund policy outlined on the reverse side hereof. I further acknowledge I have been given a copy of this agreement and a copy of the school catalog for my personal records. This agreement is not valid unless accepted by an authorized school official. Any payment made will be refunded if the student is not accepted.

APPROVED AND REGULATED BY THE TEXAS WORKFORCE COMMISSION, CAREER SCHOOLS AND COLLEGES, AUSTIN, TEXAS

THE STUDENT AGREES:

1. That he/she will comply fully with the University's policies on attendance, progress, conduct and all other school policies as contained in the School Catalog, Student Handbook, or any supplemental publications.
2. That violation of school rules or policies constitutes grounds for student's dismissal from school.
3. That he/she will cooperate fully with the staff of the school in bringing his/her training to a successful conclusion within the scheduled training period.
4. That he/she will pay at the offices of Southwest University at El Paso or its agents, all payments on the due dates as indicated on page one of this agreement.
5. That he/she will buy textbooks, laboratory supplies, and other incidentals as may be required in any given course.
6. That should it be necessary for this account to be placed in the hands of an attorney for collection, the undersigned promises to pay such additional amounts as court cost and attorney's fees as the court may adjudge reasonable.
7. That he/she will be liable for school property or other property lost or damaged while in student's possession
8. That he/she will hold the school harmless for damage to clothing, rings, watches, and other such items, as well as personal injury that may be caused by laboratory equipment, chemicals, machines or test equipment
9. That he/she will refrain from removing from the School any supplies, textbooks or equipment or other property of Southwest University at El Paso without written permission from the School Director.
10. That staff or faculty personnel changes may occur periodically during the course of the student's enrollment.
11. That if, during the course of training, the school determines that the student is not adapted for this field, the school reserves the right to terminate the student's training. Unused prepaid tuition will be refunded in accordance with the refund policy.
12. That Southwest University at El Paso may periodically change, update or otherwise modify program curricula, textbooks, tools, or class schedules. The student will receive the benefit of any such curriculum updates or changes in his/her present course at no additional cost.
13. That if he/she continues his/her education at, or transfers to another institution, credits earned at this school may not be accepted by the receiving institution. An institution's accreditation does not guarantee that credits earned at that institution will be accepted for transfer by any other institution. Students must contact the registrar of the receiving institution to determine what credits, if any, that institution will accept.
14. That job placement assistance is an ongoing service available to all graduates in satisfactory standing. To protect the school's reputation as well as the employment opportunities of future graduates, a graduate is considered to be in unsatisfactory standing and forfeit his/her placement assistance privileges if he/she:
 - a. Has failed or refused to take a company physical relating to drug or other substance testing
 - b. Has defaulted on a student loan
 - c. Is not current in his/her financial obligations to the school
 - d. Has been discharged from a job for misconduct such as stealing, substance abuse, sexual harassment, etc...
15. Repeat a Course Policy: Students who fail any course will have to retake course until receiving a satisfactory grade based on course grade scale. Students who fail courses will incur additional charges for the full amount of the course(s) that need to be retaken. These charges will appear as additional charges on the student's account. Southwest University will allow students who earn a grade of "D" or lower to repeat the identical course and have the higher grade recorded and calculate in the GPA. The original course will be replaced as a "R" Repeat. Courses may not be repeated once the degree has been awarded

SOUTHWEST UNIVERSITY AT EL PASO AGREES:

1. To provide instruction in the course for which the student is enrolled as described in its brochure to the best of its ability.
2. Upon completion of the course for which the student is enrolled and fulfillment of the student's financial obligation to the school, to grant the appropriate diploma or certificate. To assist and guide the student graduate in obtaining satisfactory employment or obligate itself beyond reasonable assistance and guidance. This job placement assistance is available without additional charge.

CANCELLATION POLICY

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

Student Initials _____

REFUND POLICY

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination for refund purposes will be the earliest of the following:
 - (a) The last day of attendance, if the student is terminated by the school;
 - (b) The date of receipt of written notice from the student; or
 - (c) Ten school days following the last date of attendance.
3. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
4. If a student enters a residence or synchronous distance education program and withdraws or is otherwise terminated, the school or college

may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.¹

5. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
6. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
7. A full refund of all tuition and fees is due and refundable in each of the following cases:
 - (a) An enrollee is not accepted by the school;
 - (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
 - (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

8. REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
- (b) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
- (c) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
 - (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
 - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program.

The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 45 days after the effective date of termination.

Tuition Charges are not initiated prior to start date. Southwest University officially charges tuition after the third (3) date of attendance. All fees acquired from the fourth (4) day of attendance until the date of completion or withdraw/drop are charged to the respective funding source.

GROUND AND PROCEDURES FOR CANCELLATION OR TERMINATION OF A PROGRAM BY THE INSTITUTION:

1. Students who fail to achieve overall satisfactory progress for the program at the end of one six week probationary period (students who miss in excess of 15% of scheduled classes during any 6 week term will be placed on attendance probation for the following term will be subject to academic dismissal.
2. A student missing over 15% of scheduled classes during the probationary 6 week term will be terminated from school. Additionally, a student is in jeopardy of being terminated when his/ her absences exceed 15% of the total cumulative hours in the program. Authorized leave of absence (LOA) will not be included in the attendance percentage of a term.
3. A student who is absent in excess of ten (10) consecutive school days without approved leave of absence will be terminated.
4. A student who fails to meet financial obligations to the School as agreed upon
5. A student who exhibits conduct which is found to be detrimental to fellow students, staff or faculty, the School, and the public as addressed in the Student Conduct section of the School Catalog
6. A student who submits false or misleading information on admission, registration, or any other forms used as part of the enrollment process
7. Alters University records and / or is found cheating on a quiz, test, or exam.
8. A student who uses or is under the influence of alcoholic beverages or illegal drugs on or adjacent to University property or on affiliated job placement sites.
9. A student who vandalizes damages or destroys University, student, staff or faculty property.

¹ More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

WITHDRAWAL PROCESS

An official withdrawal occurs when a student formally informs the institution of his/her desire to withdraw. Students must complete a withdrawal form. Southwest University at El Paso will automatically withdraw a student if the student incurs 10 consecutive absences.

All fees, including materials fees, are non-refundable after the start of a course.

The University will follow the refund policy to determine if a payment or refund is due.

Any s Federal financial aid recipient who withdraws or is withdrawn from the University is subject to a Federal Return of Title IV Aid Calculation. The calculation will determine the amount of Federal aid that the school and the student are eligible to retain along with the amount that must be returned to the federal government.

JOB PLACEMENT ASSISTANCE: Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the School.

FTC Statement: Any holder of this consumer credit contract is subject to all claims and defenses which the debtor could assert against the seller of goods or services obtained pursuant hereto or with the proceeds hereof. Recovery hereunder by the debtor shall not exceed the amounts paid by the debtor hereunder.

NOTICE TO THE BUYER: You are entitled to a completely filled in copy of this agreement. THE TERMS AND CONDITIONS OF THE REVERSE SIDE OF THE FORM ARE A PART OF THIS AGREEMENT.

This enrollment agreement is binding when it has been signed by the student and accepted by an authorized official of Southwest University at El Paso. This contract is the total and complete agreement between the parties and no other agreements, oral or written, are binding unless agreed to in writing by an official of Southwest University at El Paso. Any provision contained in this agreement which is held by any competent court to be invalid is severable and does not affect the operation or legality of the remaining provisions. Should any provision of this agreement be in conflict with any local, state or federal law or regulation of the regulatory body having jurisdiction over Southwest University at El Paso, then such law or regulation shall take precedence.

STUDENT UNDERSTANDING: I understand that the catalog and its contents are a part of this enrollment and financing agreement and that information presented therein is binding on the School and me.

Student certifies that he/she received each of the following documents initiated below and was allowed sufficient time to read and understand them:

SATISFACTORY ACADEMIC PROGRESS (SAP)

Southwest University at El Paso provides students' progress reports/report cards and academic transcripts at the end of each academic session. This information is provided through the SU Learning Software available to all students.

Same As or Stricter Than:

The school's SAP policy for Title IV, HEA students is the same as the school's standards for students enrolled in the same educational programs who are not receiving Title IV, HEA funding.

The Director in the financial aid office reviews the Title IV, HEA SAP policy to ensure it meets all federal requirements. The Director of Academic Affairs notifies financial aid office if the school changes its academic policies.

Southwest University at El Paso (SU) has established minimum standards of "satisfactory progress" for enrolled students. All students must meet SU SAP requirements. The standards for determining progress at SU are comprised of two separate measurements: qualitative and quantitative.

This standard is applicable to all students regardless of Title IV eligibility.

QUALITATIVE REQUIREMENT

Basis for Calculation:

The cumulative grade point average (GPA) will be calculated at the end of each six-week period (or at the student's request). The calculation will be based on all quarter credit hour courses completed during the grading period.

Grade Explanation Numeric Grades

A	EXCELLENT	90-100	4
B	ABOVE AVERAGE	80-89	3
C	AVERAGE	70-79	2
D	BELOW AVERAGE	60-69	1

W	WITHDRAWN	NOT COMPUTED	NOT COMPUTED
TC	TRANSFER CREDIT	Transfer Credits are not calculated/considered in the qualitative requirements but are considered in the quantitative requirements.	

Calculations of Grade Average for Repeated Courses

If a student takes the same course more than once, the last grade received for the course will be recorded on the transcript; however, all grades received will remain on the student's transcript. In the case of the same or equivalent grades being earned in the multiple course enrollments, the last grade earned will be used to compute the cumulative grade point average. The cumulative grade average will be determined by adding the numeric values of all grade points earned and divided by the total number of credit hours.

Grade Point Average and GPA Standards

Grade point average (GPA) is the quantitative measurement used for academic work. A student must maintain at least a 2.0 GPA (C average) to maintain eligibility for Title IV. Incomplete or Withdrawn grades will not be factored in when calculating GPA. Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. SU does not enroll students in remedial courses or non-punitive courses. Students whose cumulative grade point average is below 2.00 after the 50% of the program's maximum allowable timeframe are not considered making satisfactory progress.

QUANTITATIVE REQUIREMENT

Measurable Progress

"Making measurable progress" is defined as the student being on pace to complete the program of study in no more than 150% of the normal program length based on the program's academic calendar. Transfer Credits, Incomplete, Repeated, or Withdrawn grades will be factored in when considering measurable progress.

Southwest University at El Paso does not offer non-credit courses, remedial courses, non-punitive grades or proficiency credits. Course incompletes and repetitions have no effect upon the school's satisfactory progress standards.

SAP CALCULATIONS BY PROGRAM

Students in the following programs must have completed at least 34% of the total program and maintain a 2.0 GPA by the 1st calculation, 67% of the total program and maintain a 2.0 GPA by the 2nd calculation, and 100% of the total program and maintain a 2.0 GPA by the 3rd calculation.

PROGRAM	1 st CALCULATION	2 nd CALCULATION	3 rd CALCULATION
MA	30 th Week	54 th Week

BS HA	30 th Week	60 th Week	90 th Week	120 th Week	150 th Week	180 th Week	210 th Week

QUALITATIVE REQUIREMENT SAP

Students who do not maintain a minimum of 2.0 GPA, will be considered to not meet satisfactory academic progress and will be placed on a 12 week academic probation. Students achieving a cumulative grade point average of 2.00 at the end of the probation period will be returned to good standing. Students who fail to achieve overall satisfactory progress for the program at the end of the one twelve week probationary period will be subject to academic dismissal. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated as an academic dismissal may not restart the program. The terms of the approved refund policy shall be applied.

QUANTITATIVE REQUIREMENT SAP PROBATION

Students who do not meet the minimum percentage of program completion at any given calculation will be considered to not meet satisfactory academic progress and will be placed on academic probation. Progress will be again measured at the next calculation period. Students who meet the minimum percentage of program completion will return to good standing. Students who do not meet the minimum percentage of program completion will be subject to academic dismissal. Students will not be allowed to re-enroll after being dropped for lack of measurable progress. Students are allowed a maximum of one probation period per 12 month period. Students whose enrollment is terminated due to failure to maintain quantitative requirements may not restart the program. The terms of the approved refund policy shall be applied.

REINSTATED POLICY

Students who have been dismissed due to qualitative requirements may apply for reinstatement to the university and program by completing the following procedures:

Submit a typed letter to the SAP Appeal Committee. This letter must contain information about the student's reason regarding the action and/or decision and reasons why the student is wishing to be reinstated. Students must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The reinstatement letter must be submitted from the student to the SAP Appeal Committee after 6 months of the student receiving the termination letter. The student will be notified of the SAP Appeal Committee decision within five (5) business days following the receipt of the student's reinstatement letter, additional time may be taken to thoroughly review student's request. The student will receive a written decision as to the status of his/her request and any SAP plan that may be attached to it. The SAP Appeal Committee's decision shall be final. Students may only file one reinstatement over the course of their academic career.

Student Who Receive Title IV Funding Must Meet The Following SAP To Remain Eligible for Title IV Funding

1.1 Process Overview & Responsibilities

To be eligible for Title IV aid, a student must maintain satisfactory academic progress. If the student has made acceptable quantitative and qualitative progress for that particular increment, then the school reviews the 150% of the maximum allowable time frame criterion to measure student's SAP.

All students must maintain Satisfactory Progress according to the following standards in order to continue enrollment. Satisfactory Progress is measured at the end of each payment period, and will be checked prior to disbursement of aid. Financial Aid SAP standards are established by the Office of Financial Aid. The relevant SAP policies are summarized below.

Measurable Progress/Maximum Time Frame

"Making measurable progress" is defined as the student being on pace to complete the program of study in no more than 150% of the normal program length based on the program's academic calendar. Transfer Credits, Incomplete, Repeated, or Withdrawn grades will be factored in when considering measurable progress. Students must be able to complete the program without attempting more than 150% of the required credits or clock hours. Once it has been deemed impossible for a student to complete the program within 150% of the published length of the educational program, as measured in credit hours or clock hours, the student must be dismissed from the College and lose federal financial aid eligibility. At this point, even if the student has the capacity to 'self-pay' they should not be allowed to continue in the program. The pace requirement has been established to ensure that all students do not exceed the maximum timeframe threshold and this must be applied equitably to all students, regardless of whether they are Title IV funded or not.

1.2 Financial Aid Warning

The OFA evaluates Satisfactory Academic Progress at the end of each payment period. If a student falls below a 2.0 GPA the student will be placed on financial aid warning for one payment period. If the student is still not meeting SAP at the end of the warning period, the student may be placed on Financial Aid Probation. (See —Financial Aid Probation below.) A student who is put on a Financial Aid Warning can continue to receive Title IV aid for the next payment period after receiving the warning status. The status will be conferred automatically without the student appealing his/her SAP status.

At the next SAP checkpoint, if that student has not made academic progress, they will no longer be in a Warning status but moved to a Termination Status. Students that do not demonstrate significant progress toward meeting SAP at the end of the next Sap check period will be dismissed or terminated from College and are ineligible to receive federal financial aid unless they successfully appeal that determination.

1.3 Student Appeal Procedures

The student must advise the school as to why his/her grades have fallen below SAP and devise a plan to improve grades during the next payment period. A plan must be developed to assist a student to achieve success in the coming payment period. A student may file an appeal due to a death in the family, illness, an approved medical withdrawal, extreme change in financial or legal circumstances, or compulsory military duty, or other serious reasons. The appeal must be in writing to the SAP Appeal Committee explaining what caused the problem. The student would have to submit how circumstances have changed that will allow him/her to attain satisfactory academic progress once the probationary period is over.

A student, who wished to appeal a decision made in reference to the Satisfactory Academic Progress policy, must submit a typed letter to the SAP Appeal Committee. This letter must contain information about the student's reason regarding the action and/or decision and reasons why the student is wishing to appeal. Students must provide supportive documentation along with their letter in order to support their position and any mitigating circumstances that may have existed. The appeal letter must be submitted from the student to the SAP Appeal Committee within 3 business days of the student receiving the Financial Aid Ineligibility Letter. The student will be notified of the SAP Appeal Committee decision within five (5) business days following the receipt of the student's appeal letter, additional time may be taken to thoroughly review student's appeal. The student will receive a written decision as to the status of his/her appeal and any SAP plan that may be attached to it. The SAP Appeal Committee's decision shall be final. Students may only file one appeal over the course of their academic career.

1.4 Academic Plan

Students who successfully appeal will be placed on Financial Aid Probation for one payment period. Students must agree to an academic progress plan by the term's academic progress plan deadline. The Academic Plan is a plan developed by SAP Appeal Committee.

1.5 Financial Aid Probation

Students on financial aid probation who fail to make satisfactory academic progress by the next term will lose their financial aid eligibility.

LOSS OF TITLE IV ELIGIBILITY

Students are eligible to continue their program of study as long as they continue to meet the university's SAP policy.

CANCELLATION POLICY

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day excluding Saturday, Sundays and legal holidays) after the enrollment contract is signed. A full refund will also be made to any student who cancels enrollment within the student's first three scheduled class days, except that the school may retain not more than \$100 in any administrative fees charged, as well as items of extra expense that are necessary for the portion of the program attended and stated separately on the enrollment agreement.

REFUND POLICY

1. Refund computations will be based on scheduled course time of class attendance through the last date of attendance. Leaves of absence, suspensions and school holidays will not be counted as part of the scheduled class attendance.
2. The effective date of termination (determined date of withdrawal) for refund purposes will be the earliest of the following:
 - (a) The last day of attendance, if the student is terminated by the school;
 - (b) The date of receipt of written notice from the student; or
 - (c) Ten school days following the last date of attendance.A student's last day of attendance is defined as the last day a student had academically related activity, which may include projects, clinical experience, or examinations.
3. Students who wish to withdraw from the course of study must complete the withdrawal process. The withdrawal process consists of:
 - a) Completing a withdrawal form
 - b) Conducting an interview with the School Director or President.
 - c) Verifying refund status with the accounting department.Students who do not complete this process will be automatically withdrawn from the institution after the tenth consecutive absence.
4. If tuition and fees are collected in advance of entrance, and if after expiration of the 72 hour cancellation privilege the student does not enter school, not more than \$100 in nonrefundable administrative fees shall be retained by the school for the entire residence program or synchronous distance education course.
5. If a student enters a residence program and withdraws or is otherwise terminated, the school or college may retain not more than \$100 in nonrefundable administrative fees for the entire program. The minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination.²
6. Refunds for items of extra expense to the student, such as books, tools, or other supplies should be handled separately from refund of tuition and other academic fees. The student will not be required to purchase instructional supplies, books and tools until such time as these materials are required. Once these materials are purchased, no refund will be made. For full refunds, the school can withhold costs for these types of items from the refund as long as they were necessary for the portion of the program attended and separately stated in the enrollment agreement. Any such items not required for the portion of the program attended must be included in the refund.
7. A student who withdraws for a reason unrelated to the student's academic status after the 75 percent completion mark and requests a grade at the time of withdrawal shall be given a grade of "incomplete" and permitted to re-enroll in the course or program during the 12-month period following the date the student withdrew without payment of additional tuition for that portion of the course or program.
8. A full refund of all tuition and fees is due and refundable in each of the following cases:
 - (a) If an enrollee is not accepted by the school;

² More simply, the refund is based on the precise number of hours the student has paid for, but not yet used, at the point of termination, up to the 75% completion mark, after which no refund is due. Form PS-1040R provides the precise calculation.

- (b) If the course of instruction is discontinued by the school and this prevents the student from completing the course; or
- (c) If the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or representations by the owner or representatives of the school.

A full or partial refund may also be due in other circumstances of program deficiencies or violations of requirements for career schools and colleges.

9. **REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE.**

A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

- (a) If tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
- (b) A grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or
- (c) The assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:
 - (1) Satisfactorily completed at least 90 percent of the required coursework for the program; and
 - (2) Demonstrated sufficient mastery of the program material to receive credit for completing the program

POSTPONEMENT OF START DATE

10. Postponement of a starting date, whether at the request of the school or the student, requires a written agreement signed by the student and the school. The agreement must set forth:

- a. Whether the postponement is for the convenience of the school or the student, and;
- b. A deadline for the new start date, beyond which the start date will not be postponed.

If the course is not commenced, or the student fails to attend by the new start date set forth in the agreement, the student will be entitled to an appropriate refund of prepaid tuition and fees within 72 hours of the deadline of the new start date set forth in the agreement, determined in accordance with the school's refund policy and all applicable laws and rules concerning the Private Occupational Education Act of 1981.

11. The payment of refunds will be totally completed such that the refund instrument has been negotiated or credited into the proper account(s), within 45 days after the effective date of termination

Cancellation and Refund Policy for Asynchronous Distance Education Courses

Texas Workforce Commission – Career Schools and Colleges

CANCELLATION POLICY

A full refund will be made to any student who cancels the enrollment contract within 72 hours (until midnight of the third day, excluding Saturdays, Sundays, and legal holidays) after the enrollment contract is signed.

REFUND POLICY

1. Refund computations will be based on the number of lessons in the program
2. The effective date of termination for refund purposes will be the earliest of the following:
 - (a) the date of notification to the student if the student is terminated;
 - (b) the date of receipt of written notice from the student or
 - (c) the end of the third calendar month following the month in which the student's last lesson assignment was received unless notification has been received from the student that he wishes to remain enrolled
3. If tuition and fees are collected before any lessons have been completed, and if, after expiration of the 72-hour cancellation privilege, the student fails to begin the program, not more than \$50 shall be retained by the school.
4. If the student who enters an asynchronous distance education course terminates or withdraws after the expiration of the 72-hour cancellation privilege, the school may retain \$50 of the tuition and fees, and the minimum refund policy must provide that the student will be refunded the pro rata portion of the remaining tuition, fees, and other charges that the number of lessons completed and serviced by the school or college bears to the total number of lessons in the program.
5. A full refund of all tuition and fees is due in each of the following cases:
 - (a) an enrollee is not accepted by the school
 - (b) if the program of instruction is discontinued by the school and this prevents the student from completing the program or
 - (c) if the student's enrollment was procured as a result of any misrepresentation in advertising, promotional materials of the school, or misrepresentations by the owner or representatives of the school.

REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE

6. A student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:
 - (a) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;
 - (b) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty

without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

(c) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:

(A) satisfactorily completed at least 90 percent of the required coursework for the program; and

(B) demonstrated sufficient mastery of the program material to receive credit for completing the program.

7. Refunds will be totally consummated within 60 days after the effective date of termination.

TUITION BREAKDOWN

Medical Assistant/Laboratory Assistant

Total Program Price:	\$ 18,081.00
Tuition:	\$ 14,960.00
Book Fee:	\$ 1,666.00
Certification Fee:	\$ 155.00

JOB PLACEMENT ASSISTANCE

Job placement assistance is available for both graduates and currently enrolled students. Extensive job listings of local and out-of-town opportunities are available for students to review. Particular attention is given to matching students with prospective employers and positions that are compatible with their career goals, qualifications and experiences. The Career Development class provides information on job search skills, interviewing techniques, resume writing, and market demands. Individual counseling with placement staff is encouraged. Information concerning job placement assistance may be obtained by contacting the Director of Student Services. Southwest University at El Paso does not guarantee job placement or a starting salary upon graduation, completion or withdrawal from the school.

ATTESTATION POLICY

Southwest University reserves the right to administer graduate attestations to confirm placement status. Qualified documents of attestations include: student written documents, or documented conversations between the student and a Southwest University representative. All Attestation Agreements must be signed and dated by student and the institutional representative.

STUDENT SERVICES

In order to provide a complete education experience, SU provides a variety of student services. These services include daily tutoring, placement assistance, and academic guidance. SU has contracted with Student Resource Services to provide 24-hour supportive services for students. Student Resource Services provides students with financial counseling, access to master-level counselors, and contacts for community-based agencies that can facilitate transportation, childcare, and other daily living needs. All entrances and exits to all Southwest University at El Paso buildings and all offices and classrooms meet ADA requirements. In addition, Southwest University at El Paso provides students with special needs ADA approved restrooms, and modified classroom furniture to meet their needs.

NON-DISCRIMINATION POLICY – AFFIRMATIVE ACTION STATEMENT

Southwest University at El Paso is an equal opportunity employer and follows the same policies in accepting applications for all potential students; including, but not limited to selection, placement, transfers, training and development, terminations and all conditions or privileges of admissions or hire. Southwest University at El Paso requires that all admission and hiring practices be structured and applied equally without regard to factors that are non-job related. These factors include, but are not limited to race, sex, creed, color, religion, national origin, age, source of income marital status, sexual orientation, disabilities when the individual is otherwise qualified; or status as disabled this includes all veterans.

Southwest University at El Paso complies with Section 504 policies (nondiscrimination against handicapped persons) and does not discriminate against hiring or enrolling handicapped persons on the basis of the handicap.

INSTITUTION'S RULES AND REGULATIONS

The institution's rules and regulations are published in the student handbook. Student handbooks are made available to students during the orientation process and by request.

EXPERIENTIAL CREDIT

Southwest University at El Paso does not accept experiential credit for any program

TESTING FOR CREDITS

Southwest University at El Paso does allow students to test for credit in the Medical Assistant program. Please contact the student advisor to receive more information.

ADVANCED PLACEMENT

Southwest University at El Paso does not grant advanced placement

SOUTHWEST UNIVERSITY COURSE CREDIT IDENTIFICATION

Courses listed with three (3) digits within the course code are identified as a course provided in the Certification and/or Associates Degree programs (lower division courses). Courses listed with four (4) digits within the course code are identified as courses provided in the Bachelor's degree programs (higher division courses).

TRANSFER OF CREDIT BETWEEN PROGRAMS WITHIN THE INSTITUTION

Students at Southwest University at El Paso may transfer to different programs within the institution. Students must complete a Request for Program Change Form. The School Director and CEO must sign this form prior to approval. Credits will be evaluated by the School Director and applied towards the new program, if applicable. To be eligible for transfer credit, students must have successfully completed the class with a minimum grade of "B". Students will only be allowed to transfer into another program once during the course of enrollment. If a student has completed or withdrawn from Southwest University at El Paso and wishes to enroll into a new program, the student will be treated as a new enrollment.

TRANSFER OF CREDIT FROM ANOTHER INSTITUTION

Students may transfer from other post-secondary public or private institutions recognized by the United States Department of Education (USDE) or Council for Higher Education Accreditation (CHEA). Admission and transfer of credit will be based on an evaluation of the academic transcript by the School Director. The University does not guarantee the transferability of credits from other educational institutions. Credit for courses with a final grade of "B" or better from another accredited post-secondary institution will be accepted under the following conditions:

Associate Degree, Bachelor Degree (Degree Completed):

- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Official transcripts must be received before the enrollment date.
- A maximum of 10 courses will be transferred to a bachelor program

Certificate Programs:

- Credit must have been awarded within (7) years.
- There is comparability in the nature, content and level of credit earned to the appropriate and applicable course and program offered by Southwest University at El Paso.
- Transcripts must be received before the enrollment date.
- A maximum of 4 courses will be transferred to an associate degree or a certificate program

A transcript must be furnished from the educational institution previously attended prior to request for evaluation. A course competency examination may be required. Contact the Academic Advisor for more information.

ARTICULATION CREDITS

Southwest University at El Paso has Articulation Agreements with the following Universities:

- University of Phoenix
- Grand Canyon University

Students who have completed selected classes in high school that have been approved and are agreed upon by both SU and the ISD for that school year could be eligible for articulated credit. Please visit the admissions office for more details.

SCHOLARSHIPS

SU participates in several scholarship opportunities to assist students in achieving their educational goals. Scholarships include SU's High School Scholarship program, which awards two \$1000.00 scholarships to every high school in El Paso County. Career College and Schools of Texas (CCST) scholarships offer four \$1000.00 scholarships to every high school in the State of Texas. Applications are coordinated with each high school's guidance counseling departments. SKILLSUSA scholarships are offered to eligible students competing in Automotive and in Diesel Technology programs. Scholarship amounts are as follows: 1st place: 25% of current year tuition; 2nd place: 20%; 3rd place: 15%; 4th place: 10%; and 5th place: 5%. Students must be in good standing to graduate from high school in the year awarded. Scholarship recipients can use ONLY one scholarship per year and cannot combine any of the above

LIMITED TRANSFERABILITY OF CREDIT TO OTHER INSTITUTIONS

SU does not guarantee transferability of credit to other post-secondary institutions and acknowledges that credit transferability is limited. Post-secondary institutions vary greatly in their practice of accepting transfer credit for courses completed at other postsecondary institutions. The acceptance of transfer credits is left at the discretion of the institution to which an individual transfers. Students who transfer may be required to repeat courses in which a grade of "D" or "F" was received. Students planning to transfer are urged to contact the school to which they intend to transfer and apply for transfer credit. Many of the courses offered by Southwest University at El Paso have been developed to prepare students with skills appropriate to the employment market rather than for college transfer. Some institutions may accept such courses as elective credit, while other institutions may not accept the transfer credit.

DRUG-FREE SCHOOLS AND COMMUNITIES ACT – PUBLIC LAW 101-226

The Drug Free Schools and Communities Act Amendment of 1989 requires, as a condition of receiving funds or any form of financial assistance under any Federal Program, an institution of higher education to certify that it has adopted and implemented a program to prevent the unlawful possession, use or distribution of illicit drug and alcohol by students and employees. This program will be an ongoing prevention project that, at a minimum, will include the following: Distribution in writing to each employee and to each student who is taking one or more classes for any type of academic credit, regardless of the length of the student's program of study, to include standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on its property. Southwest University at El Paso will impose disciplinary action on students and employees up to and including expulsion or termination of education or employment and referral for prosecution for the violation of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

SUMMARY: All employees and students must certify that, as a condition of enrollment, employment or receiving any financial aid, they will not engage in the unlawful manufacture, distribution, dispensing or the use of a controlled substance during the period covered by employment or the period where federal financial assistance is used for education

FERPA

The institution will annually distribute to all enrolled student's information about:

- The right to review their education records, to request amendment of records to consent to disclosures of personally identifiable information and to file complaints with the Department of Education.
- Procedures for reviewing education records and requesting amendment of the records.
- Information about the institution's policy regarding disclosures to school officials with a legitimate educational interest in the education records.

RECORDS AND THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974

In compliance with the Family Educational Rights and Privacy Act of 1974 and the Buckley Amendment, Southwest University at El Paso gives notice that the following types of directory information will be released to the general public and agencies without the written consent of the student:

a) student's dates of attendance; b) date of graduation and degree or certificate earned. Other kinds of directory information, such as a student's address, telephone listing, program of study, awards received, and the most recent previous education agency or previous institution attended, will be released only in response to a written request. The school reserves the right to refuse the above information if the reason for the request is not considered to be a sufficient need to know. Information regarding the student's record: grades, courses, GPA, social security number and other personal information will not be released without the student's written consent.

Students currently enrolled may request that all or part of their directory information be withheld from the public by filing a written request with the Registrar's Office. Such a request will remain in effect during the enrollment period unless the student requests its removal in writing.

Students must authorize release of any additional information pertaining to student records, in writing, except as authorized under the law. Such exceptions include, but are not limited to, agencies duly conducting authorized audits of school records, compliance with a legally authorized court order, and cooperation with law enforcement officials in an official investigation. Students, parents of students considered "minors", and guardians of "tax dependent" students have a right to inspect, review, request copies of and challenge the contents of their educational records, but are responsible for the cost of such requested copies.

The Registrar Office is responsible for maintenance of students' records. The staff will supply students with information related to their records and refer those students requiring additional assistance to appropriate school officials.

At the postsecondary level, parents have no inherent rights to inspect a student's education record. The right to inspect is limited solely to the student. Records may be released to parents only under the following circumstances: (1) through the written consent of the student, compliance with a subpoena.

Employees of Southwest University at El Paso may have access to student education records. Their confidentiality, use, and release are governed by **FERPA**. Utilization of this information is governed by the regulations and the duties and responsibilities of employment and position. Unless job involves release of information and you have been trained in that function, any requests for disclosure of information, especially from outside the school should be referred to the Academic Advisor. Release of information contained on a student's record without the written consent of the person identified on the document is in violation of Sec. 438 Public Law 90-247. Each school employee should have their own accounts and passwords on the administrative computer system and on e-mail. Each employee is responsible for their personal account and will be held accountable for any improper use. Protection of their sign-on password and procedure is critical for security. Your password is the only protection your account has, and the only way the computer system can verify that you are actually who you say you are. Please pick a good password and protect it.

RECORD RETENTION AND MAINTENANCE

Admissions material submitted to the School should be original documents. Upon receipt by the admissions office, the documents submitted become property of the school. Originals, except for diplomas or foreign transcripts, will not be returned to the student. An admission file will be considered complete if the material required for enrollment has been received. In accordance with school policy, admissions applications and supporting documentation will be retained for a period of one year and then destroyed if the student has not started classes. In accordance with provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, third party access to the records or copies of the documents therein, will not be permitted without the written consent of the student. Validation of the written consent will be required prior to release of information in the record. A reasonable period (not to exceed 45 calendar days) will be requested to review the record or receive copies thereof, and, upon presentation of acceptable identification to the School Director, be permitted supervised access to copies of the record. The student or third party will be responsible for upfront payment of copying costs at the rate of \$.75 per page.

All documents related to the student's academic profile, academic transcripts, program diploma and progress are kept in a hard copy version for 5 years. Thereafter, all documentation is kept indefinitely in an electronic version. Students who request in writing or through the school web portal copies or official transcripts will be processed and delivered in a reasonable time frame.

STUDENT RESPONSIBILITY FOR REGISTRATION

Information regarding the conditions and criteria for student enrollment and registration is contained in this catalog and supplemented by information in the Student Handbook. It is the responsibility of each student to be knowledgeable in these policies, procedures, and requirements and to satisfy all conditions related to enrollment and registration.

NEW STUDENT ORIENTATION

New student orientation is an advisory service offered prior to the beginning of each class start date. The orientation session acquaints new students with school policies, procedures, and services. Class schedules are distributed and the registration process is thoroughly explained during these sessions. New students must attend an orientation session to ease the transition into the school environment

RIGHT OF APPEAL Student Complaint Policy and Procedure for Initiating Grievance Complaints

Students must address their concerns about Southwest University or any of its educational programs by following the grievance process outlined below and included in the school's catalog. Southwest University is responsible for ensuring that all students receive a copy of the school's grievance procedures. If, as a student, you were not provided with this information, please inform school management.

The procedure established is to provide a method for resolving student grievances at the administrative level fairly and expeditiously. Grievances are limited to the complaint of alleged violations of Southwest University policies by its employees, and disputes with faculty and/or alleged unfair treatment. The process is utilized to appeal a grade or address other academic concerns. Under no condition should these policies be used when the student has allegedly violated the code of conduct. Any

student who believes that he/she has been disposed to unfair treatment within the academic/clinical process may proceed by following the steps detailed below.

A. Appeals to the faculty member: The student is to submit a written appeal to the faculty member within 30 days after the start of the six weeks following the six-week period in which the alleged grievance occurred. The faculty member and the student are to discuss the issue. The faculty member will then create a report outlining the discrepancies and their decision on how to handle the matter. The faculty member will submit this report to their respective program director within ten working days of receipt of the student's written appeal.

B. Appeals to the Program Director: If a decision satisfactory to the student cannot be reached with the faculty member, the student may submit a written appeal to the Program Director. This is to be done within ten working days after the receipt of the report written by the faculty member. The Program Director will then meet with the student to review the merits of the appeal. The Program Director will notify the student with a response outlining his or her decision within ten days of the last meeting.

C. Appeals to the Associate Dean/Academic Dean: If a decision satisfactory to the student cannot be reached with the program director, the student may submit a written appeal to the Associate Dean/Academic Dean. This is to be done within ten working days after the receipt of the written decision by the Program Director. The Associate Dean/Academic Dean will then meet with the student to review the merits of the appeal. The Associate Dean/Academic Dean will notify the student and the Program Director with a response outlining his or her verdict within ten days of the last meeting.

NOTICE STUDENT COMPLAINT POLICY

Dear Students:

This school has a Certificate of Approval from the Texas Workforce Commission (TWC).
The TWC-assigned school number is: S1611.

The school's programs are approved by TWC, as well as TWC and ABHES.

Students must address their concerns about this school or any of its educational programs by following the grievance process outlined in the school's catalog. Schools are responsible for ensuring and documenting that all students have received a copy of the school's grievance procedures and for describing these procedures in the school's published catalog. If, as a student, you were not provided with this information, please inform school management.

Students dissatisfied with this school's response to their complaint or who are not able to file a complaint with the school, can file a formal complaint with TWC, as well as with other relevant agencies or accreditors, if applicable. Information on filing a complaint with TWC can be found on the website at www.texasworkforce.org/careerschoolstudents.

Students who are dissatisfied with the response to their complaint or who are not able to file a complaint with the school can file a formal complaint with THECB

Formal complaints with THECB can be submitted by using one of the following three options:

- By completing the online student complaint form and uploading the required documentation.
- By sending an email to studentcomplaints@thecb.state.tx.us with the required student complaint and release forms along with supporting documentation as PDF attachments. Please follow the link below for more information.
- By mailing printed student complaint forms to: Contact Information for THECB:

Texas Higher Education Coordinating Board
Office of General Counsel
P.O. Box 12788
Austin, Texas 78711-2788

Information on filing a complaint with THECB can be found on their website at:
<https://www.twc.texas.gov/jobseekers/career-schools-colleges-students>

ACADEMIC MISCONDUCT

- A. **Academic Misconduct** - Any Student found guilty of academic misconduct shall be subject to disciplinary action. Academic misconduct includes, but is not limited to the following actions:
1. Cheating or knowingly assisting another student in committing an act of cheating or other forms of academic dishonesty.
 2. Plagiarism, which includes, submitting examinations, themes, reports, drawings, laboratory notes, undocumented quotations, or other material as one's own work when such work has been prepared by another person or copied from another person.
 3. Unauthorized possession of examinations or other course related material.
 4. Unauthorized changing of grades on an examination, in an instructor's grade book, or a grade report.
- B. **Academic Discipline Process** – The faculty member or School Director must inform the student of the alleged offense upon discovery, and after an investigation, will take one of the following actions:
1. The allegation may be dismissed as unfounded
 2. The allegation may be dismissed for lack of clear evidence
 3. The student may admit guilt and a sanction will be imposed
 4. The School Director will determine guilt based on clear and convincing evidence and a sanction will be imposed
- C. **Sanctions That May Be Imposed**- If the student admits guilt to academic misconduct or is found guilty by the School Director the following sanctions may be applied.
1. The student may receive a failing grade for the assignment, report, or test and be put on six weeks of probation
 2. The student may receive a failing grade for the course and be put on six weeks of probation
 3. The student may be dropped from all the courses he or she is currently taking
 4. The student may be permanently expelled from Southwest University at El Paso

SCHOOL POLICIES

Tuition Fees: Tuition fees vary according to program. A complete listing of classes and prices is included in this catalog. The fees are due upon enrollment in each program segment.

Book Fee: Student is responsible for books.

Supplies: Student is responsible for purchasing supplies, notebook(s) and pencils or pens

Total charges: Student is responsible for: books and supplies.

Financial Aid: Financial aid information and payment plans are available through the financial aid office. Students sponsored through the URGWDB will be charged the agreed upon cost of attendance.

Repeat Policy: Students who choose to repeat a course will have the higher of the two course grades factored into their GPA. Students will be charge the full amount of the course.

Repeating Non-Passing Courses: Southwest University at El Paso allows students who earned a grade of D or lower to repeat the identical course and have the higher grade recorded and calculated in the GPA. The original course will be replaced as a "FR" as Failed Repeat or "R" as Repeat. Courses may not be repeated once the degree has been awarded.

Method of Delivery: SU provides instruction via residential and distance education.

Language of Instruction: SU does not offer English as a Second Language instruction. All instruction occurs in English.

Campus Accessibility: SU's facilities are ADA compliant.

Referrals: Students experiencing personal difficulties may seek assistance by the Director or the President in receiving referrals to professional agencies or organizations.

Tutoring: Students experiencing academic difficulties may seek assistance from the Director or the President in seeking tutoring services.

Calendars: Classes are from Monday through Friday excluding holidays.

Student Handbook: SU institutional rules and regulations are provided in the student handbook.

Regular Hours of Operation:

School: 8:00 AM-9:00 PM Monday through Friday, Saturday by appointment

Office: 8:00 AM-9:00 PM Monday through Friday, Saturday by appointment

Definitive Class Schedule

Mornings: 8:00-8:50, 9:00-9:50, 10:00-10:50, 11:00-11:50

Afternoons: 12:00-12:50, 1:00-1:50, 2:00-2:50, 3:00-3:50

Evenings: 5:00-5:50, 6:00-6:50, 7:00-7:50, 8:00-8:50

Standard of Attendance

Student Responsibilities: Regular class attendance is vital to a student's academic success. Students are expected to attend all classes regularly. They are responsible notifying professors of planned absences and for fulfilling requirements missed during absence. The professor will use their ethical judgment in determining how to fairly assist the student.

General Policy: Students may be dismissed from Southwest University at El Paso or from individual courses for attendance violations.

Consequences of Excessive Absences: Students who do not attend or participate in school after 10 days will receive an administration withdrawal from the school.

Distance Education Attendance Policy

Students are expected to participate in class sessions. If a student exceeds 2 weeks of non-participation (without proper documentation to excuse), he or she will be dropped from the course. Participation indicates that the student be engaged in the weekly assignments and threaded discussions, this means that, in addition to posting a response to the thread topic presented, students are expected to respond to each other and comment and questions from the instructor and/or other students.

Students who exceed 2 weeks of non-participation (without proper documentation to excuse) in all registered courses, will receive an administration withdrawal from the school.

Leaves of Absence: Leaves of absence, including military leaves, shall be reasonable in duration, not to exceed 180 calendar days in any twelve (12) month period, and shall be for specific and acceptable purposes. All requests for a leave of absence must be accompanied by acceptable documentation. The school attendance records will clearly show that a leave of absence has been granted. A written request for a leave of absence using the school's form, properly signed and dated by both the student and an authorized school official, must be placed in the individual student file.

A student having a documented and approved leave of absence will be allowed additional training to complete the requirements for the graduation. Additional training will be at no cost to the student. The student is not required to use this additional training if he/she has completed all requirements for graduation by the originally scheduled date.

*This policy also applies to distance education students.

Requirements for Graduation: Southwest University at El Paso has also established the following requirements and procedures for graduation:

- Successfully complete all required course work.
- Obtain an overall Grade Point Average of at least 2.0
- Complete externship (if applicable)
- Achieve competencies required per program
- Complete interview with administration
(Optional) Complete interview with job placement coordinator

Factors That Adversely Impact a Student's Ability to Benefit: SU advises students that criminal records, identified disabilities, health limitations, and other circumstances may adversely impact a student's ability to benefit from the educational program. Please consult with an institutional representative for more information.

Campus Security: Security on campus is handled by the administration in coordination with state and local agencies. The personnel of this department are empowered to enforce Southwest University at El Paso's regulations, to investigate incidents and to apprehend those who violate these regulations or commit crimes on campus. Criminal violators who are apprehended will be turned over to the Central Regional Command, 915-577-5000 for arrest processing. When necessary, Southwest University at El Paso will press charges against the criminal violators.

Campus Community – Emergency Response: The administration has set up an e-mail group that will reach all current students, faculty and administration to inform them of any emergency on campus. In addition a message will be sent to students, faculty and administration. This system will be checked each year on specified days. The evacuation plan is the same as the fire evacuation plan that is posted throughout the building. All personnel will be advised of this plan each year.

ILLEGAL DISTRIBUTION OF COPYRIGHTED MATERIALS

Southwest University faculty and employees are prohibited from using the SU information network to illegally download or share music, video and all other copyrighted intellectual property; Southwest University supports the Higher Education Opportunity Act and Digital Millennium Copyright Act, including efforts to eliminate the illegal distribution of copyrighted material. Under the law, college administrators may be obligated to provide copyright holders with information about users of the SU information network who have violated the law.

Be aware that illegal forms of downloading and Peer to Peer file sharing as well as the unauthorized distribution of copyrighted materials are violations of the law and _ may subject you to academic sanctions from the college as well as criminal and civil penalties including a lawsuit against you by the Recording Industry Association of America (RIAA) learn more at www.campusdownloading.com.

The University has developed policies and consequences to ensure that faculty and staff respects music and other forms of intellectual property as well as conduct responsible use of the Internet. Review these policies below under the Misuse of Computer information & Resources Policy.

There are plenty of easy, affordable ways to get music online legally. To protect their intellectual property, companies have licensed hundreds of digital partners that offer a range of legal downloading options; including download and subscription services legitimate peer to peer services, video-on-demand, podcasts and CD kiosks. For a list of sources that offer legal downloading- sites, access www.riaa.com.

MISUSE OF COMPUTER INFORMATION & RESOURCES POLICY

This administrative procedure implements **Procedures Regarding Misuse of Computer Information.**

Abuse of computing, networking or information resources contained in or part of the network may result in the loss of computer privileges. Additionally, abuse can be prosecuted under applicable statutes. Users may be held accountable for their conduct under any applicable college policies, or procedures. Complaints alleging abuse of the network will be directed to those responsible for taking appropriate disciplinary action. Illegal reproduction of material protected by U.S. and International Copyright Law is subject to civil damages and criminal penalties including fines and imprisonment.

Examples of behaviors constituting abuse include, but are not limited to the following activities:

System Abuse

- Using a computer account that one is not authorized to use.
- Obtaining a password for a computer account that one is not authorized to have.
- Using the network to gain unauthorized access to any computer systems.
- Knowingly performing an act which will interfere with the normal operation of computers, terminals, peripherals or networks.
- Knowingly running or installing on any computer system or network, or giving to another user, a program intended to damage or to place excessive load on a computer system or network. This includes but is not limited to programs known as computer viruses, Trojan horses and worms.
- Knowingly or carelessly allowing someone else to use your account who engages in any misuse.
- Forging email messages.
- Attempting to circumvent data protection schemes or uncover or exploit security loopholes. Masking the identity or an account or machine.
- Deliberately wasting computing resources.
- Downloading, displaying, uploading or transmitting obscenity or pornography, as legally defined.
- Attempting to monitor or tamper with another user's electronic communications, or changing, or deleting another user's files or software without the explicit agreement of the owner.
- Personal use which is excessive or interferes with the user's or others' performance of job duties, or otherwise burdens the intended use of the network.

Harassment

- Using the telephone, email or voice mail to harass or threaten others.
- Knowingly downloading, displaying or transmitting by use of the network, communications, pictures, drawings or depictions that contain ethnic slurs, racial epithets, or anything that may be construed as harassment or disparagement of others based on their race, national origin, sex, sexual orientation, age, disability, religious or political belief.
- Knowingly downloading, displaying or transmitting by use of the network sexually explicit images, messages, pictures, or cartoons when done to harass or for the purposes of harassment.
- Knowingly downloading, displaying or transmitting by use of the network sexually harassing images or text in a public computer facility, or location that can potentially be in view of other individuals.
- Posting on electronic bulletin boards material that violates existing laws or the University's Codes of Conduct.
- Using the network to publish false or defamatory information about another person.

Copyright

- Violating terms of applicable software licensing agreements or copyright laws.
- Publishing copyrighted material without the consent of the owner on Web sites in violation of copyright laws.

Exceptions

Activities by technical staff, as authorized by appropriate university officials to take action or security, enforcement, technical support, troubleshooting or performance testing purposes will not be considered abuse of the network. Although personal use is not an intended use, SU recognizes that the network will be used for incidental personal activities and will take no disciplinary action provided that such use is within reason and that such usage is ordinarily on an employee's own time, is occasional, and does not interfere with or burden SU's operations.

Resolution of Student Grievance/Complaints: Students will have access to the Director to express grievance or complaints. Grievances will then be directed to the advisory council. Students dissatisfied with this school's response to their complaint or who are not able to file a complaint with the school, can file a formal complaint with TWC.

Information on filing a complaint with TWC can be found on TWC's Career Schools and Colleges Website at:

<http://www.thecb.state.tx.us/index.cfm?objectid=AC6FA0BC-F5DB-16DE-6B667C083DFB5B98>

Unresolved grievances must be directed to:

Texas Workforce Commission,

Proprietary School Section

101 East 15th Street

Austin, Texas 78778-000

Licensing and Credentialing

Students are advised, prior to admission and throughout the program, of any credentialing requirements necessary to achieve employment in the field. Focus is placed on credentialing requirements and opportunities to obtain employment. All licensing and credentialing provided by Southwest University at El Paso, will be administered in the State of Texas. All licensing and credentials of the field will vary in other states based off of the respective state mandates and approvals.

Southwest University at El Paso Program Listings 2020-2021

Quarter Credit Hour Definitions		
10 Lecture Hours	=	1 Quarter Credit Hour
20 Laboratory Hours	=	1 Quarter Credit Hour
30 Externship Hours	=	1 Quarter Credit Hour
1 Quarter Credit Hour	=	5 Outside Preparation Hours

Associate of Applied Science in Automotive Technology

The Associate of Applied Science Degree in the Automotive Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a mechanical environment. Students will learn the basic preventive maintenance procedures for gasoline engines, brake systems, transmissions, electrical systems, trans-axels, diagnostic equipment, steering and suspension. Students will gain experience working with domestic and imported vehicles. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various mechanic shops.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
1. Successful interview with an admissions representative is required prior to admission;

Total Lecture Hours:	1220 Hours
Total Lab Hours:	350 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	1760 Hours
Total Length of Time	72 Weeks
Total Credit Hours	145.5 Credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

ABS 101 Auto Brake Systems

In this course the student will study the modern day braking systems used on today's vehicles. They will cover the design, operation and repair of hydraulic brakes along with antilock braking systems. In the automotive shop the student will practice proper inspection and troubleshooting techniques on live trainers. The student will inspect and diagnose both ABS and non ABS brake systems. Students will practice measuring, as well as resurfacing, both brake rotors and brake drums. The hydraulic portion of the braking system will also be covered in this module.

AEB-101 Automotive Performance Engine Building

In the performance engine building and assembly class, students take an in-depth look at modern performance engine components and what it takes to disassemble, measure, inspect and build an engine for high-performance applications. The student will have to choose the right performance ingredients to make their particular engine perform better than it came from the factory. Students will complete this class with a firm understanding of all that goes into blueprinting a high-performance, high, horse-power gasoline combustion engine. This module will also allow students to run and test the high horse-power engines that they

disassembled, inspected, measured & assembled during lab time. Careful planning and forethought will be demonstrated by the students as they embark on an exciting venture into the performance engine building realm.

AED 101 Automotive Engine Diagnostics

During this module the student will be introduced to computer systems used on today's complex fuel-efficient engines. Students will study basic computer sensors, circuits and operation. Students will study, test and replace everything from the input sensors to the actuators that keep these engines running. Fuel pumps, fuel injectors, fuel pressure regulators, ignition distributors, ignition coils, input sensors and actuators are just some of the components used on the modern gasoline engine that students will be working with. Scan tools will be used to monitor the same data that the engine computer uses to run the engine. Students will use this information to repair simple misfire problems to more difficult drivability issues.

AES 101 Automotive Electric System

This course will introduce the student to basic electricity and electronics. The study of Ohm's law will allow the student to understand electrical circuits and other electrical components. The student will identify electrical components; work with batteries, starters, alternators and electrical circuits. The student will use a digital volt Ohm meter (DVOM) on various circuits and components. Available voltage, voltage drop and amperage are some of the tests that will be performed in the shop on various types of circuits. Circuit protection devices, relays, motors, starters and alternators will also be tested in the shop.

EX-AAS AT 101 Automotive Technology

Externship

The student will learn how to apply the skills acquired in the course work for AAS in Automotive Technology in a hands-on work environment. The student spends 190 hours in an automotive technician environment utilizing the skills learned in the classroom and lab setting. This course fine tunes the skills learned and reinforces the role and functions of automotive technician. The externship will be an unpaid, supervised experience in a typical automotive technician environment.

Associate of Applied Science in Business Management and Accounting Systems

This program is designed to prepare students seeking employment in business management and managerial levels of accounting. Students will receive instruction to gain mastery over the principles, methods, and procedures of accounting, and will gain a broad understanding and appreciation for other elements of management such as finance, communications, economics, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercising leadership skills that make the modern employer-employee relationship a pleasant, rewarding and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture, laboratory, and externship experience.

Associate of Applied Science in Culinary Arts

The Associate of Applied Science in Culinary Arts Program is designed to provide the necessary skills that prepare individuals for entry level professions in culinary and hospitality services. The utilization of production kitchens and commercial food service equipment allow students to gain the knowledge, skills, techniques, and hands on experience required in the field as it relates to restaurant and hospitality business operations. Students will learn about safety and sanitation, recipe/menu planning, food processing, purchasing, and the art and science behind food preparation. The curriculum is designed to ensure students learn quality cooking skills incorporating culinary elements such as; cooking, baking, and plating presentation and strengthen the comprehension of concepts for employment in the food service industry.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

Total Lecture Hours: 1710 Hours
Total Lab Hours: 520 Hours
Total Externship Hours: 240 Hours
Total Program Hours: 2470 Hours
Total Length of Time: 110 Weeks
Total Credit Hours: 205 Credit Hours

Definition of Academic Year: An academic year will consist of 108 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

Program Delivery: Residential The program content is offered through lecture, laboratory, and externship experience. (Certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

BOT 101 BOTANY

This course is designed to provide students with a foundation and knowledge of culinary botany through brief investigations of all major facets including anatomy and physiology of plant cells and tissues, biochemistry, evolution and description of useful plant parts, and classification of important plant families. Plants in American Southwest Cultures and Latin American cuisine will also be emphasized.

Associate of Applied Science in Dental Assisting

The Associate of Applied Sciences in Dental Assisting was designed to meet the demands of a continuously evolving healthcare market. The purpose of the program is to provide students with sufficient theoretical knowledge and practical skills to perform efficiently in an entry-level position as a chairside assistant in a dental office.

This program includes courses that cover the essential components of dental assisting responsibilities such as but not limited to passing instruments and supplies to the dentist, preparing dental charts, appointment scheduling, laboratory procedures, maintenance of patient records, and instructing patients in proper oral hygiene.

By incorporating components of liberal arts and sciences, the student will re-enforce written and verbal communication skills, as well as develop critical thinking skills that are essential in a high-intensity work environment, and develop a humanistic healthcare professional.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission.

*Although not required upon enrollment, dental offices and clinics may request a background check and drug screening as a requirement for participation in externship or enrollment.

Total Lecture Hours:	670 Hours
Total Lab Hours:	390 Hours
Total Externship Hours:	240 Hours
Total Program Hours:	1300 Hours
Total Length of Time:	54 Weeks
Total Credit Hours:	95 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Military Transfer Credit: Military transfer credits will be honored from an allied health or medical related MOS (Military Occupational Specialty) completion.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

Program Delivery: Blended (*Residential and Online, please see marked classes*) *The* program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

AP 101 ANATOMY & PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the body cells, tissues/organ systems, integumentary. Musculoskeletal and nervous systems.

DA 202 DENTAL EXAM PREPARATION

This course will provide an exam preparation and subject review to help guide and prepare students for national certification tests. Students will review topics that are the foundation that standardized exams test on. The course will provide students with the knowledge needed to understand the structure and the purpose of questions that are typically used on standardized exams. The course will also provide information and test-taking techniques that will enable students to better prepare and manage standardized exams.

DA 300 DENTAL ASSISTANT EXTERNSHIP

Students learn from hands-on dental assisting experiences in clinical, laboratory, and administrative duties. The externship is completed in a dental office, under the direct supervision of a licensed dentist. The externship program has been designed to provide the student with supervised practical work experience. Externship is for students who have completed classroom training and is a requirement for graduation. Externship hours vary and may be scheduled from 20 to 40 hours per week.

ENGL 133 READING COMPREHENSION

This course provides instruction in critical reading and thinking skills necessary for college reading and research. The course includes instruction in critical analysis, critical interpretation, and advanced instruction in vocabulary and literal comprehension. Materials used in this course will be high interest

selections such as short essays, newspaper & magazine articles, general stories, etc. The instructor will help students analyze, synthesize and interpret general reading materials including some with abstract concepts; increase speed and comprehension in silent reading; develop the skill to deduce the meaning of unfamiliar vocabulary from context; read for enjoyment; and at the same time gain new vocabulary words and sentence structures.

Associate of Applied Science in Diagnostic Medical Sonography

PROGRAM GOALS:

The goal of the Diagnostic Medical Sonography program (General Concentration) is the thorough preparation of the student, through quality didactic, laboratory, and clinical instruction, in the theoretical knowledge, tasks, and responsibilities required of an entry-level general sonographer.

PROGRAM PHILOSOPHY:

The Diagnostic Medical Sonography program of Southwest University at El Paso is committed to excellence in education demonstrated by providing a comprehensive entry-level education program to students through quality didactic and clinical instruction. The program supports the vision, values, and mission of Southwest University at El Paso by striving to be the premier Diagnostic Medical Sonography training program in our community. In combination, the seven program components ensure the adequacy of a well-rounded program through classes in didactic theory, application and practice of skill sets in the laboratory environment, and integration of didactic theory and acquisition of performance objectives in the clinical setting.

PROGRAM OBJECTIVES:

Upon completion of this program, the student will be able to:

1. Obtain, review, and integrate pertinent patient history and supporting clinical data to facilitate optimum diagnostic results.
2. Perform appropriate ultrasound scanning procedures and record anatomic, pathologic, and/or physiologic data for interpretation by a physician.
3. Record, analyze, and process diagnostic data and other pertinent observations made during the procedure for presentation to the interpreting physician.
4. Exercise discretion and judgment in the performance of sonographic and/or other non-invasive diagnostic services.
5. Provide appropriate and compassionate patient care for patients undergoing ultrasound examination.
6. Demonstrate appropriate communication skills with patients and colleagues.
7. Act in a professional and ethical manner.
8. Provide patient education related to medical ultrasound and/or other non-invasive diagnostic ultrasound techniques, and promote principles of good health.

OCCUPATIONAL OBJECTIVES:

The successful graduate of the Diagnostic Medical Sonography at Southwest University at El Paso will have the knowledge and skills to obtain entry-level employment as a Diagnostic Medical Sonographer in:

- A Hospital or Medical Center
- A Medical Clinic
- A Radiology Imaging Center
- A Physician's Office
- Mobile Ultrasound Service
- Free Lance Sonographer
- Traveling Sonographer
- Commercial Ultrasound: Applications Specialist and Sales
- Research Sonography

Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an intake (admissions) counselor
- Prospective students must submit an AAS DMS Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours:	370 Hrs
Total Externship Hours:	825 Hrs
Total Lecture Hours:	1100 Hrs
Total Program Hours:	2295 Hrs
Total Length of Time:	104 Wks
Total Credit Hours:	156.50 Credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

Associate of Applied Science in Diesel Technology

The Associate of Applied Science Degree in the Diesel Technology Program is designed to assist students in gaining the necessary skills and abilities to work in a diesel mechanical environment. Students will learn the basic preventative maintenance procedures for medium and large diesel engines. Students will gain experience working with diesel engine tractors and tractor trailers. Students will learn to work with Detroit Diesel and Cummins Diesel engines. Students will gain experience working with computer diagnostic systems and HVAC. Students who complete this program will be eligible to work at various diesel mechanic shops.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission;

Total Lecture Hours:	1050 Hours
Total Lab Hours:	280 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	1520 Hours
Total Length of Time	66 Weeks
Total Credit Hours	125 Credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

BC 110 BUSINESS COMMUNICATION

This course examines basic interpersonal communication processes with practical applications for the business environment. Issues regarding cross-cultural communications and ethical considerations in business communication are discussed. The course will emphasize planning, organizing and delivering oral presentation in a business setting.

Associate of Applied Science in Health Administration

This program is designed to prepare students seeking employment in health administration. Students will understand the principles and practices of health care regarding administration, management, law, economics, and policy. Students will gain knowledge in health record maintenance, medical insurance processes, and healthcare classification systems. Students will also learn management principles toward team building, collaborative decision making, and financial skills. Graduates of this program can expect to be hired at insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, and many other employment settings related to the health care administration field.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

Total Lab Hours:	130 Hrs
Total Externship Hours:	210 Hrs
Total Lecture Hours:	900 Hrs
Total Program Hours:	1240 Hrs
Total Length of Time:	60 Wks
Total Credit Hours:	103.5 credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

ACCT 110 INTRODUCTION TO ACCOUNTING

This course provides an introduction of the function of accounting in regards to business operations. The overall focus will be on defining the accounting elements, showing the flow of the accounting process, and applying accounting principles to allow for transaction analysis and the preparation of financial statements.

Clock hours of lab: 10

AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology.

The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system..

This program is for HHS employees ONLY

Associate of Applied Science of Business Management in Healthcare Support Systems

The Associate of Applied Science of Business Management in Healthcare Support Systems program is a 10-term course specifically designed for Hospital Housekeeping Systems (HHS) employees to seek advancement in the support systems realm. This program prepares the degree graduate for future professional opportunities presented in the HHS current workplace. Students will receive instruction to gain proficiencies in the principles, methods, and procedures of business and healthcare management. The curriculum has been designed to provide a broad understanding of the fundamentals of management in healthcare hospitality and support system services. Graduates of this program will exercise leadership skills that will make their current employer-employee relationship a pleasant, rewarding and successful experience.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor
3. Must be an HHS employee (or direct family member provided scholarship by an HHS employee)
4. Proof of citizenship
5. Completion of Online Course Orientation <https://southwestuniversity.edu/online-course-resources/>
 - a. This includes a review of the technology resources required for successful program completion needed to start the orientation

Prerequisites: Must be verified as an HHS employee by institution and HHS Human Resources department

Associate of Applied Sciences in Medical Assisting

The Associate of Applied Sciences in Medical Assisting (AASMA) was designed to meet the demands of a continuously evolving healthcare market. By intensifying and expanding the training the AASMA Graduate will be competent not only as a Medical Assistant, but also in the areas of Phlebotomy, Electrocardiography, and advanced Patient Care. The medical assistant Program also provides the necessary skills to be competent in administrative and clinical operations, medical coding and billing, as well as in clinical and medical laboratory skills. By incorporating components of liberal arts and sciences, the student will re-enforce written and verbal communication skills, as well as develop critical thinking skills that are essential in a high-intensity work environment, and develop a humanistic healthcare professional.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission.

Total Lecture Hours:	665 Hours
Total Lab Hours:	375 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	1230 Hours
Total Length of Time:	48 Weeks
Total Credit Hours:	90.5 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Military Transfer Credit: Military transfer credits will be honored from an allied health or medical related MOS (Military Occupational Specialty) completion.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: Blended (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

AP 101 ANATOMY & PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the body cells, tissues/organ systems, integumentary. Musculoskeletal and nervous systems.

Associate of Applied Science in Medical Coding and Billing Systems

An Associate in Applied Science degree in Medical Coding and Billing Systems prepares individuals for a career in the health care industry as billing and coding specialists. These administrative professionals prepare and submit paperwork necessary for insurance and billing purposes. Students will gain knowledge in health record maintenance, medical insurance processes, and healthcare classification systems. Students will also learn computer application skills, interpersonal coding, and billing procedures. Graduates of this program can expect to be hired at insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, and many other employment settings related to the health care administration field.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admission; and

AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

Associate of Applied Science in Medical Laboratory Technology

An Associate Degree in Medical Laboratory Technology prepares individuals for a career in the health care industry as Medical Laboratory Technicians. These laboratory professionals assist in the coordination of clinical laboratory activities, including timely and cost effective testing of patient samples and lab equipment maintenance. Students will also learn the integration of lab regulations and compliance, as well as the incorporation of quality management systems in the clinical laboratory. Graduates of this program can expect to be hired at hospitals, long-term care facilities, public health agencies, outpatient facilities, doctor's office, private clinical laboratories and many other employment settings related to the medical laboratory field.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program
2. Prospective students must complete a successful interview with an intake (admissions) counselor.
3. Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll).

Total Lab Hours:	550 Hrs
Total Externship Hours:	400 Hrs
Total Lecture Hours:	810 Hrs
Total Program Hours:	1760 Hrs
Total Length of Time:	78 Wks
Total Credit Hours:	121.5 credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

Clock hours of lab: 0

Clock hours of classroom lecture: 30

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Pre-Requisite: N/A

Total Clock Hours: 30

Method of Delivery: Blended

Tuition: \$759.00

Length of time (1 hrs per day, 5 days per wk): 6 wks

AP 145 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

Clock hours of lab: 0

Clock hours of classroom lecture: 30

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Pre-Requisite: N/A

AP 147 ANATOMY AND PHYSIOLOGY II

This course provides a systemic and functional review of human gross anatomy and systematic anatomy in order for students to expand the knowledge acquired in the Anatomy & Physiology I course. Students will learn the major gross—anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross-anatomical and systematic anatomy structures, as well as basic physiology, common diseases and treatments. This course will primarily focus on the clinical anatomy as it pertains to the axial skeleton and musculature and the brain and spinal cord.

Clock hours of lab: 0

Clock hours of classroom lecture: 30

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Associate of Applied Science in Magnetic Resonance Imaging

MRI technologist is a healthcare professional who uses specialized MRI equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. MRI Technologists will be supervised by board certified radiologists. This course is designed to prepare the student to perform clinical MRI examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an admissions counselor
- Prospective students must submit an AAS MRI Admissions Application
- Applicants must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

<u>Allied Health Program</u>	<u>Allied Health Program Tuition and Fees Cost</u>	<u>Adjusted Tuition and Fees (Includes transfer credits)</u>	<u>Tuition and Fees (including all adjustments)</u>	<u>Total Additional Program length</u>
<u>Medical Assistant</u>	<u>\$17,781</u>	<u>\$32,701</u>	<u>\$50,482</u>	<u>20 Terms</u>
<u>Associate in Applied Science In Medical Assistant</u>	<u>\$28,035</u>	<u>\$31,077</u>	<u>\$59,112</u>	<u>22 Terms</u>
<u>Associate in Applied Science in Medical Coding and Billing</u>	<u>\$31,457</u>	<u>\$32,244</u>	<u>\$63,701</u>	<u>24 Terms</u>
<u>Associate in Applied Science in Health Administration</u>	<u>\$30,451</u>	<u>\$31,528</u>	<u>\$61,979</u>	<u>24 Terms</u>

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours:	80 Hrs
Total Externship Hours:	1050 Hrs
Total Lecture Hours:	1210 Hrs
Total Program Hours:	2340 Hrs
Total Length of Time:	96 Weeks
Total Credit Hours:	160 Credit Hrs

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if student is enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: Blended (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equation, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

AAIP 101 ADVANCED ANATOMY FOR IMAGING PROFESSIONALS

This course is designed to establish a knowledge base in the systems of the human body. The course content describes and discusses in specific detail the various functions of biological systems within the human body. The course introduces concepts relating to tissue, cells and organ systems. Anatomy is heavily emphasized, and individual class sessions often concentrate on specific parts of the body. Beginning human physiology covers the mechanisms sustaining human life and addresses each system's specific function, health issues, pathologies, diagnostics and disease prevention.

AP 145R ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the major gross— anatomical and systematic anatomy structures and functions / interactions of the different (organ) systems as well as the related terminology. The course will also introduce students to basic diagnostic images of gross- anatomical and systematic anatomy structures, as well as basic physiology, common diseases & treatments, and diet and nutrition. Apart from giving students an introduction to the body and its organ systems, this course will primarily

focus on the clinical anatomy as it pertains to the appendicular skeletal system (upper and lower limbs), muscular system, and nervous system.

MR 1601 MRI INSTRUMENTATION I

This course provides a comprehensive overview of the instrumentation associated with MR imaging. The subjects are formatted in individual outlines and can be sequenced according to level of knowledge desired. Topics include: magnetism, properties of magnetism, MR system components, MR magnets (permanent, resistive, superconducting, hybrid), radio frequency (RF) systems, gradient systems, shim systems and system shielding. This course will primarily focus on the Magnetism, Magnets, Shim Systems.

Associate of Applied Science in Nursing

The Associate Degree of Nursing Program at Southwest University at El Paso is a 15-term program of study that leads to an Associate of Applied Science Degree upon completion. This program prepares the graduate for the NCLEX-RN examination, which is a requirement for licensure and is administered by the National Council for the State Boards of Nursing (NCSBN). The curriculum at Southwest University at El Paso School of Nursing is designed with a block of content framework. The courses are structured in a manner that delivers the material from simple to complex. Nursing skills are divided into two courses and are taught before clinical or simulation entry. The design of the program focuses on the four roles of a nurse as expressed by the Texas Board of Nursing: Provider of Patient-Centered Care, Member of Health Care Team, Member of the Profession, and Patient Safety Advocate. The major concepts of health promotion, disease prevention, and disease management are incorporated into each course. The nurse utilizes a systematic framework for assessment, planning, and evaluation of nursing care.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor
3. Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.
4. Background check and drug test
5. Proof of citizenship (or Workers Visa)

Prerequisites: Successful completion of the nursing entrance exam (HESI). HESI exam score must be a passing score to be considered for admission to the program.

Program Length: 1960 CH (Clock Hours)

Total Lab Hours: 200 Hrs

Total Lecture Hours: 890 Hrs

Clinical Hours: 870 Hrs

Total Program Hours: 1960 Hrs

Total Length of Time: 104 Wks

Total Credit Hours: 128 credits

128 Quarter Credit Hours

Program Delivery: **Program Delivery: Blended (Residential and Online, please see marked classes)** *The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)*

Clinical Lab: Students will be required to complete 870 hours of clinical rotations, these rotations will be issued by the University.

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equations, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

RNSG 1301 PHARMACOLOGY I

The course includes a Pharmacology lab component of safe medications calculation and administration. The emphasis is on accuracy of calculations and the critical thinking involved in patient safety and minimize the risk of harm to patients and providers through both system effectiveness and individual performance. It includes reading, interpreting and solving calculation problems encountered in the preparation of medication. The learner will be exposed to metric, apothecary and avoirdupois systems. Dimensional Analysis for calculating dosages of oral, powdered and parental medications, pediatric and adult weight-based medications and intravenous medications taught. This course focuses on the standards of nursing practice in relation to the safe administration of medications to all the age groups. The nursing students exposure to pharmacology principles of drug action will increase as the pharmacokinetics and pharmacodynamics are enhanced to a higher level and supported by the framework of the nursing process. Will learn to function effectively within the nursing and inter-professional teams in order to foster open communication, mutual respect and shared decision-making. All common drug classifications will be discussed as well as the legal responsibilities of the nurse as they apply to medication administration..

RNSG 1410 HEALTH ASSESSMENT I

Health Assessment transforms the nursing student's knowledge of the human anatomy and physiology into the skillful art of performing a comprehensive health assessment utilizing the skills of history taking, inspection, palpation, percussion, and auscultation to determine normal or abnormal findings. This course uses didactic and simulated clinical experiences to teach students systematic data gathering, analysis, and documentation of health assessment data with emphasis on cultural and lifespan considerations. Assignments focus on physical health, safety, functional capacity, growth and development, psychological, socio-cultural, and spiritual health of individuals and families within a legal/ethical framework.

RNSG 1411 HEALTH ASSESSMENT II

Health Assessment transforms the student's knowledge of the human anatomy and physiology into the skillful

art of performing a comprehensive health assessment utilizing the skills of history taking, inspection, palpation, percussion, and auscultation to determine normal or abnormal findings. Opportunity is given to the students to use effective communication and psychomotor skills to collect data about health history and perform physical examination in a laboratory setting. This course uses didactic and simulated clinical experiences to teach assessment data with emphasis on cultural and lifespan considerations. Assessments focus on physical health, functional capacity, growth and development, psychological, socio-cultural, and spiritual health of individuals and families within a legal/ethical framework.

Associate of Applied Science in Ophthalmology Technician

The Ophthalmology Technician Program has been designed to prepare a student to assist ophthalmologists in detecting, diagnosing, and treating ailments, and diseases of the eye. The students will study in detail the structure and development of the human eye, the functions of internal and external parts of the eye; like the pupil, iris, retina, cornea, crystalline lens, vitreous membrane and optic nerve. Students will study the etiology, as well as the signs and symptoms of ophthalmic pathology. Students will recognize the properties of light and geometric optics, including refraction, reflection and comprehending the principles of vision. Students are expected to gain proficiency in the duties for technicians which include: assisting ophthalmologists through a patient's medical history and performing basic diagnostic tests to assess the patient's vision, measurement of sight, observing eye movement with specialized instruments to determine the existence of any complications. Upon completion, students should also be able to: test and measure vision functionality, acuity, color perception, examine the cornea, apply drops, and any other common duties required in the field.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

Total Lecture Hours:	600 Hours
Total Lab Hours:	350 Hours
Total Externship Hours:	960 Hours
Total Program Hours:	1910 Hours
Total Length of Time:	72 Weeks
Total Credit Hours:	109 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

AAO 101 ADVANCE ANATOMY FOR OPHTHALMOLOGY TECHNICIAN

This course is designed to strengthen the student's knowledge on the ophthalmology system. The course content describes specific details of the various functions of the eye and its different components. In this course there will be discussion regarding the eye as it relates to cells, tissues, organs, and organ system. Anatomy is heavily emphasized, and specific parts of the eye will be detailed. Discussion regarding eye physiology will cover the mechanisms sustaining visual acuity and eye movement. Health issues, pathologies, diagnostics and disease prevention will also be discussed in class.

MS 101 MATH SKILLS

Math Skills will provide instruction and review in elementary arithmetic skills, mathematical operations, and their applications. The content includes operations with whole numbers, whole number and decimal fractions, ratio and proportion, percent, and calculator fundamentals. The course also introduces students to the basic fundamentals of dosage calculations.

Associate of Applied Science in Radiological Sciences

Radiological technologists are healthcare professionals who use specialized X-Ray equipment to create images of structures inside the human body. They must be able to interact with people who range from healthy to critically ill. Technologists are supervised by board certified radiologists. This course is designed to prepare the student to perform clinical examinations of the human body with special consideration to image production, quality control, signal to noise ratio and basic pulse sequences. Graduates will be able to obtain employment in orthopedic clinics, diagnostic imaging clinics, and hospitals.

Admissions requirements:

- All potential students must receive a school catalog prior to signing an enrollment agreement
- Student must attend entrance orientation
- A high school diploma or its equivalency is required for admission into the program
- Prospective students must complete a successful interview with an intake (admissions) counselor
- Prospective students must submit an AAS Radiology Admissions Application
- Applicant must be at least 17 years of age (applicants under the age of 18 require written permission from a parent or legal guardian in order to enroll.)
- Applicants must take and pass an institutional HESI entrance exam.
- Applicants must be a graduate of Southwest University AAS Allied Health Program. (Tuition and Program length for these programs are in addition to the cost for this program; please refer to the institutional catalog for program specific tuition costs).

<u>Allied Health Program</u>	<u>Allied Health Program Tuition and Fees Cost</u>	<u>Adjusted Tuition and Fees (Includes transfer credits)</u>	<u>Tuition and Fees (including all adjustments)</u>	<u>Total Additional Program length</u>
<u>Medical Assistant</u>	<u>\$17,781</u>	<u>\$36,281</u>	<u>\$54,062</u>	<u>22 Terms</u>
<u>Associate in Applied Science in Medical Assistant</u>	<u>\$28,035</u>	<u>\$34,657</u>	<u>\$62,692</u>	<u>24 Terms</u>
<u>Associate in Applied Science in Medical Coding and Billing</u>	<u>\$31,457</u>	<u>\$35,821</u>	<u>\$67,278</u>	<u>26 Terms</u>
<u>Associate in Applied Science in Health Administration</u>	<u>\$30,451</u>	<u>\$35,108</u>	<u>\$65,559</u>	<u>26 Terms</u>

General Criteria: Applicants for specialized admissions must satisfy minimum criteria in order to be eligible for consideration for ranking. The Following is required for all students wishing to enroll the program:

- Must be a graduate of an SU AAS Allied Health Program or a SU BS program
- Must have earned a minimum SU cumulative GPA of 3.5, an attendance rate of 90% and no write ups are required.
- The following is required for all outside students wishing to enroll the program: Baccalaureate in Science and Minimum cumulative GPA of 3.0 (Transcript is required for academic review)

Students must complete admissions requirements prior to enrollment in specialized courses. There is a scheduled ranking date for this program. It is ultimately the student's responsibility to submit all required documentation to allow for normal processing.

Total Lab Hours:	80 Hrs
Total Externship Hours:	1050 Hrs
Total Lecture Hours:	1210 Hrs
Total Program Hours:	2 350 Hrs
Total Length of Time:	96 Weeks
Total Credit Hours:	160.50Credits

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if student is enrolled in at least 8.0 credit hours in a six week period.

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

ALG 110 ALGEBRA I

This course is designed to provide understanding of basic properties of real numbers and to use algebraic models to solve verbal problems with linear and quadratic equations, complex numbers, factoring and graphs. Emphasis is placed on manipulation of algebraic equations, problem solving and their correlation to general arithmetic.

**PSY 110: INTRODUCTION TO GENERAL PSYCHOLOGY**

This course will describe the basic theories, principles, and concepts of psychology as they relate to behaviors and mental processes. This course will also apply psychological theories, principles, and concepts to everyday life, including industry and organizations. The students will learn to compare and contrast material and information from other cultures.

RADS 1001: IMAGE ANALYSIS I

The course content is designed to provide a basis for analyzing radiographic images. Included are the importance of minimum imaging standards, discussion of a problem-solving technique for image evaluation and the factors that can affect image quality. Actual images will be included for analysis. Topics in this course will include guidelines for image analysis, Introduction to digital radiography image analysis, image analysis of the chest, abdomen, shoulder, and lower extremities.

RADS 1101: PRINCIPLES OF RADIOGRAPHIC IMAGING I

This course is the first of six Radiographic Principles courses. The course content will include discussion relative to radiation concepts, electricity, electromagnetism, basic radiographic x-ray equipment and the x-ray tube. The course will provide discussion relative to the discovery of x-rays and x-ray properties. The course will include the relationship between current, potential difference and resistance in a circuit known as Ohm's law.

Associate of Applied Science in Surgical Technology

The Surgical Technology Program has been designed to train students to work with surgical teams as a Surgical Technologist. Surgical Technologists serve as a vital role with the process and procedures of patients undergoing surgery from pre- to post operation. This program covers all foundational competencies required to successfully understand the needs of surgical technologist in the surgical room and required for certification exams. The curriculum covers materials that will train students: from surgical room sterilization and preparation, initial patient intake, perioperative procedures and post operation assistance. Upon successful completion graduates will obtain competencies required for certification examinations.

Admissions Requirements:

- ✓ A high school diploma or its equivalency is required for admission into the program;
- ✓ Successful interview with an admissions representative is required prior to admissions.
- ✓ As some sites require a background check, a background check will be administered before externship.

Total Lecture Hours: 745 Hrs

Total Lab Hours: 385 Hrs Total

Externship Hours: 570

Total Program Hours: 1700 Hrs

Total Length of Time: 72 Weeks

Total Credit Hours: 111.00

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

Program Delivery: Blended (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities /project hours as they see necessary.

Drop Disclosure: Due to the sensitivity of the field of study and competitive demand of the workforce, Students will be held responsible for adhering to a set standard issued by the College of Allied Health. These standards include the following:

1. Any grade below 75% (0-74) will be considered an "F"
2. Any student whom fails the same course twice will automatically be dropped from the program.

AP 101 ANATOMY AND PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the Body Cells, Tissues/ Organ Systems, Integumentary, Musculoskeletal and Nervous Systems.

This course provides instruction in critical reading and thinking skills necessary for college reading and research. The course includes instruction in critical analysis, critical interpretation, and advanced instruction in vocabulary and literal comprehension. Materials used in this course will be high interest selections such as short essays, newspaper & magazine articles, general stories, etc. The instructor will help students analyze, synthesize and interpret general reading materials including some with abstract concepts; increase speed and comprehension in silent reading; develop the skill to deduce the meaning of unfamiliar vocabulary from context; read for enjoyment; and at the same time gain new vocabulary words and sentence structures.

Bachelor of Science in Business Management

This program is designed to prepare students seeking employment in business management and managerial levels of the business market. Students will receive instruction to gain mastery over the principles, methods, and procedures of business management, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, graphic design, and business law. Students who complete this program will understand the systems and procedures of organizing and planning office work, controlling employees' performance, and exercise leadership skills that can make the modern employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: cost clerks, supervisor, office manager, marketing representative, etc.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture and laboratory experience.

Program Length: 2280 CH (Clock Hours)
156 Weeks

Program Delivery: Blended (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Definition of Academic Year: An academic year will consist of 36 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Total Lab Hours:	330 Hrs
Total Lecture Hours:	1950 Hrs
Total Program Hours:	2280 Hrs

Bachelor of Science in Health Administration

This program is designed to prepare students seeking employment in medical management and administrative levels of the healthcare industry. Students will receive instruction to gain mastery over the principles, methods, and procedures of management in a diverse medical industry, and will gain a broad understanding and appreciation for other elements of the management perspective such as finance, communications, economics, accounting, employee and patient law standards. Students who complete this program will understand the policies and procedures of organizational development, monitoring financial capital, employees' performance, and exercise modern leadership dynamics that can provide the current healthcare employer-employee relationship a pleasant, reward and successful experience. Graduates of this program can expect to be hired in entry-level management positions, such as: medical office managers, supervisors, unit managers, department leads, etc.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and

The program content is offered through lecture and laboratory experience.

Program Length: 2270 CH (Clock Hours)

Program Delivery: **Blended** (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Definition of Academic Year: An academic year will consist of 36 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six week period.

Total Lab Hours:	330 Hrs
Total Lecture Hours:	1940 Hrs
Total Program Hours:	2270 Hrs

Bachelor of Science in Nursing (RN to BSN Bridge)

This program is designed to prepare Registered Nurses with an Associate's Degree in Nursing to advance in their nursing Career, and be proficient to participate at different levels of leadership within their nursing practice and as part of the Health Care Team. This is known as a RN to BSN degree. The program emphasis includes Evidence Based Nursing, Critical Thinking, Leadership and Management, Gerontology, and Public Health/Preventive Nursing. The program prepares the Nursing Professional to give a high-quality of care to patients, but also provide a high-quality customer service.

Admissions requirements:

1. All potential students must receive a school catalog prior to signing an enrollment agreement
2. A high school diploma or its equivalency is required for admission into the program;
3. Successful interview with an intake (admissions) counselor; and
4. Successful completion of a nursing registry unencumbered license (Registered Nurse (RN) license will be verified by admissions director for successful completion of the NCLEX-RN)
 - a. 55 Semesters hours (82.5 quarter credit hours) of lower division courses and General Education courses must be completed before enrollment in BSN core of courses
 - b. Additionally 36 semester hours of registered nursing credits (54 quarter credit hours) must be completed
5. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete forms that review the tasks experienced throughout the duration of the program. This will serve as a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through distance lecture and laboratory. 99 Quarter credits will be awarded under the Southwest University RN to BSN curriculum.

Prerequisites:

Registered nurse applicants seeking admission to the RN to BSN must have completed the following:

General Education	Semester Credit Hours	Quarter Credit Hours
Professional Communication	2	3
Social Sciences	10	15
Electives	6	9
English	4	6
College Algebra	2	3
Nursing Education	Semester Credit Hours	Quarter Credit Hours
ADN Nursing Credit	60	90

Program Delivery: Full Distance

Distance Authorization: This program will apart with the institutions agreement with NCSARA, the degree will be eligible in all states within the NCSARA pact, this excludes California. Students whom seek to register from the state of California must seek additional information from an admissions advisor.

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 8.0 credit hours in a six week period.

Transfer Hours:

General Education: 36 Quarter Credit Hours

Nursing: 90 Quarter Credit Hours

Total Lab Hours: 100 Hrs

Total Lecture Hours: 580Hrs

Total Program Hours: 680 Hrs

Total Length of Time: 48 Wks

Bachelor of Science in Radiology Management

The Radiology Management program is designed to help the Imaging professional prepare for the many types of leadership positions available in the Radiologic Sciences. The degree program will provide essential information relative to the most current trends and effective management practices in Radiology. The program core content focuses on the Association for Medical Imaging Management's (AHRA) professional development resources along with current medical procedures. These procedures include courses that apply the electronic medical record conversion with PACS systems and Joint Commission practices.

Admissions requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an intake (admissions) counselor; and
3. Successful completion of a ARRT Imaging registry unencumbered license (Registered Technologist, RT(R), (CT), (MR), (US), (NM), (CIT)(RTT)(CVT)) license will be verified by admissions director for successful completion of the ARRT Registry) or successful completion of an ARRT, ARMRT, ARDMS recognized program (must be approved by department director).
 - a. 30 Semester hours (45 quarter credit hours) of lower division courses must be completed before enrollment in BSRM core of courses, the required 30 credit hours (45 quarter credit hours) are as follows:
 - i. 13 semester hours of general education credit hours (19.5 quarter credit hours) must be completed; and
 - ii. 17 semester hours of prerequisites general education credit hours (25.5 Quarter Credit Hours) must be completed
 - b. 40 Semester hours (60 quarter credit hours) of radiology courses must be completed before enrollment in the BSRM program. Modalities may vary
4. Background check and drug test
5. Updated immunization records (a listing of immunizations can be located in the admissions office)
6. Student must complete a prerequisite orientation to determine if a student will be able to manage education utilizing the online platform. In order to receive credit for attending this orientation (presented on the LMS) a student must complete assignments such as writing a brief bio, answering a thread question, respond to other new enrollees and other tasks experienced throughout the duration of the program. This will serve as a simulation of the courses offered and a determinant if the student will be prepared to start with the distance education platform provided.

The program content is offered through online lecture. 78 Quarter credits will be awarded under the Southwest University BSRM curriculum.

Prerequisites:

Registered applicants seeking admission to the BSRM must have completed the following:

General Education		
Prerequisites Gen Ed Courses	Semester Credit Hours	Quarter Credit Hours
Anatomy and Physiology	8	12
General Pathology	3	4.5
Biology	4	6
Introduction to Psychology	2	3
General Education	Semester Credit Hours	Quarter Credit Hours
Introduction to Computers	2	3
Professional Communication	2	3
Additional Social Sciences	3	4.5
Electives	2	3
English	2	3
College Algebra	2	3
Area of Concentration		
Radiology Courses	Semester Credit Hours	Quarter Credit Hours
May vary based on modality	40	60

Program Delivery: Full Distance

Distance Authorization: This program will apart with the institutions agreement with NCSARA, the degree will be

eligible in all states within the NCSARA pact, this excludes California. Students whom seek to register from the state of California must seek additional information from an admissions advisor.

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if they are enrolled in at least 7.5 credit hours in a six-week period.

Transfer Hours:

General Education: 13 semester hrs (19.5 Quarter Credit Hours)

General Education Prerequisites/Lower Division: 17 semester hrs (25.5 Quarter Credit Hours)

Radiology Advanced Standing Credit (ARRT Completion): 40 semester hrs (60 Quarter Credit Hours)

Master of Business Administration

The Master of Business Administration focuses on advanced business and management concepts. This program is designed to enhance the knowledge and skills necessary for successful leadership in a rapidly changing global business environment. The program comprises a diverse range of competencies aimed at developing well-rounded business leaders. Students enrolled in the program will explore the challenges and opportunities of managing employees from different age groups, global business operations, research process knowledge, and the use of data to make informed business decisions. The program will expand on concepts such as ethical responsibility, effective people management skills, and prepare students with the financial management skills necessary for leaders in the business realm.

Admissions Requirements:

1. A baccalaureate degree recognized by the United States and its territories must be from an institution recognized by the U.S. Secretary of Education or the Council for Higher Education Accreditation (CHEA) required for admission into the program. A baccalaureate from an institution located outside of the United States and its territories must be evaluated by a credential; evaluation service provider.
2. Submit an academic transcript to evidence the baccalaureate.
3. Successful interview with an admissions representative is required prior to admissions.

The program content is offered through online lectures in an asynchronous format.

Masters in Health Administration

The Masters in Health Administration is designed to prepare students seeking to advance their careers and take administrative and leadership roles within the healthcare industry. Students will receive instruction to gain proficiencies in the principles, methods, and procedures of leadership and management in a diverse medical industry. They will gain a broad understanding and appreciation for other elements of the management perspective, such as finance, communications, economics, and accounting. Students who complete this program will understand the policies and procedures of organizational development, monitor financial capital and employees' performance, and exercise modern leadership dynamics that can help provide the current healthcare employer-employee relationship with a pleasant, rewarding, and successful experience.

Admissions Requirements:

1. A baccalaureate degree recognized by the United States and its territories must be from an institution recognized by the U.S. Secretary of Education or the Council for Higher Education Accreditation (CHEA) required for admission into the program. A baccalaureate from an institution located outside of the United States and its territories must be evaluated by a credential; evaluation service provider.
2. Submit an academic transcript to evidence the baccalaureate.
3. Successful interview with an admissions representative is required prior to admissions.

The program content is offered through online lectures.

Masters in Nursing

The Master of Science in Nursing program provides core courses in nursing theory, research, evidence-based practice, leadership, professional role development, health policy, and information systems. Graduates will be prepared to lead and promote culturally competent healthcare globally, designing interprofessional teams and integrating care services. They will translate evidence base practice into ethical and innovative practices, utilizing their clinical knowledge to restore wellness and improve team functions. Graduates will articulate issues and trends affecting nursing and healthcare delivery, critically appraise and utilize various sources of knowledge for quality outcomes, and develop collaborative relationships to improve health outcomes in diverse settings.

Admissions Requirements:

1. A baccalaureate degree recognized by the United States and its territories must be from an institution recognized by the U.S. Secretary of Education or the Council for Higher Education Accreditation (CHEA) required for admission into the program. A baccalaureate from an institution located outside of the United States and its territories must be evaluated by a credential; evaluation service provider.
2. Submit an academic transcript to evidence the baccalaureate.
3. Successful interview with an admissions representative is required prior to admissions.

The program content is offered through online lectures.

Program Length of Time: 96 Weeks

Total Lecture Hours: 960
Total Lab Hours: 0
Total Externship Hours: 0
Total Program Hours: 960
Total Length of Time: 96 Weeks
Total Credit Hours: 96
Program Delivery: Full
Distance

Distance Authorization: We are authorized by the State of Texas Higher Education board, and for all other state approvals, please refer to our catalog.

Graduation Requirement: Students must achieve a cumulative grade point average of 3.0 (on a 4.0 scale) to be considered eligible for graduation. Only courses completed with a minimum grade point of 2.0 may be applied toward program completion.

Full Time Status: The student's enrollment status will be considered full time if the student is enrolled in at least 6.0 credit hours in a six-week period.

NURS 5000 – Advancing Professional Roles and Values

This course lays the foundations for academic and professional success as scholar-practitioners and agents of social change. Assignments guide students in utilizing resources that bolster success, adopting evidence-based practices, honing graduate-level writing skills, ensuring academic integrity, and fostering professional development. Furthermore, the course introduces the information and requirements necessary for the MSN capstone.

NURS 5400 – Collaborative Leadership

This course explores essential characteristics of the advanced professional nurse in the role of leader, educator, practitioner, or informatics specialist. In this course, students will apply evidence-based strategies to facilitate interprofessional collaboration on teams. Students will explore the role of nurses in advocating for change at the bedside, as well as leading teams to advocate for health policy reform. Students will gather and analyze data to identify patients and populations at risk and recommend policy changes to improve health outcomes in the community. Students in this course will develop leadership skills to transform nursing and adapt organizations in response to the turbulent healthcare environment. They will develop and apply theory-based leadership competencies to create the organizational cultures needed to achieve quality patient outcomes. Students will also explore evidence-based strategies to create healthy work environments that empower nurses and build collaborative interprofessional teams.

NURS 6000 – Advanced Integrative Health Assessment

Advanced Integrative Health Assessment builds upon foundational knowledge and skills acquired during undergraduate studies of physical health assessment and expands upon these concepts by focusing on advanced biopsychosocial and sociocultural assessment of patients and populations across the lifespan. This course places a strong emphasis on the use of comprehensive health promotion, disease prevention, and health restoration models to address health concerns in patients and communities. Students will gain advanced assessment knowledge and skills for clinical interviewing, focused history taking, critical diagnostic reasoning, and clinical decision-making using a problem-focused framework that integrates practical knowledge of health patterns in patients and communities with authentic experiences. Through this course, students will develop a deeper understanding of the interconnectedness of physical, social, cultural, and mental health, enabling them to provide advanced, integrative care to patients and populations.

NURS 6300 – Quality Improvement in Healthcare

This course incorporates current standards of quality and safety within the context of value-based care. In a value-based healthcare system, the benefits are derived from measuring health outcomes against the cost of delivering the outcomes. These benefits are then extended to patients,

providers, payers, suppliers, and society as a whole. This course introduces new healthcare delivery models, which stress a team-oriented approach to patient care and sharing of patient data so that care is coordinated, and outcomes can be measured easily. Emphasis is placed on performance and quality improvement methods that underlie value-based nursing care. The nurse in advanced practice today must exemplify the standards of quality and safety and be prepared to lead the delivery of value-based patient-centered care.

NURS 6400 – Informatics for Transforming Nursing Care

Informatics for Transforming Nursing Care integrates nursing science with multiple information and analytical sciences to identify, define, manage, and communicate data, information, knowledge, and wisdom in nursing practice. Students will acquire knowledge and skills to apply informatics concepts, communications, and data that are critical to facilitating interprofessional data-driven decision-making for supporting healthcare decisions. Students will examine the role of the nurse informaticist in current practices related to the collection, access, and use of health information and knowledge, as well as the implementation of clinical systems. Through this course, students gain an understanding of how informatics is used to improve advanced nursing practice and healthcare outcomes across organizations, public health, and consumer health settings. This course aligns theoretical concepts with practical applications of informatics and is consistent with the functional areas and responsibilities of informatics nurses as defined by American Nurses Association Scope and Standards for nursing informatics.

NURS 6700 – Nursing Capstone

The Nursing Capstone course provides an opportunity for students to apply the knowledge and skills they developed in previous courses toward the successful implementation

of their healthcare improvement project (HIP). This phase puts into action all the components of project management that were planned and developed while working collaboratively with key stakeholders to establish the need and feasibility of the HIP, analyzing the organizational readiness for change, and planning the implementation and evaluation phases. In this phase, students will develop and implement a training plan for staff, managers, and leaders. They will also implement the communication plan they developed in a previous course. They will also manage the implementation process by applying organizational standards and practices. Students will demonstrate strong leadership skills when meeting with stakeholders to report the status of the implementation phase and collaboratively problem-solve risks.

Students will evaluate the success of their healthcare improvement project (HIP) by analyzing results, using the key performance indicators and metrics that were identified while planning the evaluation phase. Students will present the results of the improvement project in a final report and presentation with a focus on lessons learned throughout each of the phases: initiation, planning, implementation, and evaluation. Reflective and analytic thinking are essential aspects of a capstone project, as students reflect and report on the successes and challenges encountered in each phase

Medical Assistant/Laboratory Assistant

The Medical Assistant/Laboratory Assistant program is designed to assist students in gaining the necessary skills to be competent in data processing operations, records management, medical billing, medical coding, and certain non-invasive clinical procedures necessary to work in today's medical environment as a medical assistant. Program graduates will develop the knowledge and skills in the areas of medical administrative duties (recording vital signs, medical histories, arranging for hospital admission and laboratory services, purchasing supplies, billing, and bookkeeping), certain clinical duties such as preparation of laboratory specimens, disposing of contaminated specimens, sterilizing medical instruments, preparing patients for examination; delivering patient instruction, authorizing drug refills as directed, telephoning prescriptions to the pharmacy. Additionally, successful graduates will be proficient in customer services skills, business correspondence, and computer skills. Program graduates will be eligible to become a medical assistant, medical coding specialist in a doctor's office or dental office; or a public or private health care facility; or in a clinical laboratory.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

Total Lecture Hours:	375 Hours
Total Lab Hours:	345 Hours
Total Externship Hours:	190 Hours
Total Program Hours:	910 Hours
Total Length of Time:	36 Weeks
Total Credit Hours:	60 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

Program Delivery: Blended (*Residential and Online, please see marked classes*) The program content is offered through lecture, laboratory, and externship experience. (certain lecture and/or laboratory courses may be delivered online, those courses are identified as blended, below)

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary.

AP 101 ANATOMY & PHYSIOLOGY I

This course provides systemic and functional review of human gross anatomy and systematic anatomy in order for students to obtain the knowledge required in the allied health professions. Students will learn the physiology of different (organ) systems as well as the related terminology. The course will cover the following subject areas: Organization of the Body Cells, Tissues/ Organ Systems, Integumentary, Musculoskeletal and Nervous Systems.

MT 102 MEDICAL TERMINOLOGY II

This course is a continuation of MT 101 and provides in-depth medical terminology information including Greek and Latin derivations, prefixes, suffixes, root words, and combining forms. It provides practice in building and defining medical terms, and emphasizes correct spelling and pronunciation of medical words. Interpreting terminology related to body structure, disease, diagnosis, and treatment is emphasized along with medical abbreviations.

Clock hours of lab: 15

Clock hours of classroom lecture: 15

Clock hours of individual and small group tutoring: provided to student on an as-needed basis

Pre-Requisite: Medical Terminology I (MT 101)

Total Clock Hours: 30

Tuition: \$480.00

Length of time (1 hrs per day, 5 days per wk): 6 wks

Lecture	1.5
Lab	0.5
Ext	0.0

Certificate in Welding

The certificate program is designed to give students entry-level skills in welding. As an industrial welding technician, you will work alongside engineers, supervisors, and workers in the production of quality welded and metal fabricated parts. The program of study will emphasize on blueprints, metallurgy, as well as a basic understanding of electrical safety, material properties, and welding codes. Upon completion of the curriculum, students will have the skills needed for a successful career in industrial welding.

Admissions Requirements:

1. A high school diploma or its equivalency is required for admission into the program;
2. Successful interview with an admissions representative is required prior to admissions.

Total Lecture Hours: 900 Hours

Total Lab Hours: 270 Hours

Total Externship Hours: 210

Total Program Hours: 1380 Hours

Total Length of Time: 60 Weeks

Total Credit Hours: 110.50 Credit Hours

Definition of Academic Year: An academic year will consist of 30 instruction weeks and 36 quarter credit hours.

Full Time Status: Student's enrollment status will be considered full time if the student is enrolled in at least 7.5 credit hours in a six-week period.

Program Delivery: Residential

The program content is offered through lecture, laboratory, and externship experience.

Outside Preparation Policy

SU policy states that all instructors within the certificate programs must assign a minimum amount of outside preparation hours in the form of homework, research, and group projects. The minimum amount of outside preparation is noted in each course syllabi. Instructors are encouraged to assign additional outside preparation activities / project hours as they see necessary

AW-101 Advanced Welding I

This course refreshes students on Advanced Welding Fabrication. Upon completion, students should have a general understanding of the common welding fabrication processes and welding certifications available.
